### **RECOMMENDATION**

Approve the updated Sewer System Management Plan (SSMP).

### **EXECUTIVE SUMMARY**

The State Water Resources Control Board (SWRCB) adopted the Statewide Sanitary Sewer Systems General Waste Discharge Requirements (SSS WDR) as Order No. 2006-0003-DWQ on May 2, 2006, amended by WQ 2013-0058-EXEC on August 6, 2013. The SSS WDR requires public agencies that own at least one mile of sanitary sewers to develop and implement an SSMP and update the SSMP at least every five years. The original SSMP was adopted by the Napa Sanitation District Board of Directors in August of 2008 and was last updated in September 2013 which included major reorganization and modifications. This latest update includes only minor changes.

A redline copy of the proposed SSMP modifications is attached to this staff report. A full copy of the SSMP is available for review at NapaSan's office, at the Board meeting on August 16, and upon request.
