Subject: Mountain Peak Vineyards Hearing - Request for Continuance

John,

Please accept this as a request for continuance of the Mountain Peak Vineyards Winery Use Permit Hearing, from the previously noticed October 19, 2016 to date certain on November 16, 2016. There are several reasons for our request for continuance:

- (1) We think it is important to have the full Commission seated for this item and that appears to not be the case for Oct. 19.
- (2) County legal counsel Laura Anderson's continued efforts on the project are important, especially given the length of time this has been in the County's queue and various revisions and updates of technical reports.
- (3) It is my understanding that you have just received a 128-page correspondence from Anthony Arger, which follows over 800 pages of written documentation from the initial hearing. We will need time to review and prepare a response to the most recent submittal.

Thank you for your consideration of our request to continue the hearing to November 16, 2016.

Sincerely,

Donna B. Oldford
