## **INTRODUCTION**

As requested and authorized, Archaeological Resource Service has conducted an archaeological evaluation of the parcel described below. The evaluation consisted of these separate aspects:

1. A check of the information on file with our office and the Regional Office of the California Historical Resources Information System, to determine the presence or absence of previously recorded historic or prehistoric cultural resources,
2. A check of appropriate historic references to determine the potential for historic era archaeological deposits, and;
3. Contact with the Native American Heritage Commission to determine the presence or absence of listed Sacred Lands within the project area;
4. Contact with all appropriate Native American organizations or individuals designated by the Native American Heritage Commission as interested parties for the project area;
5. A surface reconnaissance of all accessible parts of the project area to locate any visible signs of potentially significant historic or prehistoric cultural deposits.
6. Preparation of this report describing the work accomplished, the results of the research, and making appropriate recommendations for further action, if warranted.

## **PROJECT DESCRIPTION**

The proposed project would convert an existing barn into a winery and develop a new wastewater system. The new system consists of a 1200 gallon septic tank, a 1200 gallon pump tank, a leach field area and associated pipes, fixtures and distribution box. The project is limited to a small area near the southern entrance to the existing property.

## **PROJECT LOCATION**

The project area is located at Shed Creek Winery, 80 Grapevine Lane, Gordon Valley, Napa County, California. The parcel consists of less than five acres of recently disced agricultural land and open land bounded by agricultural properties.

The project area lies in the Mexican era land grant of Chimiles within unsectioned land of Township 6 North, Range 2 west, Mt. Diablo Base and Meridian. The Universal Transverse Mercator Grid coordinates to the approximate center of the project area, as determined by measurement from the USGS 7.5' Fairfield North Quadrangle Map (1951 (photorevised 1968, 1973)) are:
