OPINION

Fake green labels

By Jacob Gershman

September 21, 2009 | 4:00am

Fake green labels

Paterson: Signed law imposing bad green-building mandate.

THE green-building craze sweeping the nation isn't so much a movement as a highly lucrative regime of payouts and misinformation. You could call it a moral-protection racket.

In fact, "green" buildings don't even use less electricity.

In less than a decade, the US Green Building Council's green-rating system, Leadership in Energy and Environmental Design, or LEED, has become a dominant force. Whenever you see a plaque on a building claiming it to be green, that's LEED.

This month, Gov. Paterson signed a bill mandating that all new state construction projects and major renovations conform to LEED-developed standards. In 2005, Mayor Bloomberg approved a bill (allegedly at the insistence of then-City Council Speaker Gifford Miller) imposing LEED on billions of dollars of public projects. The Obama administration is even drawing up a plan to get the White House qualified under LEED.

Overall, LEED regulations are now on the books in 45 states, including more than 100 cities. The USGBC has certified more than 3,000 commercial buildings, with another 25,000 projects in the pipeline.

But here's the problem: LEED buildings don't conserve energy. In fact, a LEED study commissioned by the USGBC suggests that certified buildings often use *more* energy.

Much credit for this discovery goes to a Manhattan building-energy consultant, Henry Gifford, who was the first to blow the whistle on the USGBC's bogus promises of energy savings.

The USGBC claims LEED buildings are 25 percent to 30 percent more energy efficient, a figure based on a 2007 study it commissioned from the New Buildings Institute. But Gifford figured out that USGBC fudged the study by comparing the *median* energy usage of a LEED sample to the *mean* (or average) usage of non-LEED buildings. By taking the mean value of both distributions, he found the same data indicated that LEED projects use *29 percent more* energy than non-LEED buildings.

No one knows for sure why, but clearly, the group's energy-modeling tools and arcane point system fail to predict how real-life mechanical systems function and tenants behave. For example, Gifford's report showed a picture of the Hearst Tower on 57th Street — billed as New York's first green skyscraper — with its lights blazing at night.

Follow-up reviews of the study have confirmed the inaccuracy of the USGBC's claims. "There is no justification for USGBC claims that LEED Certified commercial buildings are using significantly less electricity or have significantly lower greenhouse-gas emission associated with their operations than do conventional buildings," wrote Oberlin College researcher John Scofield in a paper last month.

So why is LEED so popular? Well, it lets politicians cloak themselves in the garb of environmental activism without upsetting real-estate interests. Thus, when city and state lawmakers imposed their sweeping regulations here in New York, they never bothered to check LEED's claims.

For developers, LEED is a source of tax credits, a potent marketing tool and protection from environmental criticism. It has given rise to a whole new industry of "accredited" consultants — a constituency that's grown to over 100,000 who get paid to advise developers on how to get their project certified and to assess buildings.

And the program has been good for the "nonprofit" USGBC, which reported a 300 percent growth in revenue from 2005 to 2007. The group rakes in tens of millions of dollars each year from examination and conference fees, member dues and speaking engagements. Many of the same people who developed the USGBC rules make money as private LEED consultants, members say.

But there's a hefty cost here. While estimates vary, developers and officials say LEED often adds 5 percent or more to project costs — an expense that's passed on to the tenant or (in the case of public works) to the taxpayer.

Gifford says it's possible to make buildings efficient cheaply. In the short term, government LEED mandates and subsidies, resistance from the USGBC and a lack of practical expertise make that difficult.

Bottom line: As long as the builders, the designers, the engineers and the tenants have a stronger incentive to appear green than to actually achieve energy efficiency, phony systems such as LEED will dominate.

USGBC says it's now requiring buildings going forward to report their energy usage — it won't say what it will do with that data.

Meanwhile, the green industry will keep on patting itself on the back with one hand and pocketing tax dollars with the other.

TRANSCRIPT OF PROCEEDINGS
NAPA, CALIFORNIA
WEDNESDAY, JULY 20, 2016

REPORTED BY:
JOANNE BALBONI, CSR 10206
jobalboni10206@comcast.net

1 indulgence in going up the hill with me, and we look
2 forward to answering any questions you have.

