**BACKGROUND AND DISCUSSION**

In 2004, a need to replace the existing downtown Napa jail was identified and the Adult Correction Master Plan was developed with collaboration between Napa County Department of Corrections, the Probation Department, the Sheriff's Office, the Offices of the District Attorney and Public Defender, Health and Human Services Agency, Napa County Courts, and the Napa Police Department. After community meetings and discussions, the Board of Supervisors determined that a replacement jail should be located outside of downtown Napa, and subsequently a site on Napa Vallejo Highway, near Syar Industries, was purchased to house what is now known as the Napa County Justice Center, which will include the Jail replacement and a Re-entry facility. As part of the overall realignment of State corrections, the Board of State and Community Corrections (BSCC) initiated a variety of funding opportunities that counties could access as replacement of aging and outdated jails became necessary. Napa County was successful at obtaining over \$35 million from these sources to support the Re-entry facility and the jail replacement.

Today's discussion will include an update on the Jail replacement and Re-entry facilities.
