1. OPEN SESSION - 4:00 PM**2. ROLL CALL****3. REVIEW OF AGENDA****4. SAFETY MOMENT - Tips & Techniques for Driving in the Rain**

Wet pavement contributes to nearly 1.2 million traffic crashes each year. Many of these accidents are preventable, but are caused by intrepid drivers who don't realize that fair- and foul-weather driving are fundamentally different. Here are some tips you'll want to follow the next time you're caught driving in the rain:

- First and foremost: slow down! It takes longer to stop or adjust in wet weather.
- Stay toward the middle lanes - water tends to pool in the outside lanes.
- Maintain proper following distance (3 Second Rule). This needs to be increased in wet weather.
- Drive in the tracks of a car ahead of you.
- Be more alert when driving in wet or slippery conditions. Watch out for brake lights in front of you.
- Avoid using your brakes; if possible, take your foot off the accelerator to slow down.
- Turn your headlights on even in a light rain, or in gloomy, foggy or overcast weather.

The District is Lost-Time Accident Free Since April 15, 2015.

5. PUBLIC COMMENT PERIOD (five minute per person limitation)