3 Do you have any of me for the moment?

4 MR. BASAYNE: Are there any questions for Ms.
5 Oldford? Apparently, there are not.

6 MS. OLDFORD: Thank you.

7 MR. BASAYNE: Thank you.

8 MS. OLDFORD: What a treat.

9 MR. REY: Good morning everyone. My name is
10 Steve Rey. I live at 1114 Petra Drive. I first want to
11 thank especially Deputy Director McDowell, Director
12 Morrison, who spent countless hours on this as well as
13 -- we have an amazing team that's put together a project
14 that we are all actually very proud of, and thank you
15 all for coming up and seeing it so we can share just
16 what it's about.

17 And like Donna said, I'm not going to go into
18 too many facts. I just want to share what we are doing,
19 you know, and why we are doing it so that you can
20 understand how, hopefully, we are beyond and in
21 accordance with the spirit of the general code -- the
22 general plan and the code.

23 So from the beginning, we came to this project
24 because we were looking -- I was with the project from
25 the beginning with Eric and his family, and we love

TRANSCRIPT OF PROCEEDINGS
NAPA, CALIFORNIA
WEDNESDAY, JULY 20, 2016

REPORTED BY:
JOANNE BALBONI, CSR 10206
jobalboni10206@comcast.net

1 MR. BASAYNE: Thank you, Mr. McMann.
2 Are there any questions for this gentlemen?
3 Thank you very much.
4 MR. MCCANN: Thank you.
5 MR. WILSON: Hello. My name is Earl Wilson.
6 I'm a principal with BAR Architects in San Francisco,
7 project architect for the project. Thank you,
8 Commissioners. Thank you for hearing us. We have a few
9 slides we want to show to help illustrate the green
10 building aspects of our project, but I'll just say a few
11 words in advance. There we go. Thank you.
12 So to advance, I just use the arrows?
13 MS. GALLINA: Yes.
14 MR. WILSON: So when we first visited the site
15 -- we had the pleasure to go up to the site. We were
16 struck, I'm sure as all of you are, by the beauty of
17 that location, the rural site, and the roads going up.
18 And, really, we decided almost immediately upon
19 being asked to propose on this project that this had to
20 be an environmentally sensitive project, that it had to
21 have low impact, and it was for those reasons that a
22 scheme of all -- to put the major part of the program
23 underground and to have only the light -- the spaces
24 that needed light and air and view, the offices in the
25 case room above ground, and to shelter the winery from

1 having any visual impact on not only the site, but one's
2 appreciation for the site as you approach.

3 And so the intent was that that experience of
4 coming up to this beautiful valley up Soda Canyon Road
5 would be maintained all the way to your visiting of the
6 winery and your experience of being on this property.

7 But also it was clear that this needed to be an
8 environmentally sensitive, green winery, and we are very
9 fortunate to have an owner that not only shared those
10 views, but really was driving a lot of this as well, and
11 cared deeply about this being a green winery.

12 So, you know, we immediately embarked on trying
13 to make this a LEED platinum winery. And so, you know,
14 the overall strategies, again, were to have low impact,
15 to be visually and environmentally friendly, but the
16 decision to be a platinum winery is a significant
17 decision.

18 As Donna was saying, there is not really a
19 precedent in the valley for this. There are LEED gold
20 wineries. But we even recently researched the LEED
21 website for registered LEED platinum wineries, and there
22 is, in fact, only one that we are aware of, and that's
23 the one at UC Davis. That's the teaching winery
24 facility at the school, the enology there.

25 And so there is a reason for that. It's a

1 difficult thing to accomplish. What is LEED? LEED is
2 leadership and energy and environmental design, and it's
3 a system that was established by the U.S. Green Building
4 Council for independent reporting. We can report on the
5 green features, and they can verify it. They can
6 examine our project and what we submit and verify that
7 it meets a LEED rating.

8 And the LEED ratings are categorized into a
9 simple certified winery, LEED silver, LEED gold, and
10 LEED platinum being the highest. And with LEED, you
11 have different categories. So as part of that reporting
12 process, we report under six different categories,
13 sustainable sites, water efficiency, energy and
14 atmosphere, materials and resources, indoor
15 environmental quality, innovation and design, which
16 takes into account innovations and green design that we
17 can bring to the project and regional priorities.

18 And the points under -- in each of these
19 categories, you gain points for green building features,
20 and a minimal level to be certified by LEED is 40 to
21 49 points. To get LEED silver, it's 50 to 59 points.
22 To get LEED gold is 60 to 79 points, and platinum is 80
23 to 110 points.

