Subject: Comments on Tentative Order NPDES Permit for Napa Sanitation District

Dear Ms. Watkins

Thank you for the opportunity to comment on the Tentative Order NPDES Permit for the Napa Sanitation District. We understand this proposed permit contains provisions to allow the Napa Sanitation District to deliver more recycled water, especially to users in the Los Carneros Water District. We have a 50-acre family vineyard & farm, and plan to use approximately 8 acre-feet of recycled water yearly through our drip irrigation system.

We fully support this permit and appreciate the time you are taking to ensure that a cost-effective approach to maximizing recycled water delivery is fully realized. Thank you very much.

Regards,

Karen Mueller  
CFO  
Yellow Clay Farm Co  
DBA McKenzie-Mueller Winery
