GRAPE CRUSH AND PURCHASE INQUIRY INSTRUCTIONS

DATA PAGE (IDENTIFICATION, SECTIONS I-III)

Please list all grapes crushed and/or purchased on the data pages.

You may report using computer-generated data, however, please follow the exact format found in the inquiry. Variety code numbers should be identical and the data reported should read across the page, not vertically. Brix code numbers from the previous season should not be used. Brix adjustment factors and a code number should be provided by each winery using computer printouts. Call one of the telephone numbers listed on the cover for a current list of variety codes.

New reporters are often confused by the magnitude of this inquiry. We are here to help you. If you have any problems, please call one of the telephone numbers listed on the cover.

IDENTIFICATION

VARIETY:

Column (1) List the full name of the variety in Column 1. Mixed variety lots should be reported by grape type (i.e., raisin, table, or wine) on the data page(s). If you have red wine grapes and white wine grapes mixed in the same lot, enter them as "mixed red" wine grapes. If you have a lot of mixed red wine grapes, enter them as "mixed red" wine grapes. In the same manner, mixed white wine grapes should be entered as "mixed white".

DISTRICTS:

Column (2)

Identify crushed grapes by the district where they were grown using the map on page 10 and ENTER THE APPROPRIATE DISTRICT NUMBER ON THE ENCLOSED FORMS.

Remember: Report grapes in the district where grown, not the district where crushed.

SECTION I. TOTAL GRAPES CRUSHED AT YOUR FACILITY

Column (3) Total Grapes Crushed, Over-the-scale-tons: Report, by variety and Grape Reporting District, total over-thescale fresh weight tonnage (include Material Other than Grapes (MOG) and defects) for all grapes crushed at your facility. Grape distilling material should be included. Report tonnage to the nearest tenth (i.e., 130.0, 120.4, or 150.1 tons). Report weight of crushed tonnage in the district where the grapes were grown, not where the grapes were crushed.

Column 3 includes grapes that were:

- (a) Purchased and crushed by your firm.
- (b) Custom crushed for the account of an independent grower and/or other firm.
- (c) Grown and crushed by your firm.
- (d) Grown by cooperative members and crushed by you.
- (e) Field crushed and delivered to you.

Don't forget to report Gross Weight that includes MOG and grapes with defects.

Column 3 does not include:

- (a) Grapes purchased, but not crushed by your firm. In this case, the processor actually crushing the grapes should enter the tonnage crushed and degrees Brix on his inquiry. NOTE: Price paid to the grower by the original purchaser is the price that should be reported by the grape purchaser on his inquiry. This also holds for other information asked in Columns 5-19.
- (b) Any raisin distilling material.
- Column (4) Total Grapes Crushed, Weighted Average Degrees Brix: Report, by variety, the weighted average degrees Brix of deliveries. These should be to the nearest tenth (i.e., 19.0, 20.6 or 21.2 percent). If not available, please estimate. (See Page 5, Example 1, for an explanation of how to calculate the "weighted average Degrees Brix.")

SECTION II. FINAL PRICES FOR GRAPES PURCHASED FROM GROWERS FOR WINE, CONCENTRATE, JUICE, VINEGAR AND BEVERAGE BRANDY

Column (5) All Purchased Tons: Report, to the nearest tenth, fresh tons purchased for which prices are <u>final</u> on or before January 10, 2014. Report net weight of purchased tonnage in the district where the grapes were <u>grown</u> and <u>not</u> where the grapes were crushed.

Column 5 includes grapes:

- (a) Purchased from growers for wine, wine vinegar, juice, concentrate and beverage brandy.
- (b) Purchased from other wineries only if that winery was also the producer of the grapes.
- (c) Purchased from growers which are considered separate entities from your processor operation (i.e., separate tax filings are made for the vineyard and winery entities).
- (d) Purchased from growers or other processors, but not crushed by your firm.

Column 5 does not include:

- (a) Material other than grapes (MOG), and defects or other weight adjustments deducted from the gross weight ticket.
- (b) Any raisin distilling material.
- (c) Grapes grown by your winery which are grown in vineyards under the same ownership as the winery.
- (d) Grapes purchased from other wineries that were previously purchased from growers.
- (e) Grapes crushed to grower accounts or crushed for other wineries.

(See Page 5, Example 2, for an explanation of how to report "packaged grape purchasing.")

