Re: Napa County General Plan Update

Dear Colleague:

As you know, Napa County is currently updating its General Plan. The County anticipates adoption of the final General Plan document by mid to late March, 2008.

Your agency has been identified as one potentially covered by the referral requirements of Government Code section 65352 in connection with the Napa County General Plan Update.

We are therefore enclosing a CD of the Revised Public Hearing Draft of the Napa County General Plan Update as well as a public notice related to upcoming hearings on the General Plan Update process for your review.

Should you have any comments or desire for a consultation regarding the update, please contact me.

Sincerely,

HILLARY GITELMAN
Director, Napa County Conservation, Development
and Planning Department
