**October 11, 2016 Petition
Part 1**

TO: THE NAPA COUNTY PLANNING COMMISSION & BOARD OF SUPERVISORS
PETITION OPPOSING THE ISSUANCE OF PROPOSED USE PERMIT # P13-00320-UP
TO MOUNTAIN PEAK WINERY
(Located at 3265 Soda Canyon Road, Napa, CA; APN: 032-500-033)

~ The undersigned Soda Canyon/Loma Vista area neighbors and other concerned citizens oppose Mountain Peak Winery proposed Use Permit # P13-00320-UP. We feel strongly that approval of the use permit application for a 100,000 gallon winery would cause significant adverse impacts to our remote and rural neighborhood, including but not limited to, the health and safety of the residents and visitors, due to increased traffic from tens of thousands of winery visitors and accidents arising therefrom, an increased fire risk in a high fire danger area, an increase in noise levels, as well as significant environmental impacts, including but not limited to the probability of local groundwater pollution and depletion, disruption of local plant and animal species, and the possibility of disturbing archaeological sites including remains and remnants from Native American populations indigenous to Napa that spent summers on Atlas Peak. In addition to the increase in traffic resulting from winery employees and vendors, the proposed public tours, tastings, and industry marketing events are expected to bring tens of thousands of visitors to our quiet peaceful neighborhood each year. The site is located in a remote rural high fire danger area served by a single narrow, winding, dead-end road. We respectfully request that the Planning Commission and the Board of Supervisors protect our remote and rural neighborhood by denying the use permit requested by Mountain Peak Winery or at least imposing significant and meaningful restrictions on this project.

PÉTITION TO NAPA COUNTY BOARD OF SUPERVISORS AND PLANNING COMMISSION

The undersigned Soda Canyon/Loma Vista area neighbors and other concerned citizens oppose Mountain Peak Vineyards, LLC proposed Use Permit # B14-00226. We feel strongly that approval of the use permit application for a 100,000 gallon winery would cause significant adverse impacts to our neighborhood, including but not limited to the health and safety of the residents and visitors, due to increased traffic and increased winery visitors, an increased fire risk in a high fire danger area, increase in noise levels, as well as significant environmental impacts, including but not limited to the high probability of local groundwater depletion. In addition to the increase in traffic resulting from winery employees and vendors, the proposed public tours, tastings, and industry marketing events are expected to bring thousands of visitors to our quiet peaceful neighborhood each year. The site is located in a remote rural high fire danger area served by a single narrow, winding, dead-end road. We respectfully request that the Planning Commission and the Board of Supervisors protect our neighborhood by denying the use permit requested by Mountain Peak Vineyards, LLC or at least imposing significant and meaningful restrictions on this project.

**PETITION OPPOSING THE ISSUANCE OF PROPOSED USE PERMIT # P13-00320-UP
TO MOUNTAIN PEAK WINERY**

(Located at 3265 Soda Canyon Road, Napa, CA; APN: 032-500-033)

~ The undersigned Soda Canyon/Loma Vista area neighbors and other concerned citizens oppose Mountain Peak Winery proposed Use Permit # P13-00320-UP. We feel strongly that approval of the use permit application for a 100,000 gallon winery would cause significant adverse impacts to our remote and rural neighborhood, including but not limited to, the health and safety of the residents and visitors, due to increased traffic from tens of thousands of winery visitors and accidents arising therefrom, an increased fire risk in a high fire danger area, an increase in noise levels, as well as significant environmental impacts, including but not limited to the probability of local groundwater pollution and depletion, disruption of local plant and animal species, and the possibility of disturbing archaeological sites including remains and remnants from Native American populations indigenous to Napa that spent summers on Atlas Peak. In addition to the increase in traffic resulting from winery employees and vendors, the proposed public tours, tastings, and industry marketing events are expected to bring tens of thousands of visitors to our quiet peaceful neighborhood each year. The site is located in a remote rural high fire danger area served by a single narrow, winding, dead-end road. We respectfully request that the Planning Commission and the Board of Supervisors protect our remote and rural neighborhood by denying the use permit requested by Mountain Peak Winery or at least imposing significant and meaningful restrictions on this project.

**PETITION OPPOSING THE ISSUANCE OF PROPOSED USE PERMIT # P13-00320-UP
TO MOUNTAIN PEAK WINERY**

(Located at 3265 Soda Canyon Road, Napa, CA; APN: 032-500-033)

~ The undersigned Soda Canyon/Loma Vista area neighbors and other concerned citizens oppose Mountain Peak Winery proposed Use Permit # P13-00320-UP. We feel strongly that approval of the use permit application for a 100,000 gallon winery would cause significant adverse impacts to our remote and rural neighborhood, including but not limited to, the health and safety of the residents and visitors, due to increased traffic from tens of thousands of winery visitors and accidents arising therefrom, an increased fire risk in a high fire danger area, an increase in noise levels, as well as significant environmental impacts, including but not limited to the probability of local groundwater pollution and depletion, disruption of local plant and animal species, and the possibility of disturbing archaeological sites including remains and remnants from Native American populations indigenous to Napa that spent summers on Atlas Peak. In addition to the increase in traffic resulting from winery employees and vendors, the proposed public tours, tastings, and industry marketing events are expected to bring tens of thousands of visitors to our quiet peaceful neighborhood each year. The site is located in a remote rural high fire danger area served by a single narrow, winding, dead-end road. We respectfully request that the Planning Commission and the Board of Supervisors protect our remote and rural neighborhood by denying the use permit requested by Mountain Peak Winery or at least imposing significant and meaningful restrictions on this project.

