Napa County Planning, Building  
& Environmental Services

Sean,

Please accept this request on behalf of my client that the Darms Lane use permit item on today's agenda be continued to March 20 for hearing. As you noted, it appears unlikely that the Commission would get to our hearing, since it is last on the agenda and you have overflow for the Conservation Regs issue.

We also offer this reschedule as a concession to the request of some neighbors who asked for more time to review the matter. We do this in hopes that we can get through the hearing of March 20 without further delay. As you know, this project has been in processing since 2016, with notices and applicant outreach letters going out to all on the noticing list throughout that entire period of time.

Thank you. We will not have our client or the team at the County for this afternoon. Please advise that the Commission has consented to this request.

Best regards,  
Donna Oldford
