

**PLANNING COMMISSION HEARING MARCH 4, 2015
EXHIBIT B – CONDITIONS OF APPROVAL**

***Krupps Brothers Use Permit Modification & Variance
#P14-00017-MOD & #P14-00195-VAR
3150 Silverado Trail, Napa, Calif., 94558
APN: 039-610-006***

1. SCOPE

The permit shall be limited to:

- A. Approval of a variance to allow construction of the proposed wine production building 220± feet from Silverado Trail, in lieu of the required minimum 600-ft winery setback.

- B. Modification of Use Permit #P11-00348 to allow:
 - 1) Relocation of the approved 50,000 gallon winery to the northwestern portion of the property, ±220 ft. east from the approved driveway entrance location;
 - 2) Construction of a new two-story, 16,235 sq. ft. winery building for wine production, administration, and hospitality activities with a ±1408 sq.ft. covered crush pad;
 - 3) Construction of a new 25-space parking lot, plus 2 ADA- accessible spaces;
 - 4) Installation of two (2) 10,000 gallon treated recycled water holding tanks; and installation of one (1) 60,000 gallon domestic and fire water storage tank;
 - 5) Relocation of the approved septic system;
 - 6) Elimination of the previously approved conversion of the existing single family residence to a winery, and changes to the driveway and bridge crossing Hardman Creek, serving the residence;
 - 7) Revision of the landscape concept for the newly proposed winery site;
 - 8) Abandonment of the previously approved Conservation Regulations exception;
 - 9) Removal of ±2 acres of vineyard to accommodate the new winery location; and,
 - 10) Amend hours of operations to 6:00 am to 6:00 pm to allow: production employees hours between 6:00 am to 3:00 pm; administrative employees, between 9:00 am to 6:00 pm.

The use permit major modification shall be designed in substantial conformance with the submitted site plan, elevation drawings, and other submittal materials and shall comply with all requirements of the Napa County Code (the County Code). It is the responsibility of the applicant to communicate the requirements of these conditions and mitigations (if any) to all designers, contractors, employees, and the general public to ensure compliance is achieved. Any expansion or changes in use shall be approved in accordance with Section 18.124.130 of the County Code and may be subject to the Use Permit modification process.

**Alternative locations for grading spoils and fire suppression tanks are permitted, subject to review and approval by the Director of Planning, Building, and Environmental Services (the PBES Director), when such alternative locations do not change the overall concept, and do not conflict with any environmental mitigation measures or conditions of approval.

2. **PROJECT SPECIFIC CONDITIONS**

Should any of the Project Specific Conditions below conflict with any of the other, standard conditions included in this document, the Project Specific Conditions shall supersede and control.

A. During construction activities, the permittee shall comply during all construction activities with the Bay Area Air Quality Management District Basic Construction Mitigation Measures (Table 8-1, May 2011 Updated CEQA Guidelines) as provided below:

1. All exposed surfaces (e.g. parking areas, staging areas, soil piles, grading areas, and unpaved access (road) shall be watered two times per day.
2. All haul trucks transporting soil, sand, or other loose material off-site shall be covered.
3. All visible mud or dirt tracked out onto adjacent public roads shall be removed using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited.
4. All vehicle speeds on unpaved roads shall be limited to 15 mph.
5. All roadways, driveways, and sidewalks to be paved shall be completed as soon as possible. Building pads shall be laid as soon as possible after grading unless seeding or soil binders are used.
6. Idling times shall be minimized either by shutting equipment off when not in use or reducing the maximum idling time to 5 minutes (as required by the California airborne toxics control measure Title 13, Section 2485 of California Code of Regulations [CCR]). Clear signage shall be provided for construction workers at all access points.
7. All construction equipment shall be maintained and properly tuned in accordance with manufacturer's specifications. All equipment shall be checked by a certified visible emissions evaluator.
8. Post a publicly visible sign with the telephone number and person to contact at the lead agency regarding dust complaints. The Air District's phone number shall also be visible.

B. **General Compliance and Annual Audits**

Permittee shall obtain and maintain all permits (Use Permits and Modifications) and licenses from the California Department of Alcoholic Beverage Control (ABC), United States Tax and Trade Bureau (TTB), Department of Food and Agriculture (CDFA) Grape Crush Inquiry data, all of which are required to produce and sell wine. In the event permittee loses required ABC or TTB permits and licenses, permittee shall cease marketing events and tours and tastings until such time as those ABC and/or TTB permits and licenses are re-established.