PETITION TO NAPA COUNTY BOARD OF SUPERVISORS AND PLANNING COMMISSION

The undersigned Soda Canyon/Loma Vista area neighbors and other concerned citizens oppose Mountain Peak Vineyards, LLC proposed Use Permit # B14-00226. We feel strongly that approval of the use permit application for a 100,000 gallon winery would cause significant adverse impacts to our neighborhood, including but not limited to the health and safety of the residents and visitors, due to increased traffic and increased winery visitors, an increased fire risk in a high fire danger area, increase in noise levels, as well as significant environmental impacts, including but not limited to the high probability of local groundwater depletion. In addition to the increase in traffic resulting from winery employees and vendors, the proposed public tours, tastings, and industry marketing events are expected to bring thousands of visitors to our quiet peaceful neighborhood each year. The site is located in a remote rural high fire danger area served by a single narrow, winding, dead-end road. We respectfully request that the Planning Commission and the Board of Supervisors protect our neighborhood by denying the use permit requested by Mountain Peak Vineyards, LLC or at least imposing significant and meaningful restrictions on this project.

(Located at 3265 Soda Canyon Road, Napa, CA; APN: 032-500-033)

~ The undersigned Soda Canyon/Loma Vista area neighbors and other concerned citizens oppose Mountain Peak Winery proposed Use Permit # P13-00320-UP. We feel strongly that approval of the use permit application for a 100,000 gallon winery would cause significant adverse impacts to our remote and rural neighborhood, including but not limited to, the health and safety of the residents and visitors, due to increased traffic from tens of thousands of winery visitors and accidents arising therefrom, an increased fire risk in a high fire danger area, an increase in noise levels, as well as significant environmental impacts, including but not limited to the probability of local groundwater pollution and depletion, disruption of local plant and animal species, and the possibility of disturbing archaeological sites including remains and remnants from Native American populations indigenous to Napa that spent summers on Atlas Peak. In addition to the increase in traffic resulting from winery employees and vendors, the proposed public tours, tastings, and industry marketing events are expected to bring tens of thousands of visitors to our quiet peaceful neighborhood each year. The site is located in a remote rural high fire danger area served by a single narrow, winding, dead-end road. We respectfully request that the Planning Commission and the Board of Supervisors protect our remote and rural neighborhood by denying the use permit requested by Mountain Peak Winery or at least imposing significant and meaningful restrictions on this project.

Dear Neighbor,

NOW IS THE TIME TO ACT on behalf of the Soda Canyon Road area!

The use permit would allow a massive winery to be built 6 miles out Soda Canyon Road making Mountain Peak among one of the largest wine producers in Napa Valley with perhaps the largest wine cave and event space in Napa! It gives unprecedented visitor and event allowances over most other Napa wineries, let alone the Soda Canyon wineries. We must stop this aggressive move to destroy our rural peace and quiet!

Prevent adding 17,298 visitors a year, plus associated trucks, tourist buses and workers on our already unsafe mountain road. Attend the permit hearing October 19th!

For more information or to donate on line, go to www.ProtectRuralNapa.org.

1. Your donations are most needed and appreciated to assist in our fight to save our rural area and watershed.
2. Please sign the petition below
3. VERY IMPORTANT: Write a letter, and/or voice your concerns at the Oct 20th meeting

If you have any questions, please call Doreen Leighton-707-255-5651

~ The undersigned Soda Canyon/Loma Vista area neighbors and other concerned citizens oppose Mountain Peak Winery proposed Use Permit # P13-00320-UP. We feel strongly that approval of the use permit application for a 100,000 gallon winery would cause significant adverse impacts to our neighborhood, including but not limited to the health and safety of the residents and visitors, due to increased traffic and increased winery visitors, an increased fire risk in a high fire danger area, increase in noise levels, as well as significant environmental impacts, including but not limited to the high probability of local groundwater depletion. In addition to the increase in traffic resulting from winery employees and vendors, the proposed public tours, tastings, and industry marketing events are expected to bring tens of thousands of visitors to our quiet peaceful neighborhood each year. The site is located in a remote rural high fire danger area served by a single narrow, winding, dead-end road. We respectfully request that the Planning Commission and the Board of Supervisors protect our remote and rural neighborhood by denying the use permit requested by Mountain Peak Winery or at least imposing significant and meaningful restrictions on this project. ~
