[External Email - Use Caution]

**January 19, 2020**

**Dear Board of Supervisors,**

**I urge you to validate and improve Anthem Winery's Use Permit already unanimously approved by the Napa Planning Commission.**

**I feel a lot of sympathy for Julie Arbuckle and her husband, as they have gone through a lot of agony attempting to realize the minor things they wished for their winery. They have spent hundreds of thousands of dollars, it has taken several years of their time and have given up much of what they originally asked for compromising with their neighbors. Furthermore, what Anthem is proposing is environmentally sound.**

**And I thought erroneously that agriculture was the best land use in Napa County. What is worse, it is often recently arrived neighbors who move into ag areas that complain the loudest.**

**Sincerely,**

**Dario Sattui**