24 And it is a significant challenge, I can assure
25 you, to get to that over 80. To get the LEED platinum

1 is not an insignificant thing. It needs to be baked
2 into the DNA of the project. It's not something you
3 decide at some point in the project, that we'd like to
4 be LEED platinum. It really gets to the fundamentals of
5 how the project is conceived in the beginning, and how
6 it's carried through all the way to the end in terms of
7 its reporting and certification by the U.S. Green
8 Building Council.

9 Currently, Mountain Peak -- you can see the
10 little temperature gauge there on the lower right of the
11 slide. Currently, we are at 19 points for Mountain Peak
12 Winery with the features that are incorporated. We are
13 not yet at a point where we are submitting, but we have
14 that cushion there so that if we don't get a certain
15 point for some reason, we are assured to being over 80
16 -- the minimum 80 points for LEED platinum.

17 And so, you know, what are the specific
18 features on the project? This is one of the drawings
19 we've submitted. This is the cross-section elevation
20 through the site showing the building. In terms of
21 sustainable sites, we have things that address
22 alternative transportation, things like bike racks,
23 electric car charging stations. We have features that
24 we are getting points for storm water control and
25 quality and quantity control.

California Highway Patrol (CHP) Incident Report Summary (1/21/13 to 10/3/16)

Date	Incident #	Incident Description	Location of Incident	Time of Day	Duration of Incident
1/21/2013	130121GG00952	1182 - 2 vehicle traffic collision, non-injury. White Chevy truck TCD into side of mountain, blocking road. Vehicle is not driveable. Tow required.	Soda Canyon Road at mile marker 2.	12:29 PM	58 minutes
4/8/2013	130408GG02563	1179 - 2 vehicle traffic collision, injury. Person hospitalized at Queen of the Valley for major injuries. Tow required.	Soda Canyon Road, 300 yards from Silverado Trail.	7:16 PM	2 hours 24 minutes
5/26/2013	130526GG03104	1182 - Traffic collision, non-injury. Toyota Prius partially blocking road. Two women were trying to turn around and ran off the roadway. Woman standing on Soda Canyon flagging down vehicles.	Soda Canyon Road at intersection with Soda Springs Road.	10:12 PM	2 hours, 26 minutes
7/3/2013	130703GG00933	1181 - Traffic collision, minor injuries. Xray on Moped vs. side of roadway. Xray in/out of consciousness.	2750 Soda Canyon Road.	11:35 AM	24 minutes
8/16/2013	130816GG00929	1182 - 2 vehicle traffic collision, non-injury. Air bags deployed, toyota corolla vs. truck, blocking lanes on silverado trail, damage to front end of vehicle.	Soda Canyon Road at intersection with Silverado Trail.	9:24 AM	49 minutes
10/16/2013	131016GG01412	1182 - 2 vehicle traffic collision, non-injury. 2 tires blown out on hill; trying to reverse; possibly trying to leave. Involved party told other driver not to call 911. Vehicle 1/4 mile up from fire station, vehicle reversed and pulled into ditch on roadway.	Soda Canyon Road at intersection with Silverado Trail.	2:18 PM	45 minutes
