BACKGROUND AND DISCUSSION

On April 1, 1998, The Agency implemented the outpatient phase of the Mental Health Managed Care Program. The Program is governed by the terms of Agreement No. 4028 with the State Department of Mental Health, regulations promulgated by the federal Medicaid and California Medi-Cal programs, and by a provider operations manual developed by Agency staff. The Agency is able to bill Medi-Cal for services performed by providers and receives approximately 50 percent federal reimbursement for those services. Remaining costs are funded by a state managed care allocation. The network of providers includes Psychiatrists, Psychologists, Marriage and Family Therapists (MFTs), Licensed Clinical Social Workers (LCSWs), and Masters-prepared Psychiatric Nurses. Currently, the managed care program provides treatment on a regular basis to 350-400 clients. Approval of the requested amendment will incorporate performance measures, contract monitoring requirements and optional training.

The Agency has an executed Business Associate agreement on file with this provider.