Visitation log books, custom crush client records, and any additional documentation determined by staff to be necessary to evaluate compliance may be requested by the County in the event the winery is chosen in the County's annual audit. The permittee (and their successors) shall be required to participate fully in the winery audit process.

- C. The existing single-family residence is classified for residential purposes only and cannot be used for commercial purposes or in conjunction with the operation and/or visitation/marketing program for the winery. If the residence is rented, the residence shall only be rented out for periods of 30 days or more, pursuant to Napa County Code Section 18.104.410, Transient Commercial Occupancies of Dwelling Units Prohibited
- D. No building, grading, or sewage disposal permit shall be issued, nor shall beneficial occupancy be granted until all accrued planning permit processing fees have been paid in full.
- E. The applicant shall construct a left turn lane on Silverado Trail prior to the Issuance of Final Certificate of Occupancy by the Building Division. The design of the left turn lane shall be submitted to the Public Works Department for their review and approval. The left turn lane shall be designed in substantial conformance with the submitted site plan, and other submittal materials and shall comply with all requirements of the Napa County Code.

3. **COMPLIANCE WITH OTHER DEPARTMENTS AND AGENCIES**

Project conditions of approval include all of the following County, Divisions, Departments and Agency(ies) requirements. The permittee shall comply with all applicable building codes, zoning standards, and requirements of County Divisions, Departments and Agencies at the time of submittal and may be subject to change. Without limiting the force of those other requirements which may be applicable, the following are incorporated by reference as enumerated herein:

- A. Engineering Services Division as stated in their Memorandum dated December 2, 2014.
- B. Environmental Health Division as stated in their Memorandum dated February 11, 2015.
- C. Building Division as stated in their Memorandum dated June 19, 2014.
- D. Fire Department as stated in their Inter-Office Memo dated September 10, 2014.
- E. Public Works memorandum of March 27, 2012.

The determination as to whether or not the permittee has substantially complied with the requirements of other County Divisions, Departments and Agencies shall be determined by those Divisions, Departments or Agencies. The inability to substantially comply with the requirements of other County Divisions, Departments and Agencies may result in the need to modify the approved use permit.

4. **VISITATION**

Consistent with County Code Sections 18.16.030 and 18.20.030, marketing and tours and tastings may occur at a winery only where such activities are accessory and “clearly incidental, related, and subordinate to the primary operation of the winery as a

production facility.” Marketing and/or Tours and Tastings are not typically authorized until grant of Final Certificate of Occupancy, but exceptions may be granted where extenuating circumstances exist, subject to review and approval by the County Building Official, County Fire Marshal, and the PBES Director.

Permittee shall obtain and maintain all permits and licenses from the California Department of Alcoholic Beverage Control (ABC) and United States Tax and Trade Bureau (TTB) required to produce and sell wine, including minimum levels of crush and fermentation. In the event permittee loses required ABC and/or TTB permits and licenses, permittee shall cease marketing events and tours and tastings until such time as those ABC and/or TTB permits and licenses are re-established.

A log book (or similar record) shall be maintained to document the number of visitors to the winery (be they tours and tastings or marketing event visitors), and the dates of their visit. This record of visitors shall be made available to the Planning, Building and Environmental Services Department upon request.

A. TOURS AND TASTING

Tours and tastings are limited to the following:

1. Frequency: 7 days per week, Monday through Sunday (or otherwise specified)
2. Maximum number of persons per day: 124
3. Maximum number of persons per week: 868
4. Hours of operation: 8:00 am to 6:00 pm

“Tours and tastings” means tours of the winery and/or tastings of wine, where such tours and tastings are limited to persons who have made unsolicited prior appointments for tours or tastings.

Tours and tastings may include food and wine pairings, where all such food service is provided without charge except to the extent of cost recovery and is incidental to the tasting of wine. Food service may not involve menu options and meal service such that the winery functions as a café or restaurant. (County Code Section 18.08.620 - Tours and Tastings.)

B. MARKETING

Marketing events are limited to the following:

1. Frequency: 105 times per year
Number of persons: 25 maximum
2. Frequency: 8 times per year
Number of persons: 75 persons
3. Frequency: 2 times per year
Number of persons: 125

(Except the days on which 125-person marketing events occur, combined tours and tastings and marketing event visitation shall not exceed 124 persons on any day)

"Marketing of wine" means any activity of a winery which is conducted at the winery on a prearranged basis for the education and development of customers and potential customers with respect to wine which can be sold at the winery on a retail basis pursuant to County Code Chapters 18.16 and 18.20. Marketing of wine may include cultural and social events directly related to the education and development of customers and potential customers provided such events are clearly incidental, related and subordinate to the primary use of the winery. Marketing of wine may include food service, including food and wine pairings, where all such food service is provided without charge except to the extent of cost recovery.

