Subject: Comments regarding agenda item 7A

[External Email - Use Caution]

Dear planning commissioners. I had planned to "attend" your meeting but I have to attend a family funeral Wednesday morning. Due to the nature of the issues raised by the nearby neighbors and those across the highway, I ask that you postpone a decision on this item until you all can personally be onsite during balloon launch events.

I also ask that you seriously consider the implication of the balloon landing sites needed for the expanded volume of balloons. I have experienced a few landings near my house in Browns Valley that came dangerously close to hitting my house and those on my street.

Thank you for your consideration. Eve Kahn
