Subject: Kitchak Winery Use Permit, Variance and Road Exception application
Date: Tuesday, January 12, 2010 9:49:35 AM

Lady and Gents,

You should be receiving in the very near future a package relating to our application of a winery use permit at our property at 1094 Hardman Avenue. We are applying for a use permit for a very small winery (maximum 5,000 gallons). The hearing on the use permit is scheduled for next Wednesday, January 20. I understand that it is the policy of many of you to try to tour the subject site prior to hearings and I would like to afford you the opportunity to do so.

Our address is 1094 Hardman Avenue, just off the Silverado Trail between the Trail and Atlas Peak Road.

The drive to our property is gated, and we are not always there, so it would be a good idea to set up appointments for each of you who would like to visit the site. My wife and I are out of town at the moment and will not be returning until late Saturday Evening. No one else, other than our vineyard manager is on site. We would like to schedule tours with each of you anytime Sunday, Monday or Tuesday. We will make ourselves available any time on any of those days.

I appreciate the fact that your time is valuable and completely understand if those days are a problem. So, if visiting the site on Sunday, Monday or Tuesday is a problem, we will make other arrangements but I would very much like to be there to personally tour you around. Just let me know what works the best for you.

You can send me an e-mail or call me at 612-373-3250. My assistant's name is Mary Hischke and if I am not available I will call you back or you can schedule something directly with her.

I look forward to meeting each of you personally.
Thank You for your consideration,
Peter Kitchak
