Subject: Lake Ridge Winery (ECPA P09-00039) ^{HT/AD/DEA} ~~UP~~
Assessor's Parcel: 032-010-068-000

Dear Ms. Doyle:

The City of Napa Water Division has reviewed the application for the subject project. Based on the relatively small size of the winery and its improvements that are proposed, it is not believed the subject project will cause the overall delivery of sediment or other pollutants into Lake Hennessey to increase by more than one percent (1%). However, the application assumes that existing vegetation will manage the effluent from the waste areas located on-site. The project should be conditioned so that if in the future it is determined that the vegetation is not sufficiently managing the effluent from the waste areas, the property owner will need to mitigate these impacts in a timely manner. This property drains into the Lake Hennessey watershed which needs to be protected because it serves as a major water source for the City of Napa.

Thank you for allowing the City the opportunity to review this Erosion Control Plan Application. If you have any questions or if you need any additional information, please call me at 257-9341.

Sincerely,

Megan E. Thomas, P.E.
Associate Civil Engineer, Water Division

cc: Phil Brun, General Manager, Water Division
Joy Eldredge, Senior Engineer, Water Division
