

# WASTECON 2006

September 19-21, 2006

CHARLOTTE, NC

**ACCELERATE  
YOUR CAREER**

at the Premier Show for  
Solid Waste Professionals

TRAINING STARTS SEPTEMBER 17, 2006

**Who keeps NASCAR® clean?  
The only team who can truly keep up.  
Think Green.®**

*At Waste Management, we keep NASCAR® clean – on and off the track. As the exclusive waste services sponsor of NASCAR®, we're the only waste services company doing whatever it takes to make the race a better experience for everyone.*

*Now with two-time Daytona 500 champion Sterling Marlin and MB2 Motorsports joining Team Waste Management Racing, we're geared up to take on NASCAR's® best.*

*We know it takes a team to provide service and performance excellence for NASCAR® and for our customers. That's why every one of our men and women are working together to go the extra mile for the companies and communities we serve.*

*Go with the team that keeps NASCAR® clean. Call Waste Management today.*

***From everyday collection to environmental protection,  
Think Green.® Think Waste Management.***

**We keep  clean.®**

## SWANA Welcomes

**Jay Frye**  
**WASTECON 2006's**  
*Keynote Speaker*

**Jay Frye** has been Chief Executive Officer and General Manager of MB2 Motorsports since the company's inception in 1996. He became a partner of MB2 in 2004.

Frye has been the catalyst in MB2's expansion. The company has grown from a single-car NASCAR Cup team to a multi-car operation. MB2's two full-time Nextel Cup team include the No. 14 Waste Management Chevrolet driven by Sterling Marlin and the No. 01 U.S. Army Chevrolet driven by Joe Nemechek.

Securing the Waste Management sponsorship in late 2005 was a special moment for Frye, who grew up in the waste-removal business. Frye's father, Jerry, owned Jerry's Disposal Systems in Rock Island, Ill., servicing the Quad City area. "I grew up in a garbage truck," recalled Frye, who transported his date to the senior prom in a garbage truck.

*See page 13 for more information.*

April 2006

Dear Friend:

Every year SWANA brings together the best vendors and speakers in the solid waste field and combines them with quality training and networking opportunities all in one place: WASTECON.

On behalf of SWANA's more than 7,500 members, I would like to extend our personal invitation to join us in Charlotte, North Carolina for WASTECON 2006.

This year, WASTECON will accelerate your career by offering:

- 13 SWANA Training courses and nearly 100 Technical Presentations—The most comprehensive educational program you'll find anywhere
- A fantastic Wednesday Night Networking Event at the *Lowes Motor Speedway*, where you'll have the opportunity to drive on the racetrack
- Pavilions on the show floor that will bring together vendors in three key areas: Organics, Electronics Recycling and Recycled Products
- An enjoyable and competitive golf tournament, yet another networking opportunity
- The chance to network with solid waste professionals from the United States and Canada in every discipline.

Race to Charlotte to see what solid waste is really all about. Please join me and thousands of other solid waste professionals at the premier conference for solid waste professionals.

Sincerely,

Andy Quigley  
SWANA President 2005-2006  
Executive Director  
Solid Waste Agency of Lake County (Ill.)

# WASTECON 2006 Media Partners To Date

If your publication is interested in partnering with SWANA for WASTECON 2006, contact Evan Von Leer, Marketing Communications Coordinator, at [ads@swana.org](mailto:ads@swana.org).

If your organization is interested in sponsoring a part of WASTECON 2006, contact Kerry Curtis, Manager of Exposition Sales, at [kcurtis@swana.org](mailto:kcurtis@swana.org).

## W A S T E C O N R E C

With so much to do at WASTECON 2006, we thought you might need a little help maneuvering all the training, technical sessions and events. We've asked some of our members for their recommendations in a few of our program tracks. Here's what they have to say...

## COLLECTION & TRANSFER TRACK

**Becky Caldwell**  
Assistant Solid Waste Director for the City of Franklin (TN)

### Becky recommends:

- Managing MSW Collection Systems and Managing MSW Transfer Systems Training Courses
- The Return of the Public Sector
- Developing a Highly Skilled and Competitive Workforce
- New Insights on Transfer Station Design
- Capturing Data and Avoiding Revenue Losses
- Innovative Contracting for Financial Success: Beyond the Basics
- Single Stream: The Best Option for Recyclables Collection?

