Reason for Appeal (Be Specific - If the basis of the appeal will be, in whole or in part, that there was a prejudicial abuse of discretion on the part of the approving authority, that there was a lack of a fair and impartial hearing, or that no facts were presented to the approving authority that support the decision, **factual or legal basis for such grounds of appeal must be expressly stated or they are waived.** (attach additional sheet if necessary): The property is a disgrace to the entire street in that it looks exactly like a junk yard, with railroad cars; rusty equipment, framing, piping, sign etc., all clearly visible from the street. The wide-open gate allows clear view all through the mess. Their eqpt. often leaves big globs of mud on the street.
If the basis of the appeal will be, in whole or in part, that the environmental determination under the California Environmental Quality Act is inadequate, please provide: a detailed statement supported by substantial evidence for each insignificant or less than significant impact identified in the initial study that the appellant contends may be significant, a detailed legal and factual statement indicating why the project is not exempt, and a detailed statement supported by substantial evidence describing why the Negative/Mitigated Negative Declaration or EIR is inadequate.)
