Dear Ms. Shelton:

I received some information from Bob Pecota regarding his project and use permit application for Calistoga Artisan Village, which is just across Bennett Lane from our property.

His new vineyard planting is doing extremely well and the improvements to the property are very positive. We support the project, particularly because of the multi-agricultural processing aspect. Napa County should encourage more agriculture and not just wine grapes. We urge a timely approval by the Planning Commission.

Sincerely,

Warren Klima