See pages 20-24 for more details

## COMMUNICATION, EDUCATION & MARKETING TRACK

**Victoria Wiedel**  
Public Information Coordinator for the Solid Waste Agency of Lake County (IL)

### Victoria recommends:

- School Education and Outreach
- Increasing Recycling through Education
- Green Building as the Next Step in Reduction and Reuse
- Making the Most of Your Partnerships
- Stop by the Recycled Products Pavilion on the Show Floor
- Public Education Workshop: Communication Tools You Can Use
- Focus on Cost and Liability Control

See pages 20-23 for more details

## LANDFILL GAS TRACK

**Pete Carrico**  
Vice President of SCS Field Services

### Pete recommends:

- SWANA's LFG Operations and Maintenance Training Course
- Leachate Management
- Unique Landfill Gas Utilization and Compliance Issues
- The Future of Landfill Gas Operations and Project Development
- Tales from the Landfill: Case Studies and Applied Technologies
- Critical Components for Your Project Planning
- Status of Renewable Energy Credit Markets and Carbon Financing

See pages 21 and 25 for more details

\*Sponsored by U.S. EPA Landfill Methane Outreach Program

## LANDFILL MANAGEMENT TRACK

**Anne Germain**  
Manager of Engineering at the Delaware Solid Waste Authority

### Anne recommends:

- SWANA's MOLO® and Bioreactor Training Courses
- Leachate Management
- Unique Landfill Gas Utilization and Compliance Issues
- R&R: Reclamation and Redevelopment
- Tales from the Landfill: Case Studies and Applied Technologies
- Critical Components for Your Project Planning
- The Design and Economics of Landfills

See pages 21-25 for more details

# RECOMMENDATIONS

## ORGANICS MANAGEMENT & COMPOSTING TRACK

**Matt Cotton**  
Principal, Integrated Waste Management Consulting

*Matt recommends:*

- SWANA's Managing Composting Programs Training Course
- Taking Commercial Recycling Further
- Composting Technologies and Products  
*\*Sponsored by U.S. Composting Council*
- Stop by the Organics Pavilion on the Show Floor
- Using Organics at your Landfill  
*\*Sponsored by U.S. Composting Council*
- Making the Most of Your Partnerships
- Commercial Organics Recycling: Program Realities  
*\*Sponsored by BioCycle*
- Organics Conversion Technologies  
*\*Sponsored by BioCycle*

*See pages 22 and 24 for more details*

## PLANNING & MANAGEMENT TRACK

**Brooke Beal**  
Executive Director of the Solid Waste Authority of Northern Cook County (Ill.)

*Brooke recommends:*

- MOAB® and Scott Hunter Special Workshops
- Update on Current Credit Rating Trends and Key Court Decisions
- Developing a Highly Skilled and Competitive Workforce
- Solid Waste Board Members: Learning from the Pros (interactive discussion)
- Conversion Technology Performance Measures
- Innovative Contracting for Financial Success: Beyond the Basics
- System Planning to Manage Growth and the Implications of Urban Infilling

*See pages 22 and 26 for more details*

## SPECIAL WASTE TRACK

**Michelle Nicholls**  
Project Manager for SCS Engineers

*Michelle recommends:*

- SWANA's Managing C&D Material and Electronics Recycling Training Courses
- Paint Product Stewardship Initiative  
*\*Sponsored by Product Stewardship Institute*
- Managing E-Waste Through Legislation
- Stop by the Electronics Recycling Pavilion on the Show Floor
- Tackling Tough Issues with Managing a Household Hazardous Waste Facility
- Planning for the Unpredictable: Man-Made and Natural Disasters
- Secondary Markets for E-Waste: Different Approaches for the Same Items
- Converting C & D Waste

*See pages 23-25 for more details*

## Everyone agrees on a few of the WASTECON 2006 Special Events

*You don't want to miss:*

- Pre-Conference SWANA Training & Workshops
- Charlotte Facility Tours
- Monday Night Opening Reception
- Tuesday's Ribbon Cutting & \$1,000 Drawing
- Keynote Speaker – Jay Frye
- Lawrence Lecturer – Scott Cassel
- \$\$ Daily Cash Drawings on the Show Floor
- Tuesday's Free Reception on the Show Floor
- Wednesday Night's Networking Event at the *Lowes Motor Speedway*
- Thursday's Last Chance Drawing for \$1,000 on the Show Floor
- Awards Luncheon
- WASTECON 2006 Closing Reception

# The Solid Waste Association of North America

## THE BENEFITS

### SWANA Membership:

*As a member of SWANA, you are part of the leading Association in the solid waste field that will accelerate your career.*

- **Discounted Rates** on all of SWANA's Technical Symposia, Training Courses, WASTECON and your SWANA Certification—Attending just one event could pay for your Membership!
- **SWANA's Exclusive Members Only Website.** It's a world of resources at your fingertips:

update your account, search the new E-Library, or search SWANA's complete Membership Database—an instant network of colleagues dealing with the same issues you encounter on a daily basis.

