

DRAFT

John's Photo

In honor of the work of John W. Stewart for his role in the planning of major recycled water projects in Napa County. His supervision in the conception and development of recycled water systems in the Coombsville and Carneros areas marked a first for Napa County. His knowledge of legal and engineering requirements coupled with his understanding of landowner concerns proved crucial to the ultimate success of these groundbreaking recycled water distribution systems. John will be remembered for his energy, passion, leadership, and management and the enduring appreciation of his colleagues and friends.

Engineer-Manager of Napa Sanitation District	1989-1998
