SUBJECT: Presentation of a proclamation declaring October 2017 as "Cyber Security Awareness Month"

RECOMMENDATION

Presentation of a proclamation to Jon Gjestvang, Chief Information Officer, declaring October 2017 as "Cyber Security Awareness Month" in Napa County.

EXECUTIVE SUMMARY

The Napa County Information Technology Services Division is responsible for the development, operation and maintenance of all County information systems, including the Internet and Intranet. Cyber security is a vitally important component in protecting those information security systems. The purpose of Cyber Security Awareness Month is to increase awareness and educate County staff, citizens and interested groups about the importance of maintaining the security of cyber space and to increase our resiliency in the event of a cyber incident.

FISCAL IMPACT

Is there a Fiscal Impact? No

ENVIRONMENTAL IMPACT

ENVIRONMENTAL DETERMINATION: The proposed action is not a project as defined by 14 California Code of Regulations 15378 (State CEQA Guidelines) and therefore CEQA is not applicable.

BACKGROUND AND DISCUSSION

Since its inception in 2004 by the U.S. Department of Homeland Security, October has been nationally recognized as Cyber Security Awareness Month. The Napa County Information Technology Services Division is responsible for the development, operation and maintenance of all County information systems, including the Internet and Intranet. Cyber security is a vitally important component in protecting those information security systems. The purpose of Cyber Security Awareness Month is to increase awareness and educate County staff, citizens and interested groups about the importance of maintaining the security of cyberspace and to increase our resiliency in the event of a cyber incident. Through the STOP.THINK.CONNECT Campaign, ITS distributes flyers, posters, security newsletters and other campaigns to instill security awareness.
