BACKGROUND AND DISCUSSION

Under its current agreement, Crestwood Behavioral Health, Inc. provides long-term, inpatient mental health treatment on a subacute level (i.e., treatment below the level of a hospital stay). Crestwood operates a number of facilities throughout Northern California. Services being provided include skilled nursing, enhanced board and care, psychosocial rehabilitation, behavior management, life skills training, and geropsychiatric services designed to address the treatment and safety needs of individuals who, because of a mental illness, are determined to be gravely disabled. The services are designed to stabilize clients' mental health conditions, with the goal of returning individuals back to the Napa County community mental health treatment system. Clients with extreme medical or behavioral issues may require longer-term care. Clients are placed in the contractor's facilities by the Health and Human Services Agency, subject to the requirements of California Welfare and Institutions Code Section 5150 et. seq. Each of Crestwood's facilities charges daily bed rates and additional daily fees ("patch rates") based on the type and level of services necessary to address each client's needs.

Approval of the requested action will amend the agreement to update the Scope of Work and Compensation sections to reflect changes to the language regarding the maintenance of treatment slots and will incorporate changes to the contractor's rates for available services and facilities for Napa County clients requiring placement during Fiscal Year 2011-2012 and Fiscal Year 2012-2013. The existing contract maximum of \$1,250,000 will remain the same.

Crestwood Behavioral Health, Inc. is not a local vendor. There are no treatment facilities of this type in Napa County.
