PROJECT STATEMENT
Fisher Tentative Parcel Map
Partrick Road

RECEIVED
SEP 05 2006
NAPA CO. CONSERVATION
DEVELOPMENT & PLANNING DEPT.

The purpose of this application is to merge and re-subdivide three existing parcels into six parcels, each of the six being 160 acres or more. The Fisher Family owns three parcels, APN 050-010-024 at 322 acres, APN 050-010-031 at 463 acres, and 050-010-030 at 343 acres, at the end of Partrick Road. Due to the character of the property, the owners have designated proposed building sites for each proposed parcel in an effort to keep the land as natural and undisturbed as possible. In keeping with this goal, each building site has been chosen with great care so that each site is currently served by existing roads. There is now new road construction proposed at this time and there is no new building construction proposed at this time. Each parcel will be served by well and septic system. Because water systems have not been developed for all of the parcels, a "Buyer Beware" statement will be placed on the final Parcel Map. To address any environmentally sensitive concerns, the application contains reports prepared by Napa Botanical Survey Services, Theodore Wooster-Biologist and Geotechnical Consultant RGH.