Column (6) Non-Related Purchased Tons:

Exclude tonnage of grapes purchased from a grower if:

- (a) The grower or an affiliate of the grower, or both the grower and the affiliate of the grower, owned, directly or indirectly, at least 5 percent of the indicia of ownership or voting authority of the winery (processor):
- (b) The winery (processor) or an affiliate of the winery, or both the winery and the affiliate of the winery, owned, directly or indirectly, at least 5 percent of the indicia of ownership or voting authority of the grower;
- (c) The winery (processor) or an affiliate of the winery, or both the winery and the affiliate of the winery, provided long-term financing to the grower in exchange for rights or options to purchase a significant portion of the grower's harvest.

Definitions:

"Affiliate" or "affiliated with" means a person who directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control of another person. For the purposes of this paragraph, "control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of any person.

"Long-term financing" means (i) financing that by its terms is due over a period of more than one year, or (ii) more than 180 days if there is a purchase agreement between a grower and a processor or (iii) if there is a farming agreement where the purchase price is on a per-acre basis.

"Purchase" means the taking by sale, discount, negotiation, mortgage, pledge, lien, issue or reissue, gift, or any other voluntary transaction creating an interest in property. For the purposes of this paragraph, "sale" shall consist of the passing of title from the seller to the buyer for a price.

Verification

of Data:

Pursuant to Section 55601.5 of the Food and Agricultural Code, the Department of Food and Agriculture may examine your records to determine the accuracy of the information provided in this report. Any such determination will occur following publication of the Final Grape Crush and Inquiry Report.

- Column (7) Weighted Average Degrees Brix: Report, by variety, weighted average degrees Brix for all grapes listed in Column 5 or Column 6. These should be to the nearest tenth (i.e., 20.0, 20.7 or 21.3). If not available, please estimate. (See Page 5, Example 1, for an explanation of how to calculate the "weighted average Degrees brix.")
- Column (8) Base Price Per Ton (Contract Price): Report, by variety, the base price for grapes delivered to the winery. Include local hauling allowances normally paid to growers or roadside basis if it is the same price as paid delivered to winery. Exclude any adjustments made for sugar, bonuses, or other allowances where prices are final. A separate line entry must be made for each base price, Brix adjustment factor, or other allowance. Tonnages for the same variety must also be entered on separate lines, if they were purchased under different base price contracts. If deliveries failed to meet contract specifications and the price was renegotiated, enter this renegotiated price in Column 8. If only part of a delivery failed to meet specifications, enter the renegotiated price and tonnage for that portion on a separate line.

(If the winery has a final base price list and degrees Brix adjustment schedule, rather than completing Columns 9 through 15 for each variety purchased, the list may be attached.) Please report prices to the <u>nearest cent</u>. If the final base price is four hundred, fifty dollars, report this as \$450.00. Four hundred, fifty dollars and twenty-five cents should be reported as \$450.25.

The base price paid to the grower by the <u>original</u> purchaser should be reported on the inquiry of the original purchaser. For example: If grapes were sold by Winery A (original purchaser) to Winery B for crushing, Winery B should only report the purchased tons crushed and degrees Brix. The original price paid to the grower, by Winery A, should be reported by Winery A on his inquiry (i.e., Winery A reports price in Section II, while Winery B leaves Section II blank and completes Section I). Because the Grape Crush Report is only concerned with original prices paid to grape growers, the second price paid by Winery B is not to be included on either winery's inquiry.

Columns (9 and 10)

Acceptable Brix Limits: If grapes were purchased, specify the maturity limits of acceptance. Report (in degrees Brix) the minimum limit in Column 9 and the maximum limit in Column 10.

- Column (11) Brix Adjustment Factors Plus and Minus: Report adjustment factors that were applied to the base price reported in Column 7. When calculating the adjusted final payment to producers, report ONE of the following:
 - (a) If no adjustment for Brix was applied to the base price, please indicate "None" and skip Columns 13, 14 and 15.
 - (b) The percentage adjustment from the base price for each degree Brix (or fraction of degree Brix) from the base level in Column 13.
 - (c) The dollar and cent adjustment from the base price for each degree Brix (or fraction of degree Brix) from the base level in Column 13.

Columns (13,

14 and 15)

<u>Degrees Brix Adjustment Limits</u>: If Brix adjustments were reported in Column 11, report the degrees Brix used as a base in Column 13. In Column 14, report the minimum degree to which adjustments would have been made for low sugar and in Column 15 the maximum degree to which adjustments would have been made for high sugar. If no minimum and/or maximum adjustments were specified, report "None" in Column 14 and/or 15.

