Subject: Re: a question regarding Hwy 29

Linda,

To the best of my knowledge there are no plans for signals at those intersections. We are working with CalTrans on their SR 29 Channelization project which is scheduled out to 2015 and there has been no mention of signals along the corridor from Mee lane to Charter Oak. Rick Marshall would be a good person to inquire also. I copied him in this response.

In the meantime, Happy Holidays!

Hi John,

I'm hoping you can answer my question without a lot of difficulty. Please feel free to pass the email on to another staff person. You are my only contact in the Public Works department.

Are there any current plans in the works to add traffic signals along Hwy 29 at the Inglewood or the Zinfandel intersections? I had a 2000 EIR for a project which discussed potential future fair share costs of installing traffic signals at one or both of these points. How does the City view this today?

Thanks, Linda
