[External Email - Use Caution]

Board of Supervisors,

Please do not approve this!!!

They wake us up every time they launch from their 5360 Washington Street launch site and my dog goes crazy and gets super anxious because they are flying over our property too low and the noise bothers him.

My husbands family has been at our address for over 60 years, as my husband and I have lived here and raised our family here for over 20 years. We live in an AG Preserve for the peace and quiet, for the lack of intrusions and for Privacy. These are all being violated horribly by the continuing launches that happen less than 1000 feet from my house!

Also, having worked in the hospitality industry for over 30 years, I do not personally believe that people come here for just the hot air balloons. I think they come here to visit our valley for the wine, food and Hospitality, then decide to ride the hot air balloons. When I am asked about which company is best (which is maybe 3-5 times a year, if even) I refer them to Napa Valley Aloft.

Thank you for your time.

Stay Safe and Sane!

Carpe Vinum!

Denise