Business events are similar to cultural and social events, in that they will only be considered as "marketing of wine" if they are directly related to the education and development of customers and potential customers of the winery and are part of a marketing plan approved as part of the winery's use permit. Marketing plans in their totality must remain "clearly incidental, related and subordinate to the primary operation of the winery as a production facility" (County Code Sections 18.16.030(G)(5) and 18.20.030(I)(5)). To be considered directly related to the education and development of customers or potential customers of the winery, business events must be conducted at no charge except to the extent of recovery of variable costs, and any business content unrelated to wine must be limited. Careful consideration shall be given to the intent of the event, the proportion of the business event's non-wine-related content, and the intensity of the overall marketing plan. (County Code Section 18.08.370 - Marketing of Wine).

All activity, including cleanup, shall cease by 10:00 PM. Start and finish time of activities shall be scheduled to minimize vehicles arriving or leaving between 4:00 PM and 6:00 PM. If any event is held which will exceed the available on-site parking, the applicant shall prepare an event specific parking plan which may include, but not be limited to, valet service or off-site parking and shuttle service to the winery.

5. **GRAPE SOURCE**

At least 75% of the grapes used to make the winery's wine shall be grown within the County of Napa. The permittee shall keep records of annual production documenting the source of grapes to verify that 75% of the annual production is from Napa County grapes. The report shall recognize the Agriculture Commission's format for County of origin of grapes and juice used in the Winery Production Process. The report shall be provided to the Planning, Building & Environmental Services Department upon request, but shall be considered proprietary information not available to the public.

6. **RENTAL/LEASING**

No winery facilities, or portions thereof, including, without limitation, any kitchens, barrel storage areas, or warehousing space, shall be rented, leased, or used by entities other than persons producing and/or storing wine at the on-site winery, such as alternating

proprietors and custom producers, except as may be specifically authorized in this use permit or pursuant to the Temporary Events Ordinance (County Code Chapter 5.36).

7. **SIGNS**

Prior to installation of any winery identification or directional signs, detailed plans, including elevations, materials, color, and lighting, shall be submitted to the Planning, Building, and Environmental Services Department for administrative review and approval. Administrative review and approval is not required if signage to be installed is consistent with signage plans submitted, reviewed and approved as part of this use permit approval. All signs shall meet the design standards as set forth in County Code Chapter 18.116. At least one sign placed and sized in a manner to inform the public must legibly include wording stating "Tours and Tasting by Prior Appointment Only".

8. **LIGHTING**

All exterior lighting, including landscape lighting, shall be shielded and directed downward, shall be located as low to the ground as possible, shall be the minimum necessary for security, safety, or operations, and shall incorporate the use of motion detection sensors to the greatest extent practical. No flood-lighting or sodium lighting of the building is permitted, including architectural highlighting and spotting. Low-level lighting shall be utilized in parking areas as opposed to elevated high-intensity light standards.

Prior to issuance of any building permit pursuant to this approval, two copies of a detailed lighting plan showing the location and specifications for all lighting fixtures to be installed on the property shall be submitted for Planning Division review and approval. All lighting shall comply with the California Building Code.

9. **LANDSCAPING**

Two (2) copies of a detailed final landscaping and irrigation plan, including parking details, shall be submitted with the Building Permit application package for the Planning Division's review and approval prior to the issuance of any building permit associated with this approval. The plan shall be prepared pursuant to the County's Water Efficient Landscape Ordinance (WELO) (County Code Chapter 18.118), as applicable, and shall indicate the names and locations of all plant materials to be used along with their method of maintenance.

Plant materials shall be purchased locally when practical. The Agricultural Commissioner's office (707-253-4357) shall be notified of all impending deliveries of live plants with points of origin outside of Napa County.

No trees greater than 6" DBH shall be removed, except for those identified on the submitted site plan. Trees to be retained shall be protected during construction by fencing securely installed at the outer most dripline of the tree or trees. Such fencing shall be maintained throughout the duration of the work undertaken in connection with the winery development/construction. In no case shall construction material, debris or vehicles be stored in the fenced tree protection area.