10/21/2013	131021GG00603	1182 - 2 vehicle traffic collision, non-injury. Blocking roadway. Tow required.	Soda Canyon Road at intersection with Silverado Trail.	7:59 AM	40 minutes
11/24/2013	131124GG02387	1182 - Traffic collision, non-injury. Car on side of road.	Soda Canyon Road, 1/2 mile from Loma Vista.	5:30 PM	33 minutes
12/17/2013	131217GG03587	1182 - Traffic collision, non-injury. PGE guide wire down, NW corner, not live.	Soda Canyon Road at intersection with Silverado Trail.	10:19 PM	1 hour, 38 minutes
1/10/2014	140110GG02717	1182 - Traffic collision, non-injury. BMW vs PGE pole, airbags deployed, rear wheel took off, unable to move vehicle off roadway.	Soda Canyon Road at intersection with Silverado Trail.	5:53 PM	2 hours, 57 minutes
9/10/2014	140910GG01108	1179 - Traffic collision. Large semi truck on its side, white cab, single trailer, blocking the middle of the road, roadway is completely blocked, unable to get traffic by. Rear axle completely separated from the truck. Driver left vehicle, found at 2600 Soda Canyon Road on side of roadway with other people, has a broken shoulder. CalFire requested, heavy tow. Roadway may be blocked few hours. Soda Canyon Road 2 miles north of Soda Springs Road closed due to collision. First tow truck now hanging over cliff; trying to recover their own truck. Second tow company (Ramirez Tow) doing recovery on vehicle.	Soda Canyon Road at 2600 block.	9:55 AM	5 hours, 11 minutes.
3/17/2015	150317GG00614	1179 - Traffic collision. White Nissan Pathfinder vs tree. Vehicle is off the roadway, into bushes. Tow required. Driver hospitalized.	Northbound Silverado Trail at Soda Canyon Road.	7:09 AM	1 hour, 40 minutes
3/28/2015	150328GG03563	1182 - Traffic collision, non-injury. Driver/vehicle gone on arrival. Vehicle off road in a creek. 2-3 people walking toward paved road.	3030 Soda Canyon Road, bridge area on the dirt road 200 yards down the dirt road.	7:25 PM	1 hour, 44 minutes
4/12/2015	150412GG03602	1125 - Traffic Hazard, 4x4 Quad on street at night, subject arrested for possession of guns and shot guns.	Soda Canyon Road (exact location not specified).	8:34 PM	7 minutes
4/15/2015	150415GG01631	1183 - Traffic collision, unknown injury. Possible diabetic shock. Small compact dark vehicle parked just before Stagecoach gate. Owner of vehicle being transported to Queen of the Valley hospital. Tow required. Driver cited for 14601(A), vehicle was impounded per 14602.	3555 Soda Canyon Road near Stagecoach Vineyards (on dirt road).	1:07 PM	4 hours, 40 minutes
4/20/2015	150420GG00631	1125A - Animal Hazard, deer in roadway.	Silverado Trail at Soda Canyon Road.	7:39 AM	1 hour, 6 minutes
4/24/2015	150424GG03930	23103 - Reckless Driving, male on 4wheel drive vehicle almost hit dogs while man was out walking his dog.	Soda Canyon Road at Silverado Trail.	9:21 PM	29 minutes

