Subject: 415 College Ave Angwin

To Whom it May Concern,

We are in favor of the residents of 415 College Ave. being allowed to finish their carport, even though it is not within the current set-back limits. We live at 461 College Ave. in Angwin, which is 4 doors down from the residence. We feel that this improvement will help the aesthetics of the property, and help to increase property values in the neighborhood.

To Whom it May Concern,

Re: 415 College Avenue

I am in favor of the residents of 415 College Avenue, Mike and Lorie Bock, being allowed to finish their carport. I own the properties directly across the street from the Bock's, 400 - 410 College Avenue, in Angwin, California. I feel that this improvement will help the aesthetics of their property, and help to increase property values in the neighborhood.

Sincerely,

John Alimpic

To whom it may concern:

We have no objection to Mike and Lori Bock building a carport next to their home at 415 College Ave in Angwin, Ca.

We understand that a variance is required for them to complete this project. We are in favor of this.

What they have done to their home makes our neighborhood better.

Sincerely
Larry and Beverly Jones

To whom it may concern.

Our family moved from Spokane, W.A.
to 435 College Ave, Angwin the summer
of 1951 after I graduated from high school.
My brother, sister & I attended P.U.C.
I can still remember the frequent questions
of whose property started & stopped, where???

My dad had a surveyor out & our property
was surveyed & marked. Not too long ago
(several yrs.) a surveyor stopped by & I
told him where to look for them on
our property.

Now, Dad & Mom are gone, and our son
also, who lived here, and we are selling -
trying to sell our house. We are very
aware as to what has been happening down
the street from us - 3 houses. It is
difficult enough to sell a house in these
times - Could you please do whatever you
can to help?? Please let the Bochs have
their property so they can finish their house/
garage off to Black nice & appropriate? Thank you
