#### **EXECUTIVE SUMMARY**

Napa County Mosquito Abatement District Manager Wesely Maffei to present a District update.

#### **FISCAL IMPACT**

Is there a Fiscal Impact? No

#### **ENVIRONMENTAL IMPACT**

There is no Environmental Impact for this item.

#### **BACKGROUND AND DISCUSSION**

Napa County Mosquito Abatement District (NCMAD) was formed in 1925 to manage mosquito populations and mosquito-borne disease within Napa County. The District passed a benefit assessment in 2003 that allowed for the expansion of mosquito control services and added yellow jacket control services and the provision of information concerning rodent and tick management following inspection and consultation with citizens and

property owners within the County. Rodent and tick-borne disease surveillance was also added by the District as a result of the benefit assessment.

An update is being provided on services the District provides, along with relevant vector-borne disease information for Napa County and current and potential future issues affecting the District and its services.
