## Description of Personal Motivations for seeking membership

I live in a community with a growing number of senior citizens, many of whom live on relatively small, fixed incomes. Many of these people are in need of services and/or assistance and are not aware of the resources available to them. Some of these people do without the basic necessities because they simply do not have the money to pay for them. I have worked within my community to find out what resources are out there and to bring the information to those who would benefit. There are many options for these people, they just need to know about them. A large part of the senior population just don't know where to look or what to look for. I enjoy researching different organizations, facilities, programs, etc., and sharing the information with those who may need it, either now or in the future. Additionally, I am always looking for new ideas that will enable the senior enable the senior population to improve their quality of life, mentally, physically and spiritually. They deserve it.