Evergreen screening shall be installed between the industrial portions of the operation (e.g. tanks, crushing area, parking area, etc.) and any off-site residence from which these areas can be viewed.

Landscaping shall be completed prior to issuance of a final certificate of occupancy, and shall be permanently maintained in accordance with the landscaping plan.

10. **OUTDOOR STORAGE/SCREENING/UTILITIES**

All outdoor storage and ground mounted equipment shall be screened from the view of adjacent properties by a visual barrier consisting of fencing or dense landscaping. No item in storage is to exceed the height of the screening. Water and fuel tanks, and similar structures, shall be screened to the extent practical so as to not be visible from public roads and adjacent parcels.

New utility lines required for this project that are visible from any designated scenic transportation route (see Community Character Element of the General Plan and Chapter 18.106 of the Napa County Code) shall be placed underground or in an equivalent manner be made virtually invisible from the subject roadway.

11. **COLORS**

The colors used for the roof, exterior walls and built landscaping features of buildings shall be limited to earth tones that will blend the project into the colors of the surrounding site specific vegetation and the applicant shall obtain the written approval of the Planning, Building & Environmental Services Department prior to painting the building. Highly reflective surfaces are prohibited.

12. **SITE IMPROVEMENTS AND ENGINEERING SERVICES-SPECIFIC CONDITIONS**

Please contact (707) 253-4417 with any questions regarding the following.

A. **GRADING AND SPOILS**

All grading and spoils generated by construction of the project facilities, including cave spoils, shall be managed per Engineering Services direction. All spoils piles shall be removed prior to issuance of a final certificate of occupancy.

B. **TRAFFIC**

Reoccurring and scheduled vehicle trips to and from the site for employees, deliveries, and visitors shall not occur during peak (4-6 PM) travel times to the maximum extent possible. All road improvements on private property required per Engineering Services shall be maintained in good working condition and in accordance with the Napa County Roads and Streets Standards.

C. **DUST CONTROL**

Water and/or dust palliatives shall be applied in sufficient quantities during grading and other ground disturbing activities on-site to minimize the amount of dust produced. Outdoor construction activities shall not occur during windy periods.

D. STORM WATER CONTROL

The permittee shall comply with all construction and post-construction storm water pollution prevention protocols as required by the County Engineering Services Division, and the State Regional Water Quality Control Board (SRWQCB).

E. PARKING

The location of employee and visitor parking and truck loading zone areas shall be identified along with proposed circulation and traffic control signage (if any).

Parking shall be limited to approved parking spaces only and shall not occur along access or public roads or in other locations except during harvest activities and approved marketing events. In no case shall parking impede emergency vehicle access or public roads. If any event is held which will exceed the available on-site parking, the permittee shall prepare an event-specific parking plan which may include but, shall not necessarily be limited to, valet service or off-site parking and shuttle service to the winery.

F. GATES/ENTRY STRUCTURES

Any gate installed at the winery entrance shall be reviewed by the Planning, Building & Environmental Services Department and the Napa County Fire Department to assure that it is designed to allow large vehicles, such as motorhomes, to turn around if the gate is closed without backing into the public roadway, and that fire suppression access is available at all times. If the gate is part of an entry structure an additional permit shall be required according to the County Code and in accordance with the Napa County Roads and Street Standards. A separate entry structure permit is not required if the entry structure is consistent with entry structure plans submitted, reviewed, and approved as part of this use permit approval.

13. ENVIRONMENTAL HEALTH-SPECIFIC CONDITIONS

Please contact (707) 253-4471 with any questions regarding the following.

A. WELLS

The permittee may be required (at the permittee's expense) to provide well monitoring data if the PBES Director determines that water usage at the winery is affecting, or would potentially affect, groundwater supplies or nearby wells. Data requested could include, but would not necessarily be limited to, water extraction volumes and static well levels. If the applicant is unable to secure monitoring access to neighboring wells, onsite monitoring wells may need to be established to gauge potential impacts on the groundwater resource utilized for the project proposed. Water usage shall be minimized by use of best available control technology and best water management conservation practices.

In the event that changed circumstances or significant new information provide substantial evidence that the groundwater system referenced in the use permit would significantly affect the groundwater basin, the PBES Director shall be authorized to recommend additional reasonable conditions on the permittee, or revocation of this permit, as necessary to meet the requirements of the Napa County Groundwater Ordinance and protect public health, safety, and welfare.