Exhibit 20a

4/26/2015	150426GG01524	1183 - Traffic collision, unknown injury. White Acura vs Gray truck, blocking roadway. Driver advised he is driving and not from the area.	2368 Soda Canyon Road (Intersection with Soda Springs Road).	12:04 PM	32 minutes
6/6/2015	150606GG03306	23152 - Driving Under Influence, driving on roadside, over double yellow lines, erratic speeds.	2900 Block Silverado Trail/Soda Canyon Road.	6:32 PM	7 minutes
6/28/2015	150628GG00038	(no description)	Silverado Trail at Soda Canyon Road.	9:26 AM	40 minutes
7/6/2015	150706GG04037	23013 - Reckless Driving, male on 4x4 Quad driving towards Soda Canyon Store; Tweaker that is squatting on Soda Canyon property. Has been arrested multiple times; occasionally possesses shotgun.	1200 Block Soda Canyon Road.	8:45 PM	12 minutes
7/7/2015	150707GG02214	23103 - Reckless Driving, gray Ford, vehicle weaving	Silverado Trail at Soda Canyon Road.	2:55 PM	4 minutes
7/15/2015	150715GG02473	23152 - Driving Under Influence, white Ford Explorer, unable to maintain.	Silverado Trail at Soda Canyon Road.	2:59 PM	20 minutes
8/29/2015	150829GG04545	Changed from 1183 Traffic Collision to 1015X-Xray - Arrest in custody; Vehicle found off the roadway.	1200 Block Soda Canyon Road.	9:38 PM	1 hour 53 minutes
9/7/2015	150907GG02368	23109 - Speed Contest; Lime Green Sedan vs. Black older Sedan; 90 mph	NB on Soda Canyon Road at Silverado Trail.	3:35 PM	7 minutes
9/17/2015	150917GG03723	23152 - Driving Under Influence; Black Mustang unable to Maintain; Citizen advised to not follow.	2368 Soda Canyon Road.	8:36 PM	13 minutes
10/3/2015	151003GG03037	23152 - Driving Under Influence; White Mazda Miata Weaving; Erratic speeds; Pulling into Van Der Heyden Winery.	Silverado Trail at Soda Canyon Road.	5:06 PM	10 minutes
10/24/2015	151024GG01564	1125 - Traffic Hazard; Lots of vans in area for event; Relay race in area; People congregating in middle of roadway; Man is getting married later today and expects approx. 300 people heading up road; Concerned about safety if road blocked.	Soda Canyon Road at Silverado Trail.	10:59 AM	9 minutes
11/14/2015	151114GG02581	23152 - Driving Under Influence; white limo, erratic breaking, erratic speeds between 30-55mph.	Silverado Trail at Soda Canyon Road.	3:45 PM	20 minutes
11/26/2015	151126GG01343	23152 - Driving Under Influence; unable to maintain lane, erratic braking.	Silverado Trail at Soda Canyon Road.	11:39 PM	17 minutes
12/19/2015	151219GG03730	23152 - Driving Under Influence; White Toyota or Nissan; Swerving; Driving into Oncoming Traffic.	Silverado Trail at Soda Canyon Road.	7:32 PM	18 minutes
12/28/2015	151228GG01007	FIRE - Report of fire; Saw gray smoke coming, negative flames; couple of burn piles; construction.	Soda Canyon at Soda Springs Road.	10:55 AM	33 minutes
1/6/2016	160106GG03274	1183 - Traffic Collision; Vehicle on left hand side of creek off roadway; 2 males involved; Nissan Sentra on its roof. Napa Valley Tow called.	Soda Canyon Road - 2 miles east of Silverado Trail (past the bridge).	7:17 PM	1 hour, 3 minutes
1/18/2016	160118GG03228	1125 - Traffic Hazard; Semit Truck Trailer partly blocking right lane around blind corner; Truck headed northbound on Soda Canyon.	Soda Canyon Road at Silverado Trail.	6:20 PM	44 minutes
4/6/2016	160406GG01308	23103 - Reckless Driving; white Chevy Impala all over roadway; Almost went off roadway.	Silverado Trail at Soda Canyon Road.	10:50 AM	3 minutes
4/7/2016	160407GG1058	23103 - Reckless Driving; dark colored sedan, unable to maintain	Silverado Trail at Soda Canyon Road.	9:10 AM	2 minutes
4/11/2016	160411GG02790	1179 - Traffic Collision; 1141 En Route; 2 vehicle collision; 1 party trapped; Fire Dept. en route for extrication; 1 part injured; AT&T Towing en route.	Soda Canyon Road at Silverado Trail.	5:23 PM	1 hour 10 minutes
5/2/2016	160502GG03769	1182 - Traffic Collision; no injuries; Rp got a call from young male, said he needed a tow in a hurry, was driving a low rider and high centered; then mentioned a ditch	Soda Springs Road at Soda Canyon Road	10:09 PM	40 minutes
5/6/2016	160506GG03042	FIRE - Report of fire; see smoke at above 1020; possible brush fire; a lot of rain; negative visibility of smoke	2425 Soda Canyon Road	5:43 PM	33 minutes
5/16/2016	160516GG02658	23152 - Driving under influence; gray nissan 240; over yellow lines into bike lane; unable to maintain speed or lane	Silverado Trail at Soda Canyon Road.	4:18 PM	12 minutes
5/20/2016	160520GG01533	23103 - Reckless Driving; Black Jeep chasing a black car possibly speeding	Silverado Trail at Soda Canyon Road.	12:07 PM	20 minutes