- **Membership in Your Local Chapter.** Get involved in your community and meet colleagues in your area while staying on top of local regulations, technology and policies.

- **Ability to Join SWANA's Technical Divisions.** Keep track of hot topics, connect with experts in your specific field and shape the future of solid waste management by joining one of SWANA's eight Divisions.
- **Free Subscriptions.** Members receive complimentary subscriptions to *MSW Management*, the Journal for Solid Waste Professionals; *MSW Solutions*, SWANA's flagship newsletter; and *E-News*, SWANA's monthly electronic digest.

### SWANA Certification:

*Over 3,000 solid waste professionals have become SWANA Certified. Why? Because they know SWANA Certification:*

- Can mean the difference in getting a job or promotion.

- Provides access to timely information through our *Certified Newsletter*.
- Is the mark of professionalism and trust in the solid waste field.

- Tells your community that their facility is managed by a knowledgeable individual.
- Is a great investment in your future.

### SWANA Technical Division Membership:

*No matter whether you are in the public or private sector of the solid waste field, you'll benefit from:*

- **Access to cutting edge information.** *TechNews*, SWANA's quarterly, electronic newsletter will bring you the latest in your specific field. You will also have unlimited access to SWANA's E-Library, Members Only & Division websites.

- **Unmatched networking opportunities.** There are more than 2,700 members of SWANA's 8 Technical Divisions. These contacts give you the opportunity to participate in an unlimited exchange of ideas and information.
- **A chance to shape the future of SWANA.** As a Technical Division Member, you can: help develop programs for annual symposia and guide the develop-

- ment of technical policies and advocacy initiatives.
- **Discounted Rates.** Your Technical Division Membership gets you a \$25 registration discount to your Division's annual specialty symposium and special discounts on publications, conference proceedings and online training.

**SWANA North Carolina Chapter Training:  
Landfill Operations Specialist & Transfer Station Specialist Courses  
Thursday September 21, 2006**

**Certification Courses to Meet  
NC DENR Rules for Landfill &  
Transfer Station Operators**

**N.C. Landfill Operations Specialist Course**

Meet the NC DENR rules for Landfill Operators as you learn about Landfill Gas, Leachate, Waste Screening, Groundwater Monitoring, as well as an overview of North Carolina's Solid Waste Regulations & Policy presented by a NCDENR staff member.

**N.C. Transfer Station Operations Specialist Course**

North Carolina transfer station operators should attend this course to learn about State Regulatory Issues, Hazardous Waste Sources and Characteristics, Fundamentals of Waste Screening, as well as Health & Safety Issues.

**FEE: Members \$100 per class**

**Non-members \$125 per class**

**The following CEUs are available toward SWANA Certifications**

SWANA CERTIFICATION	N.C. LANDFILL COURSE	N.C. TRANSFER STATION COURSE
Bioreactor	5	5
Construction & Demolition	5	5
Collections	5	5
Composting	5	5
Landfill	10	10
MSW Management	10	10
Recycling Systems	5	5
Transfer Station	10	10

## Charlotte, North Carolina

*Nicknamed "The Queen City," Charlotte, North Carolina is a one-of-a-kind place, home to more than 1.5 million people, as well as some of the best southern traditions and hospitality you'll find anywhere in the southeast!*

Charlotte really does have a little something for everyone, if not a whole lot more. From professional sports franchises, to some of the best cuisine in the country, to a stylish nightlife and excellent shopping, you are sure to enjoy every aspect of this wonderful city.

"Carolina Blue Skies" and fantastic facilities put Charlotte on top of the list for sports and recreation fans in search of a little fun.

With excellent parks throughout the city and its surrounding areas and more than 50 beautiful golf courses, Charlotte's climate is conducive to outdoor activities year round. Baseball, basketball, soccer, football and, of course, racing, are just some of the sports that you can see and play around Charlotte. This great city has a line-up of parks, fields, sports facilities and attractions just waiting for some action!

*Nation's Restaurant News* magazine recently named Charlotte one of the "Top 50 Cities That Sizzle," because of its great cuisine. Charlotte also has some steak to go with that sizzle—along with sushi, spaghetti, seafood and plenty of other delicious fare. Dining out in Charlotte is guaranteed to be a delightful experience for both your stomach and your eyes.