That recommendation shall not become final unless and until the PBES Director has provided notice and the opportunity for hearing in compliance with the County Code Section 13.15.070 (G-K).

B. NOISE

Construction noise shall be minimized to the greatest extent practical and allowable under State and local safety laws. Construction equipment muffling and hours of operation shall be in compliance with County Code Chapter 8.16. Equipment shall be shut down when not in use. Construction equipment shall normally be staged, loaded, and unloaded on the project site. If project terrain or access road conditions require construction equipment to be staged, loaded, or unloaded off the project site (such as on a neighboring road or at the base of a hill), such activities shall only occur between the hours of 8 AM to 5 PM. Exterior winery equipment shall be enclosed or muffled and maintained so as not to create a noise disturbance in accordance with the County Code. There shall be no amplified sound system or amplified music utilized outside of approved, enclosed, winery buildings.

14. ARCHEOLOGICAL FINDING

In the event that archeological artifacts or human remains are discovered during construction, work shall cease in a 50-foot radius surrounding the area of discovery. The permittee shall contact the Planning, Building and Environmental Services Department for further guidance, which will likely include the requirement for the permittee to hire a qualified professional to analyze the artifacts encountered and to determine if additional measures are required.

If human remains are encountered during the development, all work in the vicinity must be, by law, halted, and the Napa County Coroner informed, so that the Coroner can determine if an investigation of the cause of death is required, and if the remains are of Native American origin. If the remains are of Native American origin, the nearest tribal relatives as determined by the State Native American Heritage Commission shall be contacted by the permittee to obtain recommendations for treating or removal of such remains, including grave goods, with appropriate dignity, as required under Public Resources Code Section 5097.98.

15. ADDRESSING

All project site addresses shall be determined by the PBES Director, and be reviewed and approved by the United States Post Office, prior to issuance of any building permit. The PBES Director reserves the right to issue or re-issue an appropriate situs address at the time of issuance of any building permit to ensure proper identification and sequencing of numbers. For multi-tenant or multiple structure projects, this includes building permits for later building modifications or tenant improvements.

16. INDEMNIFICATION

If an indemnification agreement has not already been signed and submitted, one shall be signed and returned to the County within twenty (20) days of the granting of this

approval using the Planning, Building and Environmental Services Department's standard form.

17. **AFFORDABLE HOUSING MITIGATION**

Prior to County issuance of a building permit, the applicant shall pay the Napa County Affordable Housing Mitigation Fee in accordance with the requirements of County Code Chapter 18.107.

18. **PREVIOUS CONDITIONS**

As applicable, the permittee shall comply with any previous conditions of approval for Use Permit #P11-00348, except as they may be explicitly modified by this action. To the extent there is a conflict between previous conditions of approval and these conditions of approval, these conditions shall control.

19. **MONITORING COSTS**

All staff costs associated with monitoring compliance with these conditions, previous permit conditions, and project revisions shall be borne by the permittee and/or property owner. Costs associated with conditions and mitigation measures that require monitoring, including investigation of complaints, other than those costs related to investigation of complaints of non-compliance that are determined to be unfounded, shall be charged to the owner. Costs shall be as established by resolution of the Board of Supervisors in accordance with the hourly consulting rate established at the time of the monitoring and shall include maintenance of a \$500 deposit for construction compliance monitoring that shall be retained until grant of final certificate of occupancy. Violations of conditions of approval or mitigation measures caused by the permittee's contractors, employees, and/or guests are the responsibility of the permittee.

The Planning Commission may implement an audit program if compliance deficiencies are noted. If evidence of compliance deficiencies is found to exist by the Commission at some time in the future, the Commission may institute the program at the applicant's expense (including requiring a deposit of funds in an amount determined by the Commission) as needed until compliance assurance is achieved. The Planning Commission may also use the data, if so warranted, to commence revocation hearings in accordance with County Code Section 18.124.120.

20. **TEMPORARY AND FINAL OCCUPANCY**

All project improvements, including compliance with applicable codes, conditions, and requirements of all departments and agencies with jurisdiction over the project, shall be completed prior to granting of a Certificate of Final Occupancy by the County Building Official, which, upon granting, authorizes all use permit activities to commence. The County Building Official is authorized to grant a Temporary Certificate of Occupancy to allow specified limited use of the project prior to completion of all project improvements. In special circumstances, departments and/or agencies with jurisdiction over the project are authorized as part of the Temporary Certificate of Occupancy process to require a security deposit or other financial instrument to guarantee completion of unfinished improvements.
