Dear Steve,

Linda has received a request from Amy for information on the commercial customers now being served by containers. That information reflects personal and corporate business activities with us.

We have concerns in sharing information that gets personal to the customer without their approval.

Steps have been taken to contact our Legal Council for his thoughts. In his earlier review of our contract, he feels it is not a contract condition to supply customer names or types of service.

We are more than willing to address in our next newsletter or a separate letter to our customers about the recycling opportunities that are available.

Steve, for now we are not planning on sharing that list with Amy and feel there are other agreeable ways in achieving the ultimate goal for more recycling.

Sincerely,

A handwritten signature in black ink, appearing to read "Bob Pestoni".
