ENVIRONMENTAL IMPACT

ENVIRONMENTAL DETERMINATION: The proposed action is not a project as defined by 14 California Code of Regulations 15378 (State CEQA Guidelines) and therefore CEQA is not applicable.

BACKGROUND AND DISCUSSION

1. Agreement No. 2683 provides for the reimbursement of costs associated with the performance of petroleum inspections and weighmaster audits. The CDFA, Division of Measurement Standards (DMS), along with county Sealers of Weights and Measures, ensure petroleum products sold within the State/County meet minimum quality and labeling standards. County Sealers of Weights and Measures are also responsible for the accurate weighting of various commodities within the channels of trade. This agreement, which has been combined with former Agreement No. 3547, allocates \$6,000 to perform inspections and sampling of petroleum products sold within Napa County and to perform these audits as required.
2. Agreement No. 4212 provides for the reimbursement of costs associated with the performance of enforcement of the California Organic Foods Act. Counties receive a portion of registration fees and perform inspections at the producer/handler and retail/farmer's market levels. In addition, the County Agricultural Commissioner will receive and investigate complaints. This agreement allocates \$1,400 to perform organic food inspections as required.
3. Agreement No. 2036 provides a portion of the costs associated with the 1.5 Trapper positions allocated to Napa County, and the related clerical support provided by the Agricultural Commissioner's office. Napa County is a participant in a program for wildlife damage management with CDFA and USDA. USDA employees provide expertise in helping ranchers deal with predators killing their livestock. In addition, these trappers help the community deal with animals carrying rabies as well as other health and damage-related issues. Costs associated with this agreement are \$69,817.50 for providing Wildlife Management Services to Napa County.
