Matt Lemmon, Senior Civil Engineer, presented an update on the Cityworks program implementation and progress. He reported the Collection Department staff has been using the system for approximately six weeks. Training sessions were held in early October via zoom. Lemmon reported they are still working on fine tuning a few things but the implementation was successful. He reviewed program details and examples. Lemmon reported that the program allows for tracking of labor and materials costs and has the ability to cost out for prioritizing rehabilitation in the system.

Lemmon reported that the wastewater treatment plant (WWTP) group will be next to implement the software for their facilities. A few revisions and improvement will be made prior to the treatment plant implementation. Amendment 3 to the Task Order 1 allows for additional professional services from Timmons Group to assist with restructuring the WWTP asset hierarchy, performing data migration, and go-live support.

Mr. Lemmon indicated the program will greatly assist NapaSan in relation to institutional knowledge retention. The Board and staff held discussion.
