Reason for Wanting to Serve:

(continued)

Along the way, I have explored the physical environments of libraries, as well as additional facets, such as town records and history, alternative media (CDs, DVDs, microfiche), and on-line access to electronic/paperless resources. I have worked at The San Francisco Foundation for over ten years, where I have developed a deep appreciation for civic engagement and its benefit to communities; I support access to the arts, culture, a clean environment, education, and healthy food. These are the areas of focus of my work, and ones that come to life in Yountville. Additionally, walkability to public parks, the Yountville Library, the Yountville Community Center, and venues for fresh, local food elevate the potential and worldwide appeal of our town.

I am originally from New Orleans, LA, and have a great interest in historic preservation as well as a keen understanding of the modern age and its technological advancements. The Yountville Community Center, Napa Valley Museum, and the French architectural elements of Yountville bring it home for me.

I want to serve this community as an advocate for the Yountville Library in Napa County.
