For Conflict of Interest purposes

Please explain your reasons for wishing to serve and, in your opinion, how you feel you could contribute.\*

The County of Napa is well governed and functions smoothly. I believe this is due to the emphasis on team work and public servants' commitment to the community. This philosophy connects with me and my personal traits and goals. I want to give back to this wonderful community. I believe my history, education, and experience as a gerontology psychologist along with daily interactions with other local entities focusing on the aging in Napa County will enhance my ability to provide first hand knowledge to the commission.

Most importantly to me will be my contributions as an "aging" adult with several silent disabilities that can make it difficult for elders to access services.
