Please explain your reasons for wishing to serve and, in your opinion, how you feel you could contribute.

After many years of involvement with Napa City government, I would like to utilize my experience for Napa County. I have been involved in the property tax reporting and compliance area for over 30 years and have submitted annual returns and several requests for re-assessment to the Napa County Assessor for a variety of companies in several counties in California. I'm very familiar with the property valuation and assessment rules, assisting many companies through the audit process conducted by local assessors. I would use my judgment and experience to make our rulings fair and equitable.
