Additional items regarding this topic are included in the background section below.

FISCAL IMPACT

Is there a Fiscal Impact? No

ENVIRONMENTAL IMPACT

ENVIRONMENTAL DETERMINATION: The proposed action is not a project as defined by 14 California Code of Regulations 15378 (State CEQA Guidelines) and therefore CEQA is not applicable.

BACKGROUND AND DISCUSSION

SB 1020, which would require communities to achieve a 75% diversion rate (instead of the 50% currently required

under AB 939) is working its way through Sacramento. Staff will continue to track this legislation.

The CIWMB contacted staff last month with concern that the waste volume numbers reported by UVDS to the Waste Board did not match the numbers reported to the Board of Equalization. Since the UVA does not monitor (or even receive) reports which are submitted to BOE this issue has been turned over to the Company to resolve with the Waste Board. Should any of the reported CFL volumes ultimately change as a result of this review landfill surcharge fees could need to be revised accordingly. The Company will provide an update on resolution of this issue at the Board meeting.
