*Please explain your reasons for wishing to serve and, in your opinion, how you feel you could contribute:

As a Masters Prepared RN, I believe that educating the public regarding the long term health effects of smoking, along with the benefits of smoking cessation, are essential components of a well thought-out community health plan. The costs of tobacco use, both in quality of life and financial terms, are well documented, as are the benefits of both programs for smoking cessation and smoking prevention. Beyond my personal education and training, I believe my association with the Kaiser Foundation Health Plan (I am currently employed by Kaiser as an ICU nurse - one who sees many of the effects of tobacco use) could be leveraged to the benefit of Napa County. On a more personal note, my father was a life-long smoker and while smoking was not the direct cause of his demise, it certainly played a significant role.
