BACKGROUND AND DISCUSSION

On July 25, 2006, the Board approved an agreement with Anasazi Software, Inc., for the purchase of a new California-compliant web-based Medicare/Medi-Cal billing system for the Mental Health and Alcohol and Drug Services programs. The multi-year Agreement provided for installation assistance, training, software maintenance and support services. The annual maintenance component of the Agreement required the vendor to make all improvements necessary to keep the system current with state and federal requirements.

In November 2012, Cerner Corporation acquired Anasazi Software, Inc. and on February 26, 2013, the Board approved the Director of Health and Human Services to give written consent to the assignment of Napa County Agreement No. 6670 to Cerner Corporation.

Approval of the requested action will amend the existing agreement to include updates on the License Software, Support and Maintenance and Business Associate exhibits. This will enable the County's Health and Human Services Agency to continue receiving comprehensive system support. The amendment streamlines the support structure, includes licenses for Doctor's Homepage (which were in the past separate from general support) and includes recent updates to the Health Insurance Portability and Accountability Act. All other terms remain the same, including the maximum amount of the Agreement.

Cerner is not a local vendor.
