To Whom It May Concern,

The Carroll's have requested a letter confirming that I am the vineyard manager for their 2-acre vineyard on 1055 Monticello Rd. Napa, CA. I have managed the Carroll's vineyard since February of this year. All our practices for the vineyard are Organic. We spray sulfur for mildew and use organic fertilizers. We farm with the most neighbor friendly practices. We avoid windy conditions to prevent the spread of dust. We drive our tractors during hours to be as quiet as possible.

The Carroll's do the irrigation management so as to minimize the amount of water use. All vineyard irrigation is reclaimed water that David Carroll hauls from NSD in his water wagon trailer. I have recommended they maintain 1 to 2.5 gallons per plant per week depending on the weather and season. So far this season watering seems efficient and adequate.

In my opinion for such a small parcel a fan would not be necessary. We control the weeds early and prune late to protect against frost. Misters with reclaimed water could be used in the event of a severe frost. On the property there are only a very few and very small frost zones. The 10 thousand gallon reclaimed water storage on the property is more than adequate for these needs.

******This is not a comprehensive of list of evidence regarding the historic agricultural uses on the Property. In 2015, the Carrolls only spent a small amount of time trying to understand the history of the Property and the agricultural uses thereon, so other evidence showing the legal nonconforming use is likely available if further time , money, and resources were spent on such an endeavor.***

Betsy and Dave,

We always had cows on the property, goats, a couple pigs, horses, geese and chickens. There was a large chicken coop and a barn and fruit trees we farmed. I personally do not have any pictures. My sisters are working on finding some pictures. Janice and Jerry had horses. They should have pictures. Laurine has contacted them to look for some. Before the folks bought the property it was a Lumber yard. I believe it was called Mahelich Lumber yard. I am not sure how it is spelled. Hope they can find something for you. thank you Ron

Mr. McDowell, we would like to endorse this action in favor of the Carroll's. The address of our property is 1059 Monticello Rd and has been for the past 25 years.

We share a back border of our property with theirs. Since they purchased this property they have been excellent neighbors.

Obvious to us all who share boarders with them is that they have put much money and their own labor into improving this property which used to be a barren field.

It is now lined with olive trees and a 2 acre vineyard. They have also redone the old chicken coup "guest house" at much expense into a fully compliant real home.

They are good hardworking people who have a real commitment to our community not just in home ownership but local business ownership.

We have never experienced any issues with them planting and maintaining their property including the vineyard.

I live at 1057 Monticello Rd. When the property at 1055 was for sale I was hoping for someone like the Carroll's. They exceeded my expectations. They are great neighbors. The improvements they have made to the property are amazing.

I would highly recommend a favorable outcome for them.
