Name and occupation of spouse within the last 12 months, if married (for Conflict of Interest purposes):

John Brandt, retired after 30 years with CHP now works 20 hours per week with Napa Police Dept.

*Please explain your reasons for wishing to serve and, in your opinion, how you feel you could contribute:

REASONS FOR WISHING TO SERVE: The health and well-being of children age 0-5, their parents and other caregivers has quite literally been the focus of my career. As a charter member of the First 5 Napa Commission, then called the Napa County Children & Families Commission, I worked with my fellow commissioners as an active participant in the community engagement activities that led to the development of the first Community Plan and set in place the philosophy and direction of First 5 Napa's place in our community. First 5 Napa has been a force for supporting the optimal health and development of Napa's children and I hope to both support and strengthen its impact. There are many ways that one can serve their community, but working for children age 0-5 is the area in which I have the greatest interest and commitment, and the most to contribute.

WHAT I CAN CONTRIBUTE: There is currently a rich blend of commissioner expertise and I feel that I can bring a passion for 3 important issues: (1) Infant-Family & Early Childhood Mental Health (IFECMH) including the provider endorsement process to be available in CA in 2010; (2) Reflective Practice in infant, early childhood, and parent work - a component of Best Practice when working with families and children age 0-5; and, (3) networking connections and relationships with national and international luminaries in the 0-5 field. With my public health and prenatal background, I can bring a broad perspective of health, mental health, child development, and relationships as the context in which children grow and learn. Most of all, I can bring my commitment, time and dedication.

Project Management

2002-Present: University of Massachusetts Boston Infant-Parent Mental Health Post-Graduate Certificate Program in Napa, CA

This project entails full management of the Infant-Parent Mental Health Post-Graduate Certificate Program (IPMHPCP) co-developed and co-directed with Dr. Ed Tronick, University Distinguished Professor University of Massachusetts Boston, Director of the Child Development Unit Children's Hospital Boston, and internationally renowned researcher and lecturer on Infant-Parent Mental Health. The IMPHPCP project included original development of the curriculum for the 15-month inter-

disciplinary Infant-Parent Mental Health Fellowship for graduate through post-doctoral Fellows. Faculty have included: Ed Tronick, PhD; T. Berry Brazelton, MD; Alexandra Harrison, MD; Bruce Perry, MD, PhD; George Downing, PhD; Robert Emde, MD; Ron Lally, EdD; Roseanne Clark, PhD; Marie Anzalone, ScD, OTR; Patricia Kuhl, PhD; Barry Lester, PhD; Linda Gilkerson, PhD; Larry Gray, MD; the NCAST work of Kathryn Barnard, RN, PhD; and, the DIR/Floortime Model work of Stanley Greenspan, MD and Serena Wieder, PhD. Management of IPMHFP included overseeing the application and selection process of the inter-disciplinary Fellows, and on-going management of all aspects of the program throughout the 15-month intense and accelerated academic cycle. Fellows are provided with guidance and mentorship in their integration and special project phases. This program is now in its 4th class cycle and currently has 118 current and graduate Fellows. This program was awarded the California Association of Counties (CSAC) Award of Merit in 2003, and the National Association of Counties (NACo) award in 2005. <http://www.csac.counties.org/default.asp?id=789>

1997-2007: Napa County Therapeutic Child Care Center at Napa Co. Health & Human Services

This project has entailed full responsibility for the conceptual and program development of the TCCC, including the actual floor plan design of the center, and overseeing on-going operations since the TCCC opened in March 2001. Program design and therapeutic services were planned with assistance from T. Berry Brazelton, MD, Stanley Greenspan, MD, Bruce Perry, MD, PhD and Ron Lally, EdD. The TCCC can accommodate 32 children age 0-5. Enrolled children are high-risk based on parental affiliation with the Women's Recovery Program, drug & alcohol treatment, mental health programs, Child Protective Services (CPS), Family Preservation, or CalWORKs. Child Start, Inc.'s Head Start/Early Head Start programs provide early childhood education services, while the Public Health Division provides a full-time psychologist, a special education teacher and a child psychiatrist. This program was awarded the California Association of Counties (CSAC) Challenge Award in 2002 and the National Association of Counties (NACo) award in 2004.
