BACKGROUND AND DISCUSSION

On April 1, 1998, HHSa implemented the outpatient phase of the Mental Health Managed Care Program. The program is governed by the terms of Agreement No. 4028 with the State Department of Mental Health, regulations promulgated by the federal Medicaid and California Medi-Cal programs, and by a provider operations manual developed by HHSa staff and reviewed by County Counsel. HHSa is able to bill Medi-Cal for services performed by providers and receives approximately 50% federal reimbursement for those services. Remaining costs are funded by a State managed care allocation.

The network of providers includes Psychiatrists, Psychologists, Marriage and Family Therapists (MFT's), Licensed Clinical Social Workers (LCSW's) and Masters-prepared Psychiatric Nurses. Currently the managed care program has 250-300 clients whom the providers treat on a regular basis.

The department has executed Business Associate agreements on file with these providers.
