Dear Juan Carlos,

Upper Valley Disposal Service has received your request to confirm that service for solid waste collection is available at the above location.

Based upon the information that has been provided to us, Upper Valley Disposal will service the solid waste bin that have been previously pulled out of the enclosure, leaving a clear space for our driver to service the bin. It is our understanding the bin will be brought out for service the night before every pick up that is scheduled.

Please let us know if you have any further questions or concerns, we would be happy to go over them with you.

Cordially,

Bob Pestoni