For late night entertainment following a great meal, step into one of the many live music venues, dance clubs, wine and martini bars, or coffeehouses.

Charlotte's nightlife and dining scene is exploding with options for any personality.

Truly a city of culture and style, Charlotte is a giant cultural tapestry of innovative museums and historical attractions, mixed among

unique shops, antique villages, art galleries, outdoor markets and destination megamalls.

Charlotte is a dynamic city that combines world-class amenities with warm Southern hospitality. Exciting restaurants, arts and cultural attractions, professional sports, excellent shopping, and a variety of accommodations make Charlotte an exciting experience for everyone!

For more information about Charlotte you can go online to [www.visitcharlotte.com](http://www.visitcharlotte.com)

## Solid Waste Trade Show: REV UP YOUR ENGINE!

SWANA's Solid Waste Trade Show at WASTECON is a unique event where you can see the latest equipment from top vendors in the solid waste industry: trucks, floors, compactors, lift systems, tarps—our show covers it all!

Visit pavilions dedicated to showcasing vendors in rapidly changing industries:

- Electronics Recycling
- Organics
- Recycled Products

WASTECON's Solid Waste Trade show provides the best setting to get to know vendors in a variety of areas.

**Stop by between technical sessions, or register to attend the show for FREE by completing and returning the form on the back cover of this brochure.**

## Special Guests at WASTECON 2006

Keynote Sponsored by:  
Waste Management, Inc.

**Keynote Address: Jay Frye**

**CEO and General Manager for MB2 Motorsports**

**Wednesday, September 20, 2006  
10:15 am – 11:00 am**

Jay Frye has been Chief Executive Officer and General Manager of MB2 Motorsports since the company's inception in 1996. He became a partner in MB2 in 2004.

A former tight end and offensive tackle at the University of Missouri (1983-1986), Jay has been the catalyst in MB2's expansion. The company has grown from a single-car NASCAR Cup team and an 8,000-square foot shop to a multicar operation that is now housed in a 144,000-square foot shop in Mooresville, N.C.

MB2 Motorsports' two full-time Nextel Cup teams include the No. 14 Waste Management Chevrolet driven by Sterling Marlin and the No. 01 U.S. Army Chevrolet driven by Joe Nemechek. MB2 also operates the team's No. 36 Chevrolet on a part-time basis in the Nextel Cup Series.

Growing up in the waste-removal business, securing the Waste Management sponsorship in late 2005 took on a special

meaning for Jay. His father (Jerry Frye) owned Jerry's Disposal Systems in Rock Island, Ill., servicing the Quad City area.

After Jay's father passed away in 1973, the family business was sold to Watts Trucking in 1974 and Frye's mother, Joyce, managed the company until 1984.

"I grew up on the back of a garbage truck," recalled Frye, who used that same vehicle to transport his date to the senior prom.

Jay's career has not been exclusively in motorsports. Following his 1987 graduation from the University of Missouri with a degree in marketing education, the Rock Island, Ill. native worked for Anheuser-Busch for four years.

While at Anheuser-Busch, the affable and hard-working Frye held several positions, most notably district sales manager. He coordinated budgets, market/media plans, sales and special events for Anheuser-Busch wholesalers in the Midwest region.

**Lawrence Lecturer: Scott Cassel**

**Executive Director, Product Stewardship Institute (PSI)**

**Wednesday, September 20, 2006  
9:45 am – 10:15 am**

Scott Cassel earned his B.A. in Geology and Environmental Studies from the University of Pennsylvania in 1983 and has since been at the forefront of the emerging product stewardship movement in the United States.

Early in his career, Scott worked as a geologist for the New Jersey Department of Environmental Protection before moving on to become project manager for the Hazardous Substances Management Program at the Center for Technology, Policy, and Industrial Development at the Massachusetts Institute of Technology (MIT). While at MIT, he earned a Masters Degree in City Planning in 1988 from the Department of Urban Studies and Planning Specializations.

Scott eventually settled in at the Massachusetts Executive Office of Environmental Affairs as the Director of Waste Policy and Planning. In this role, he developed legislative and policy recommendations on waste issues.

Currently, Scott works as the Executive Director for the Product Stewardship Institute in Boston, Massachusetts. In this capacity, he has founded and now directs the country's first national product stewardship organization devoted to developing multi-stakeholder cooperative agreements to reduce the health and environmental impacts from consumer products.

