BACKGROUND AND DISCUSSION

On November 2, 2020 Napa County Health and Human Services Mental Health Division issued a Request for Proposals from qualified agencies/organizations to administer and provide Crisis Stabilization Services (CSS) for mental health consumers through the Division's CSS Program. Multiple agencies applied and Crestwood Behavioral Health, Inc. ultimately won the award. This agreement will allow the contractor to operate Napa County's Crisis Stabilization Unit.

The contractor will provide immediate access to crisis intervention, emergency psychiatric evaluation and medication services for children, adults, and older adults in a mental health crisis, and other specialty mental health services. The contractor will also offer community-based Crisis Stabilization Services (CSS) over the telephone or through face-to-face contact 24 hours a day, 7 days per week and will address the emergency psychiatric needs of children, adolescents, adults, older adults and families in a mental health crisis. The recovery-oriented services offered in voluntary and involuntary treatment settings will promote the provision of mental health care and integrated triage for individuals who may be in a situational crisis, may have primary diagnoses of mental health disorders, and may also have co-occurring substance abuse disorders. Individuals will be given up to 23:59 hours of intensive crisis assistance onsite and offered an array of other services as needed.

The CSS facility is located at HHSA's South Campus, 2175 Napa Valley Corporate Drive in Napa, CA and will be transitioned over from the previous contractor on June 1, 2021. From the beginning of the contract start on April 20, 2021, the contractor will enter a "start-up" phase to train and hire staff. The contractor is projected to begin delivering services from the facility on June 1, 2021. All eligible services will be billed to Medi-Cal and private insurance.
