EXECUTIVE SUMMARY

The California Health and Safety Code prescribes the procedure to be followed to permit collection of the District's sewer service charges on the tax roll. Staff has amended the rate to \$638.10 per Equivalent Dwelling Unit (EDU) in conformance with the budget adopted on June 7, 2017, and adjusted charges for eligible low-income property owners to reflect a rebate of 28% of the sewer service charge for 1.0 EDU in conformance with the terms of the low-income refund program established by the Board in FY 2006-07 and revised in March 2016.

The attached resolution documents the necessary public hearing requirements as being met, and authorizes the collection of these sewer service charges on the tax roll for FY 2017-18.

BACKGROUND AND DISCUSSION

This item is specifically exempt from the voting requirements of Article XIII C of the California Constitution because it was amended by Proposition 26 in November 2010 to add subdivision (e) under Section 1. Section 1 (e) states that, "As used in this article, "tax" means any levy, charge, or exaction of any kind imposed by a local government, except the following: [. . .] (2) A charge imposed for a specific government service or product provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product."

Placing the District's sewer service charges on the tax roll is an administratively routine but important item. It is done once every year, before the County deadline of August 10th. The Sewer Service Charge ledger will be available for inspection at the District's Administrative Offices prior to the meeting and at the Board of Directors meeting.
