[External Email - Use Caution]

To Whom it May Concern:

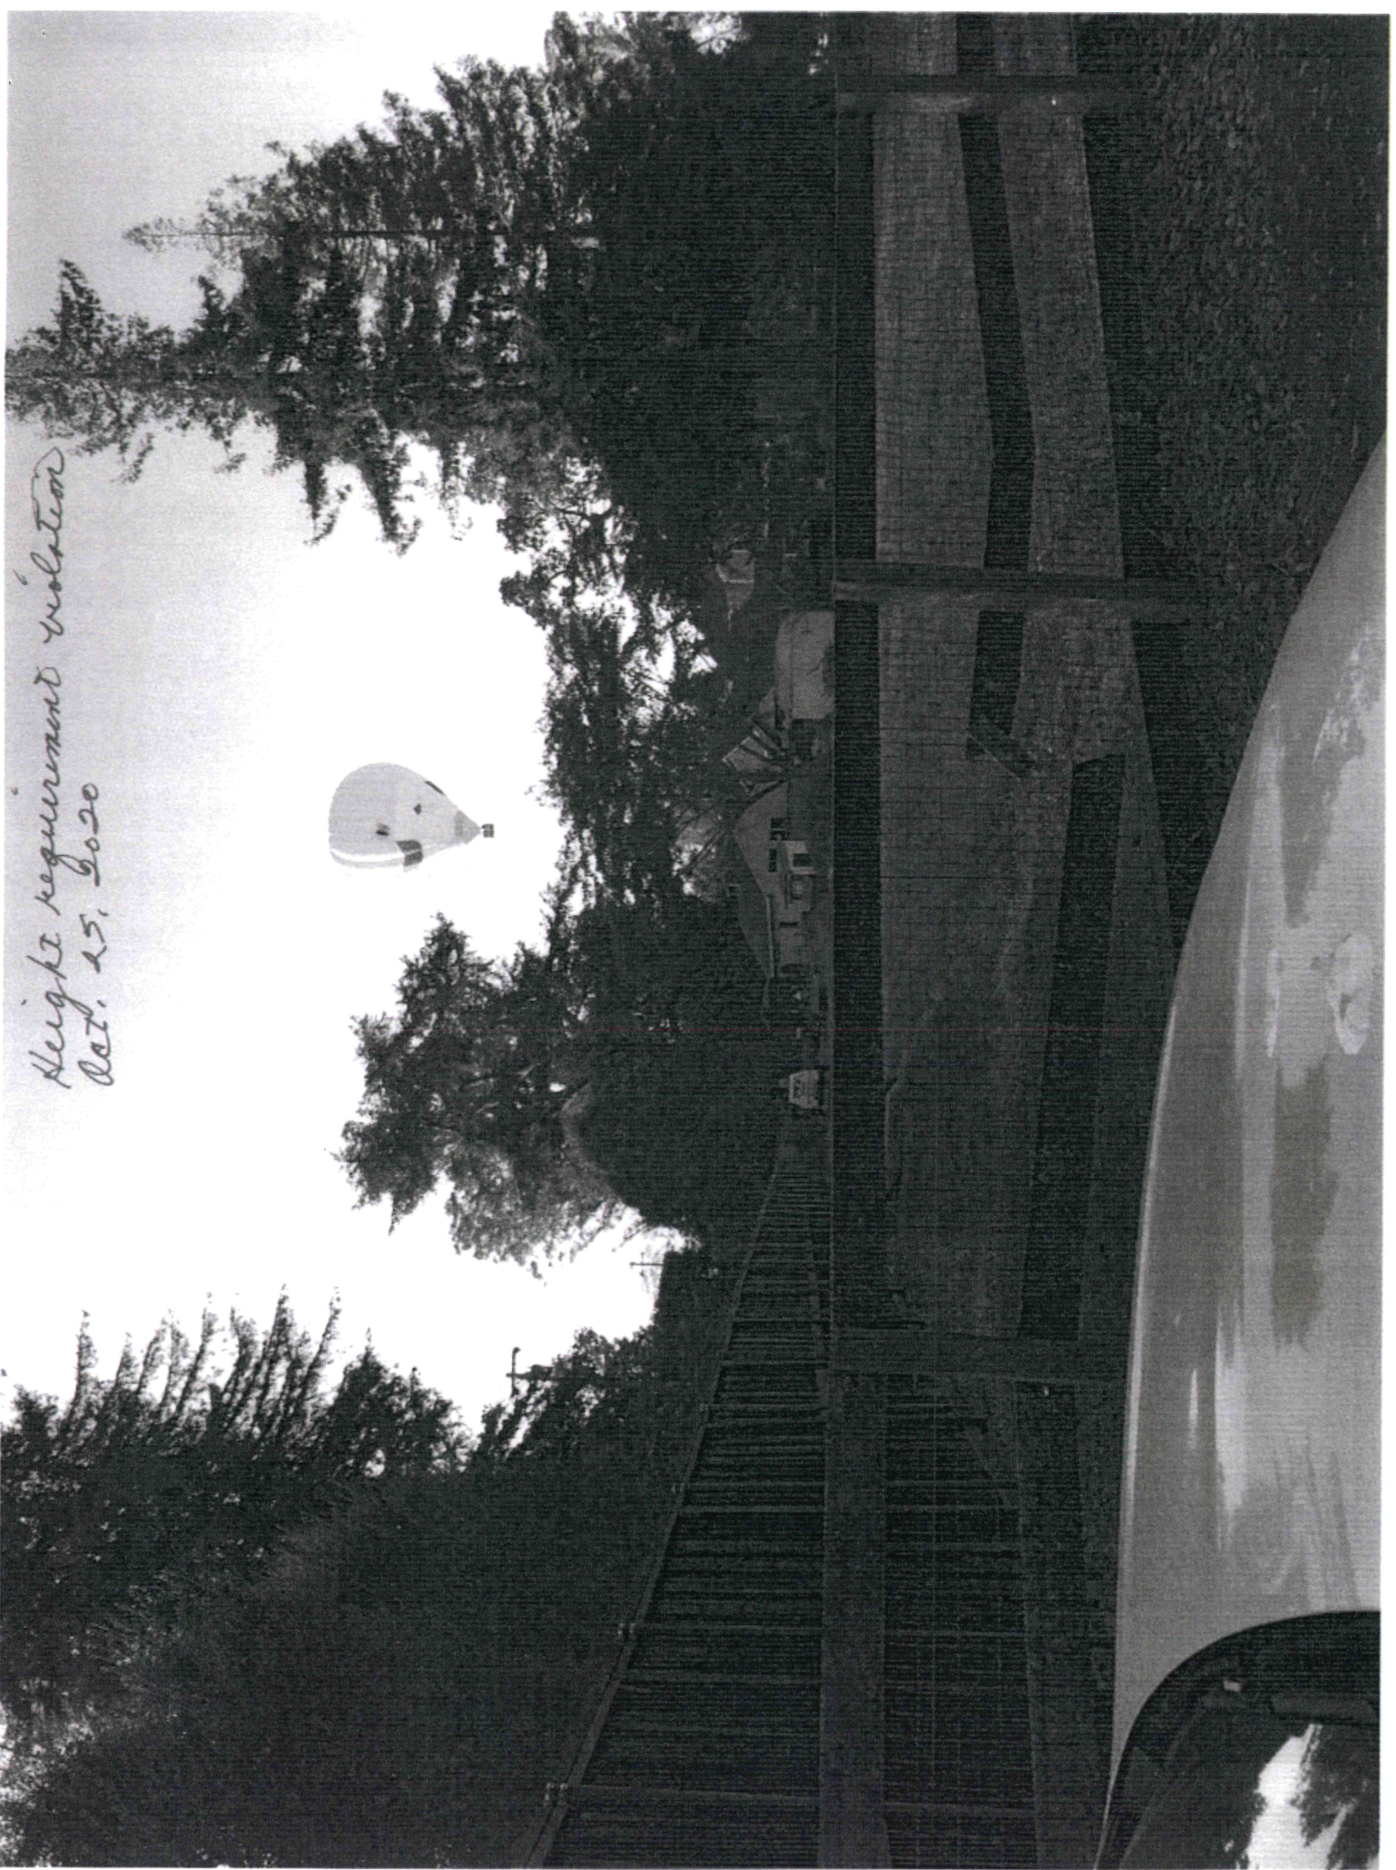

Please take these photos into consideration in making your decision regarding the Use Permit application referred to above. As property owners, we are required to adhere to the provisions of the Agricultural Preserve. The area is not a recreational area, it is a destination area. I believe the Agricultural Preserve provisions were brought about to preserve the integrity of the beauty of the Napa Valley. Launching balloons in this heavily populated area should not be allowed and they certainly do not add to the beauty of the area. The launching area is directly behind our home and is a nuisance, potentially dangerous to us and to our property and surrounding properties. Would you like to have balloons going over your home at 7:30 in the morning? We do not. Your consideration in denying the above referenced permit is greatly appreciated.
