Subject: RE: Map to be included for Planning Commission Hearing item 7A Bremer family Winery Use Permit Exception for projection on screne
Date: Monday, October 14, 2019 4:41:42 PM

Hi Kellie,

Following up on our conversation, we have forwarded your request to the Commission Clerk, and your map will be uploaded and available on the overhead projectors/screens for use during your testimony on this item.

Let me know if you have any other questions.

Regards,

Don Barrella

Hi Kelli,

I was just working through my messages when I received your email. I gave you a call but your voicemail box is apparently full so I could not leave a message.

Give me a call when you can.

Thank you

Hello Donald,

I left you a message this morning regarding the Planning Commission hearing for Wednesday the 16th. Item 7a Bremer Family Winery, Use Permit Exceptions to the Conservation Regulations. I did not hear back from you today but would still like to speak with you.

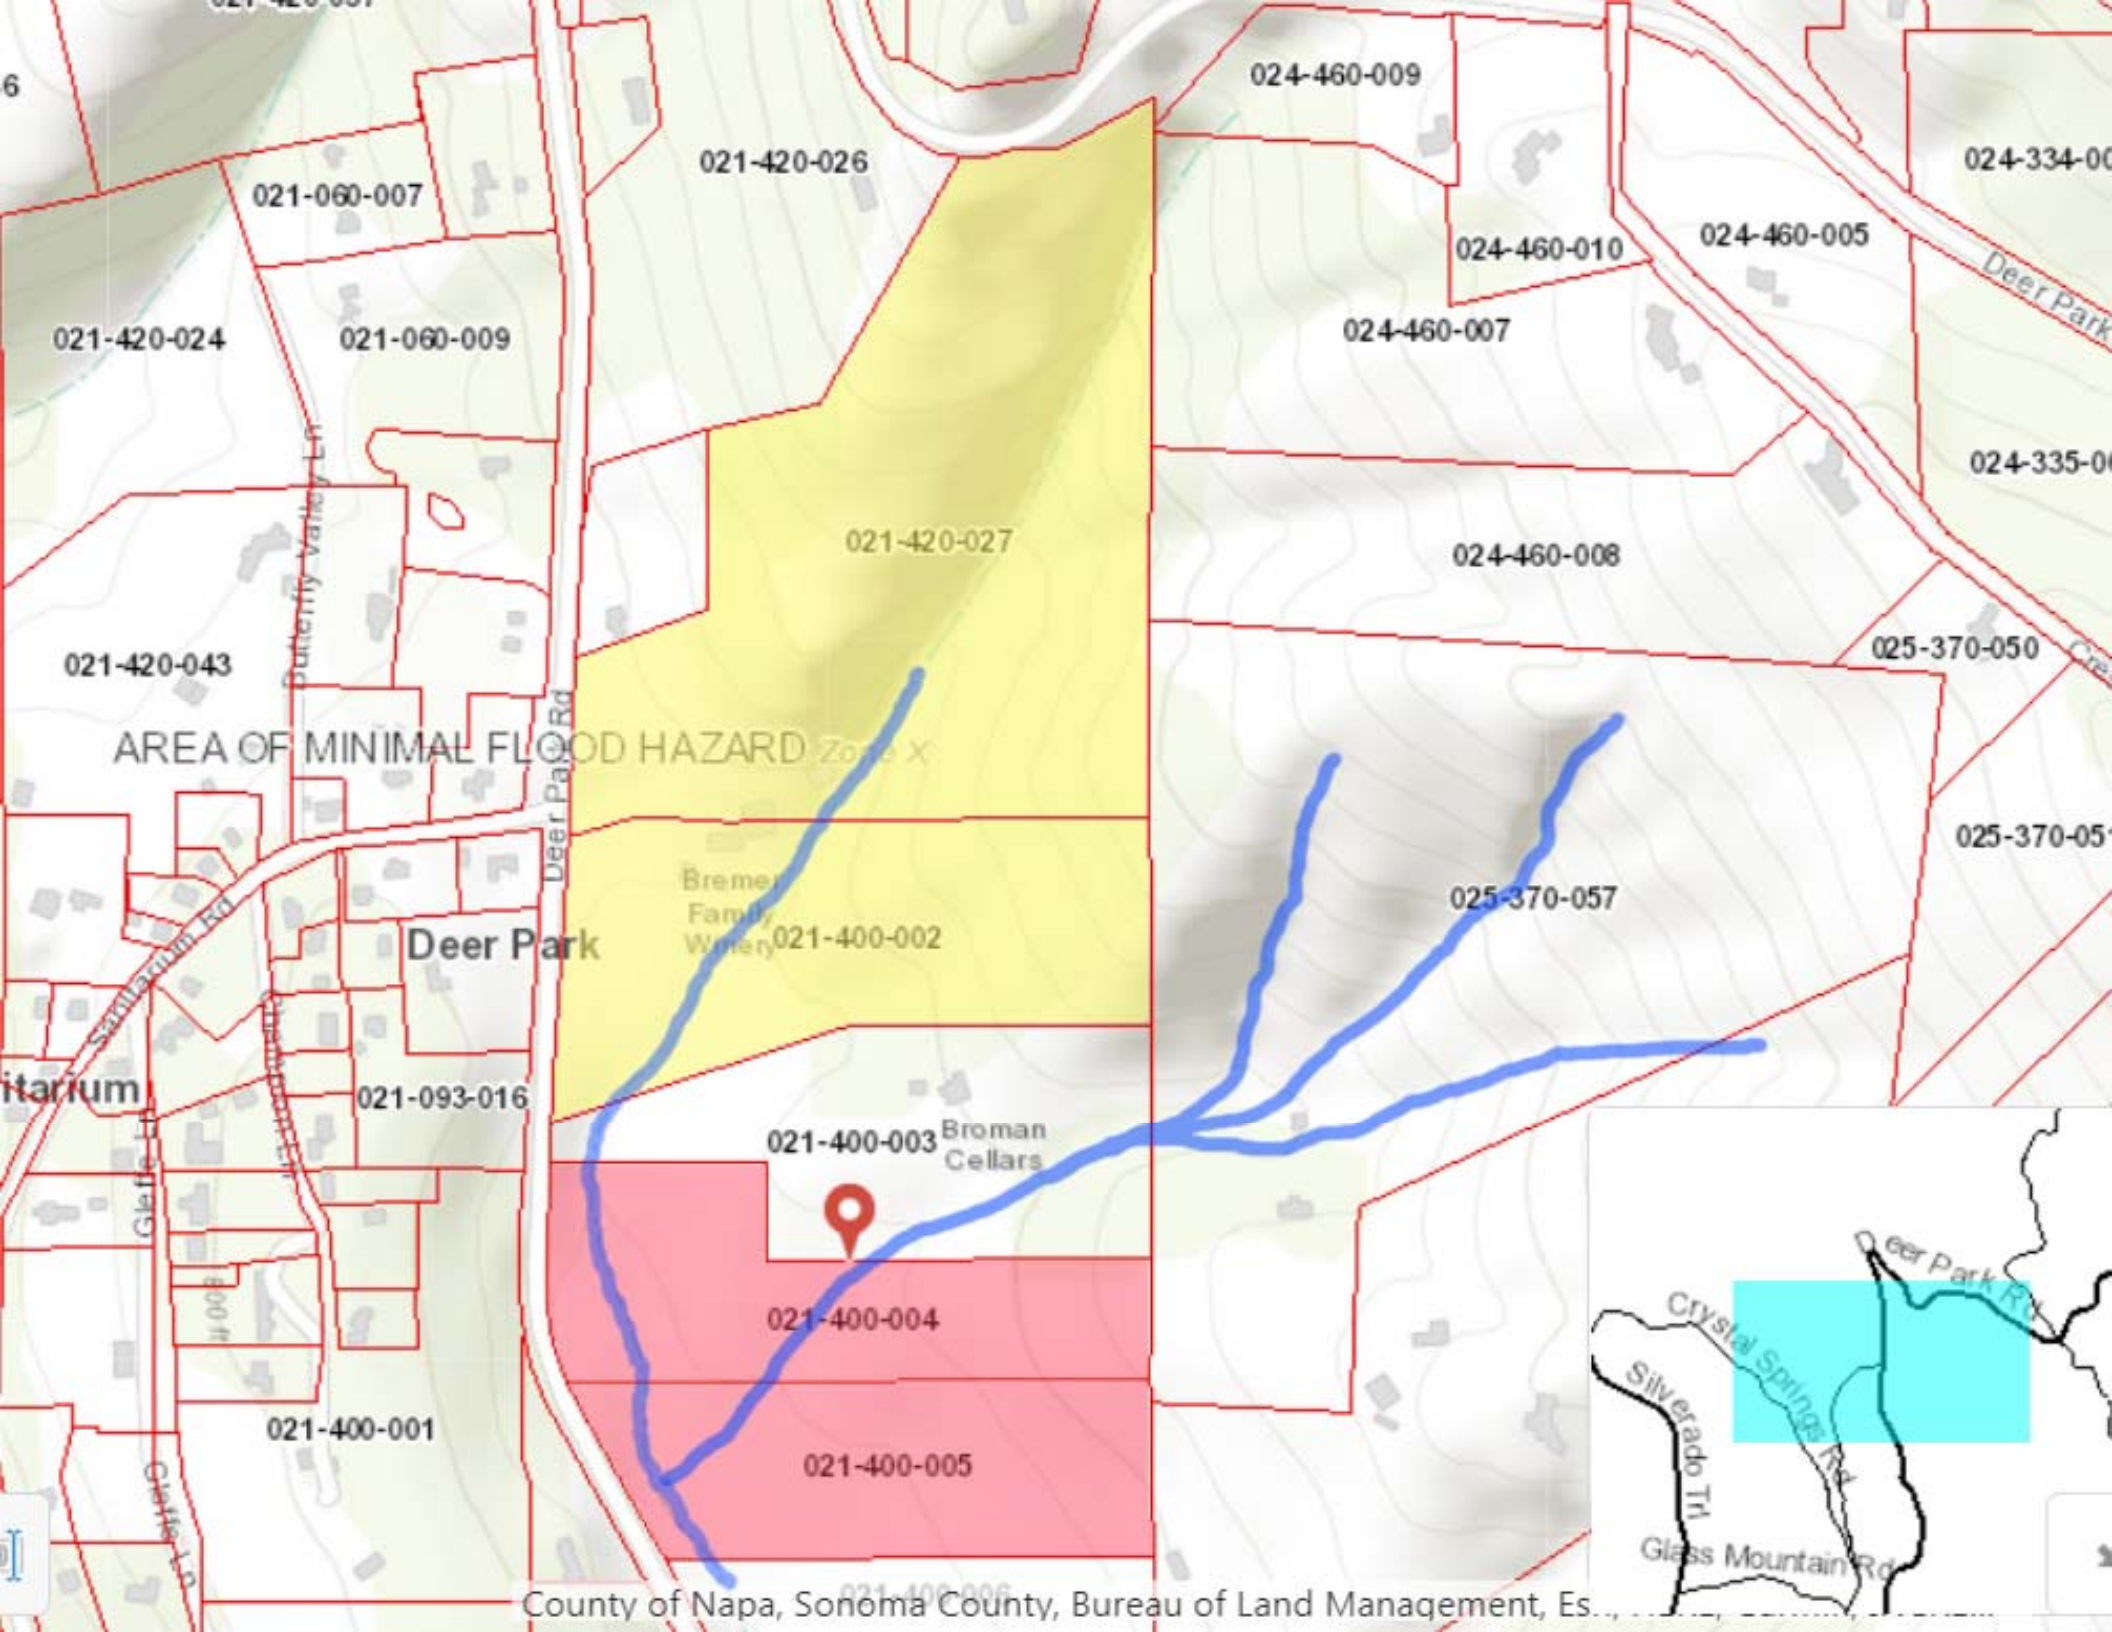

I have attached a map I would like to have projected on the screen as part of the Public Comment on item 7a.

Previously I have been notified that you have lead time for reviewing documents for virus etc. Please make this map available for the Planning Commission hearing and provide a copy to the Commission Clerk. I would like to have this view-able on the overhead projection screen.

I will expect your call.

Thank you,

Kellie Anderson

Dear members of the Napa County Planning Commission,

May I begin by thanking you for your willingness to serve on our Planning Commission, especially when it comes to requests like the Bremers for you to wave a magic wand and make their unending list of violations of County ordinances disappear.

In essence we have a scofflaw enterprise in our midst who when the County of Napa sought to enforce its ordinances on the Bremer Family Winery property was in turn sued by the Bremers to back off on enforcement. Their motto is Offense Is The Best Defense.

Fortunately that lawsuit came to a halt and enforcement of their ordinance violations ensued. After being caught with both hands in the cookie jar they are now up for consideration of forgiving 10+ violations as "Exceptions to Napa County Conservation Regulations".

For some reason our County government shies away from punishing people for their outright disregard for our laws, but is there not a requirement of enforcement that involves accountability and compliance without allowing for illegal business as usual?

For once I ask that you see a gross violator for what they are and require them to adhere to the ordinances enacted to ensure a safe and proper climate of business in Napa County. I ask that you deny this request by the Bremers. Thank you, Norm Manzer, St Helena