5/29/2016	160529GG03781	23152 - Driving under influence; swerving, unable to maintain lanes; driving into oncoming traffic.	Silverado Trail at Soda Canyon Road.	10:29 PM	13 minutes
6/6/2018	160606GG02712	23103 - Reckless driving; silver toyota camy weaving/crossing double yellow line	Silverado Trail at Soda Canyon Road.	3:54 PM	35 minutes
6/18/2016	160618GG00239	23152 - Driving under influence; gray sedan; weaving - almost caused head on traffic collision; Napa SO Deputy responding	Silverado Trail at Soda Canyon Road.	1:28 PM	5 minutes
6/19/2016	160619GG02847	FIRE - Report of fire; in the Rector Canyon Area; Fire is working a fire in the area	Soda Canyon Road/Old Foss Valley Road	3:40 PM	7 minutes
7/27/2016	160727GG03142	1182 - Traffic collision, no injuries; Silver Dodge pickup truck versus silver Honda civic	Soda Canyon Road at Silverado Trail	5:23 PM	1 hour, 1 minute
8/3/2016	160803GG03920	1124 - Abandoned vehicle; 1/4 mile from trail - on the first turn as you head up Soda Canyon; White Jag parked here for a week; No plate info; Didn't advise if blocking.	Soda Canyon Road at Silverado Trail	8:35 PM	3 minutes
8/3/2016	160803GG03928	1183 - Traffic collision - unknown injuries; 6 miles - on gravel part of the road; grey Hyundai; Seemed to pass out while RP was talking to him; Slurring his speech saying looking for American Canyon; Off into the brush and keeps trying to leave but may start a fire; Driver 23152 (under the influence); But now RP hears the vehicle starting and subject trying to leave; Said 6 miles up from Silverado Trail on Soda Canyon; 6 and 1/2 miles up Soda Canyon negative TCS found; Inquiry with RP if vehicle left scene; RP VM only; UTL to end of Soda Canyon going 98; Very end of Soda and turns to left; 1185R - vehicle is approximately 2 feet off roadway; 1039 AT&T Tow	Soda Canyon Road/Old Foss Valley Road	8:36 PM	3 hours, 15 minutes
8/4/2016	160804GG02404	PKG - Parking Violations; White Jaguar; Parked here over a week; Party advises suspicious because vehicle doesn't look like belongs here "too nice of a car to be here"; Vehicle on left side of Soda Canyon; Checked it last night/negative 1125	Soda Canyon Road at Silverado Trail	3:11 PM	48 minutes
8/12/2016	160812GG00793	23103 - Reckless driving; Dark gray Mazda sedan; Possible a racing stock car; Tailgating; Passing over double yellow line; Passing 2-3 vehicles at a time; Almost hit oncoming traffic; Approximately 85 MPH	Silverado Trail at Soda Canyon Road.	8:40 AM	14 minutes
8/25/2016	160825GG03393	1125 - Traffic Hazard; Oak tree down blocking west bound lane on curve; 2.8 miles up from Silverado Trail; 1039 CORDS per Napa; Napa Fire Department; UTL to end of Soda Canyon	2300 Soda Canyon Road	6:23 PM	31 minutes
9/9/2016	160909GG03416	23152 - Driving under influence; Dark gray Toyota Prius; Erratic speeds/slowning and speeding up; Swerving; Crossing over white line; Unable to maintain lanes; 1T was flagged down	Silverado Trail at Soda Canyon Road.	7:37 PM	22 minutes
9/27/2016	160927GG03388	23152 - Driving under influence; South bound Silverado Trail; Silver sedan; Unknown make or model or plates possibly an Acura; Swerving - nearly hit a bicyclist	Silverado Trail at Soda Canyon Road.	6:15 PM	19 minutes
10/3/2016	161003GG03359	1125 - Traffic hazard; Tree down, partial 1124; In both lanes; Request CORDS or Fire; Fire en route	Soda Canyon Road at Loma Vista	5:53 PM	1 hour

Incident Detail Report

Data Source: Data Warehouse
 Incident Status: Closed
 Incident number: 160803GG03928
 Incident Date: 8/3/2016 20:36:59
 Last Updated: 10/11/2016 13:02:30

Incident Information

Incident Type:	1 CHP Unit Incident	Alarm Level:	
Priority:	2	Problem:	1183-Trfc Collision-Unkn Inj
Determinant:		Agency:	CHP
Base Response#:		Jurisdiction:	GG
Confirmation#:		Division:	21-Napa
Taken By:	Beverly E Hernandez	Battalion:	21-Napa
Response Area:	21-002	Response Plan:	21-002 1 Unit Response
Disposition:	F-File	Command Ch:	
Cancel Reason:	RD-Radio Desk	Primary TAC:	
Incident Status:	Closed	Secondary TAC:	
Certification:		Delay Reason (if any):	
Longitude:	122296839	Latitude:	38435189

Incident Location

Location Name:	SODA CANYON AT OLD FOSS VALLEY	County:	Napa
Address:	Soda Canyon Rd / Old Foss Valley Rd	Location Type:	
Apartment:		Cross Street:	
Building:		Map Reference:	
City, State, Zip:	Unincorporated CA 94558