Column (16) Weighted Average Price Per Ton: Report **net** prices paid on a delivered winery basis (or roadside basis if that is the same price as paid delivered to winery). Include local hauling allowances normally paid to growers; premiums or penalties for low or high sugar; and any other bonuses or allowances.

For each grape variety reported in Column 5 or Column 6, a weighted average net price must be calculated using actual final payments to growers and actual tons received from growers. Prices **must include** all sugar calculations and any bonuses or allowances. **Do not include MOG or defects deducted from deliveries.** Report only final prices in Column 16 (i.e., prices not subject to further revision).

To calculate a delivered price, use the following instructions:

- (a) Roadside basis, include any usual local delivery hauling allowances.
- (b) On-vine basis, include an allowance for both picking and usual local hauling costs.
- (c) <u>Local distance delivered basis</u>, deduct any additional allowance added to the grape price for long distance hauling to the winery.

(See Page 5, Example 1, for an explanation of how to calculate the "Degrees brix and price per ton weighted averages.")

SECTION III. FINAL PRICES FOR GRAPES PURCHASED FROM GROWERS AS DISTILLING MATERIAL OTHER THAN BEVERAGE BRANDY

- Column (17) Purchased Tons Only: Include all purchased grapes (fresh basis) that have been graded or designated for distilling material (DM), other than beverage brandy, that are reported in Section I. In some areas, these grapes are referred to as substandard. Do not include any tonnage previously reported in Section II (Columns 5-16). Do not include raisin distilling material.
- Column (18) Weighted Average Degrees Brix: Report, by variety, the weighted average degrees Brix for DM purchased and reported in Column 17. Report figures to the nearest tenth. If not available, please estimate.
- Column (19) Weighted Average Price Per Ton: Using the net weight in Column 17 and actual price paid, follow the same procedure shown in the example for Column 16's weighted average price calculations.

EXAMPLES FOR "CALCULATING WEIGHTED AVERAGES" AND "REPORTING PACKAGED GRAPE PURCHASING"

EXAMPLE 1: How to calculate a weighted average degrees Brix and weighted average price per ton.

Use the following method to calculate weighted average degrees Brix and final weighted average price for each variety and reporting district where the contract base price and Brix adjustment factors (including Brix limits) ARE THE SAME.

Here is an example: You made the following two purchases.

Variety	District	Tons	Degrees Brix	Base Price	Price Paid Per Ton	Acceptable Brix Limits	Brix Adjustment Factors	Brix Adjustment Limits
Petite Sirah	1	155.5	20.6	\$450.00	\$364.50	19 - 25	+ or - 10%	Base 22, Min 20, Max 24
Petite Sirah	1	20.5	19.0	\$450.00	\$418.50	19 - 25	+ or - 10%	Base 22, Min 20, Max 24

Note: The variety, district, base price, and Brix Adjustment Factors (including Brix limits) are the same. The tons purchased, degrees Brix, and price paid per ton are the only differences in this example.

Step 1: Multiply the tons by the Brix for each lot purchased and then add the products to get the total. You should also add the tons purchased.

Variety	District	Tons	Degrees Brix	Total (Tons X Brix)
Petite Sirah	1	155.5	20.6	155.5 X 20.6 = 3,203.3
Petite Sirah	1	20.5	19.0	$20.5 \times 19.0 = 389.5$
TOTALS		176.0		3,592.8

Step 2: Divide the total (3,592.8) by the total tons purchased (176.0) to get the Weighted Average Degrees Brix.

 $\frac{3,592.8}{176.0} = 20.4$

Step 3: Multiply the purchased tons by the Price Paid Per Ton for each lot purchased and then add the products to get the total.

	Variety	District	Tons	Price Paid	Total
	variety	District	10115	Per Ton	(Tons X Brix)
Γ	Petite Sirah	1	155.5	\$364.50	155.5 X 364.50 = 56,679.8
	Petite Sirah	1	20.5	\$418.50	$20.5 \times 418.50 = 8,579.3$
	TOTALS		176.0		65,259.1

Step 4: Divide the total (65,259.1) by the total tons purchased (176.0) to get the Weighted Average Price Per Ton: 65,259.1 = \$370.79

The correct way to report these two lots of purchased grapes on the Data Page of the Grape Crush and Purchase Inquiry is shown below.

