### **ENVIRONMENTAL IMPACT**

ENVIRONMENTAL DETERMINATION: The proposed action is not a project as defined by 14 California Code of Regulations 15378 (State CEQA Guidelines) and therefore CEQA is not applicable.

### **BACKGROUND AND DISCUSSION**

On April 1, 1998, HHSa implemented the outpatient phase of the Mental Health Managed Care Program. The program is governed by the terms of Agreement No. 4028 with the State Department of Mental Health, regulations promulgated by the federal Medicaid and California Medi-Cal programs, and by a provider operations manual developed by HHSa staff and reviewed by County Counsel. HHSa is able to bill Medi-Cal for services performed by providers and receives approximately 50% federal reimbursement for those services. Remaining costs are funded by a State managed care allocation.

The network of providers includes Psychiatrists, Psychologists, Marriage and Family Therapists (MFTs), Licensed Clinical Social Workers (LCSWs) and Masters-prepared Psychiatric Nurses. Currently the managed care program has approximately 250-300 clients whom the providers treat on a regular basis. The program requires County contracts (defined as subcontracts in the State agreement) with individual providers in the program. The contractor will provide counseling services to clients participating in the program.

This item also includes a Business Associate Agreement setting forth the Health Insurance Portability and Accountability Act of 1996 (HIPAA) regulations to which the contractor is subject. This agreement provides the County with assurances that the contractor will comply with any and all HIPAA requirements.
