### **RECOMMENDATION**

County Executive Officer seeks discussion and possible action on SB 1007 (Jones-Sawyer) relating to local government financing and the juvenile justice coordinating council.

### **EXECUTIVE SUMMARY**

AB 1007 (Jones-Sawyer) will change the multiagency juvenile justice coordinating council and divert 95% of the funding to community based organizations instead of the current 50%. It would change the makeup of the council, remove the Chief Probation Officer as chair and institute other requirements that could cost additional resources to the County.

### **ENVIRONMENTAL IMPACT**

ENVIRONMENTAL DETERMINATION: The proposed action is not a project as defined by 14 California Code of Regulations 15378 (State CEQA Guidelines) and therefore CEQA is not applicable.

## **BACKGROUND AND DISCUSSION**

### Synopsis

This bill would revise and recast required components of the multiagency juvenile justice plan to, among other things, additionally require a plan to include an assessment of existing community-based youth development services, identification and prioritization of areas of the community that face significant public safety risk from violence and crime, documentation of the effectiveness of the programs funded under these provisions, and a description of the target population funded under these provisions. The bill would require programs and strategies funded under these provisions to, among other things, be modeled on trauma-informed and youth development approaches and in collaboration with community-based organizations. The bill would require that at least 95% of the funds allocated under these provisions be distributed to community-based organizations and other public agencies or departments that are not law enforcement entities, as specified. The bill would require a council to include additional information in its annual report to the board of supervisors and the board relating to their programs, including data on participants, and would impose additional requirements on the board with respect to those annual reports, including, but not limited to, providing a statewide analysis of county spending.