	DATA PAGE																
				SEC.	TION I.						SECTIO	ON II.					
IDE	IDENTIFICATION Total Grapes Crushed At Your Facility Total Grapes Crushed At Final Prices Of Grapes Purchased From Grower(s) For Wine, Concentrate, Juice, Vinegar And Beverage Brandy																
VARIETY	*			Over		Purchased	•	Wtd.	Base	Accepta Lin	ble Brix	Brix Adjustment	;	Adjus	Brix stment L	imits	Wtd. Avg.
(List full name)	Dist. Where Grown	Code	Line	The Scale Tons	Wtd. Avg. Degrees Brix	All Purchased Tons	Non-Related Purchased Tons	Avg. Degrees Brix	Price Per Ton	Min.	Max.	Factors Per Degrees Brix Per Ton Plus & Minus	Office Use	Base	Min.	Max.	Price Per Ton
1	2			3	4	5	6	7	8	9	10	11	12	13	14	15	16
Petite Sirah	1			176.0	20.4	176.0	176.0	20.4	450.00	19.0	25.0	+ or - 10%		22.0	20.0	24.0	370.79

Note: The only time a weighted average should be calculated is if the district, variety, base price, and Brix adjustment factors (included Brix limits) ARE THE SAME. If any of these items are different, a separate line must be recorded for each purchase on the Data Page.

EXAMPLE 2: How to report packaged grape purchasing.

If several grape varieties were packaged together and purchased for one price, report the average price per ton as one mixed lot in Column 5 (Section II). When reporting crush information (Section I), report individual variety and tonnage information.

The table below shows how to complete the data page if a winery purchases the following grapes from District 1: 15 tons Zinfandel, 50 tons Merlot, 5 tons Chardonnay. These grapes were purchased for \$63,000. The average price per ton was \$900.00 (\$63,000/70). This transaction should be reported in the following manner:

GRAPE CRUSH AND PURCHASE SUMMARY

Summarize your crush and purchases as detailed on the data page(s) (Columns 1-19) and general information page. This summary is to be used to verify that the crush and purchases entered in Section A balance with the district totals in Section B. Entries should be to the nearest tenth.

SECTION A: Each ton crushed or purchased should only be entered once in this Section.

N	OTE: (Enter a zero if the question does not apply.)		Tons Crushed		All urchased Tons		Non-Related urchased Tons	Tons Grown By Your Firm
1.	Total tons you crushed for ANY processors and/or firms or growers, who PURCHASED GRAPES , in 2013. (Question 3 on "General Information" page.)	1						
2.	Total tons crushed for growers, who DID NOT PURCHASE grapes, in 2013. (Question 4 on "General Information" page.)	2						
3.	Total tons that were crushed for you by other processors (Question 2 on "General Information" page), but were:			3а		3а		
	a. Purchased by your firm for wine, concentrate, etc., (Section II.).							
	b. Purchased by your firm for distilling materials, (Section III.)			3b	•	3b	•	
	c. Grown by your firm (crushed by others)							3c
4.	Total tons purchased from growers and resold to other processors, but not crushed by your firm (Question 1b on "General Information" page.)			4	į	4	ĺ	
5.	Total tons crushed by your firm that were repurchased from another processor (winery) not from the original grower (Question 1c on "General Information" page.)	5						
6.	Total tons crushed by your firm (Col. 3) that were purchased as distilling material (Col. 17). Enter this tonnage in both columns	6		6	ļ			
7.	Total tons crushed by your firm (Col. 3) that were grown by your firm, not purchased. (Cooperatives report total membership tons crushed.)	7						
8.	Total tons crushed by your firm (Col. 3) that were purchased from growers (Col. 5). Enter this amount in both columns. Do not include purchases for distilling material that were listed on line 6	8		8	ļ			
9.	Total Non-Related purchased tons crushed by your firm that were purchased from growers (Col. 6). Do not include purchases for distilling material that were listed on line 6					9		
10.	GRAND TOTAL TONS: Sum lines 1 through 9. Totals should agree with grand totals in Section B	10	*	10		10		
11.	Of the GRAND TOTAL TONS, what was the tonnage purchased and crushed for CONCENTRATE PRODUCTION	11		11		11		

^{*} This figure should be the same as reported on your 2013 Assessment Form.

SECTION B: Include total tonnage by district from the data page(s).

Crushed tonnages from Column 3 and purchased tonnages from Columns 5 and 17
