#11.

I have always had a strong interest in aviation obtaining my private pilot's license in 1965. Over the years I have been active in support of the airport and its role as a community asset.

My experience in business management and real estate should be an asset to the advisory commission. Much of the commission's activities involve budgeting, leases, property management and development. In all of these I have developed a strong background including experience and education (MBA). Owning and operating my own businesses and managing in large corporations should also add to my worth to the commission.

I thank you for considering my application.

*Please explain your reasons for wishing to serve and, in your opinion, how you feel you could contribute:

As a private pilot and plane owner, I have flown in and out of numerous general aviation airports throughout the west. Although there are a couple of airports that might rate higher in a specific category, few surpass Napa County Airport on an overall basis. To maintain this enviable position we must arrive for continuous improvement of the facilities, safety systems and services - I would like to be part of the team that carries on this mission.

With 25 years experience as the CEO of a technology company, I bring a history of team building, collaborative interaction, goal setting and clear communications to other boards and committees I serve on. From a technical perspective, I have applied engineering/construction experience, contract administration and California Contractor law knowledge.

If appointed to this committee, I would carry on with the goals and objectives of the committee while providing new perspectives to existing issues. I would accept the challenges presented and push back on issues that are, in my opinion, insignificant.
