RE: 2016 Electronic Annual Report (EAR) review complete; No further information needed.

Dear Mr. Lederer:

In accordance with the Integrated Waste Management Act (IWMA), also known as AB939, CalRecycle staff must review a jurisdiction's Electronic Annual Report (EAR) within 120 days. The intent of this review is to evaluate the implementation of Source Reduction and Recycling Element (SRRE) and Household Hazardous Waste Element (HHWE) programs.

This letter is to inform you that Upper Valley Waste Management Agency's EAR review is complete and there are no further questions.

Note the CalRecycle staff-recommended per capita disposal rate will be posted at: www.calrecycle.ca.gov/LGCentral/DataTools/Reports/DivDispRtSum.htm. A jurisdiction's per capita disposal rate alone does not determine its effort to implement its SRRE and HHWE programs. Rather, program information submitted within the EAR and verified through CalRecycle staff site visits and other findings will be included in a scheduled Department review, every two or four years, to evaluate each jurisdiction's effort in meeting the state's disposal reduction requirements.

Should you have any questions about the EAR or the four year review process, please contact me at (916) 327-8804 or by reply email.

Respectfully,

Karla Miller
Environmental Scientist