# LADIES AND GENTLEMEN...

## Special Events

### DAY

#### Sunday Family Tour— “A Day with the Queen”

**Sunday, September 17, 2006**  
**9:00 am – 3:00 pm**  
**Cost: \$60/person**  
**Bus departs from Charlotte Convention Center**

Spend the day touring one of America's most interesting cities. Charlotte has everything you'd expect from a city with the friendliness of a small town. This exciting tour will pass through some of the greatest sights Charlotte has to offer. You will visit the Historic Fourth Ward to take in the classic Victorian architecture; pass by the 60-Story Bank of America Headquarters, Charlotte's tallest building; visit the more than 27,000 items at the Mint Museum of Art; and finally end up at the Charlotte Museum of History to learn about the region's cultural heritage.

Your tour includes roundtrip transportation in an air conditioned luxury motor coach, lunch, and time to browse the great sights along the way!

#### WASTECON Opening Breakfast Buffet

**Tuesday, September 19, 2006**  
**8:00 am – 9:00 am**  
**Cost: \$30/person**  
**Charlotte Convention Center**

Rev up your engine Tuesday morning with other WASTECON attendees with a morning breakfast buffet. Only breakfast attendees will receive a special ticket for the \$1,000 Ribbon Cutting Ceremony Drawing at the opening of the Trade Show. Join us for a great start to WASTECON 2006!

#### WASTECON Ribbon Cutting Ceremony & \$1,000 Drawing— New in '06!

**Tuesday, September 19, 2006**  
**9:00 am – 9:30 am**  
**Open to all – at no cost**  
**Main Entrance to Exhibit Hall,  
Charlotte Convention Center**

Race down to the main entrance of the Exhibit Hall and be part of the WASTECON Ribbon Cutting Ceremony. Hear from the Mayor of Charlotte, and, if you attended the WASTECON Opening Breakfast Buffet, get your shot at our big bucks in the new \$1,000 Ribbon Cutting Ceremony Drawing.

#### WASTECON Show Reception

**Wednesday, September 20, 2006**  
**3:00 pm – 5:00 pm**  
**Open to all – at no cost**  
**(badge required)**  
**Exhibit Halls, Charlotte Convention Center**

Pull over for some refreshments at the WASTECON Show Reception on the show floor where guests will have a chance to visit with colleagues while seeing the latest products available. (And besides, everyone needs some refreshment after walking the show floor, right?)

Co-sponsorships are available for exhibitors who want to stand out by serving refreshments at their booths. *See page 35 for more information.*

All WASTECON participants are invited to attend this event.

#### SWANA Awards Luncheon

**Thursday, September 21, 2006**  
**12:10 pm – 1:30 pm**  
**Cost: \$35/person**  
**Charlotte Convention Center**

SWANA's 2006 Annual Awards Luncheon celebrates excellence in solid waste management. Join us in recognizing the achievements of a distinguished group of committed individuals who have dedicated their careers to the solid waste field and those organizations selected to receive a prestigious SWANA Excellence Award.

## Wondering How to Dress for WASTECON Events?

**WASTECON 2006** is a business casual/casual event; jackets and ties are not required. If you will be attending some of the special events, we do recommend the following:

**Family Tours** – Casual attire; whatever you will be comfortable wearing while sitting or climbing off and on a bus for several hours. A coat or light jacket may be required in case of inclement weather.

**Technical Tours** – Casual attire; however, open-toed shoes, skirts, and shorts are not recommended. A coat may be required in case of inclement weather.

**Opening Reception** – Business/business casual attire; jackets and ties are not required.

**Wednesday Night Event** – Very casual; NO jackets or ties.

# ...START YOUR ENGINES!

## Special Events

### NIGHT

#### Monday Annual Business Meeting - NEW TIME!

**Monday, September 18, 2006**  
**5:30 pm – 6:15 pm**  
**Open to all – at no cost**  
**Westin Hotel**

Being held at a new time this year, the Monday Annual Business Meeting is the place to see your new SWANA officers introduced and hear them discuss programs and plans for the future. Make a pit stop on your way to the Monday Night Reception and get updated on what 2007 will bring for SWANA!

#### Monday Night Opening Reception

**Monday, September 18, 2006**  
**6:30 pm – 9:30 pm**  
**Cost: \$45/person**  
**Westin Hotel**

*Sponsored by Waste Management, Inc.*

If you're looking to take the early lead at WASTECON and meet all the movers and shakers you'll be spending the week with, this is your chance! Last year, our Monday Night Reception was a huge success, hosting over 600 professionals networking in a relaxed environment before WASTECON gets fully underway. Meet exhibitors, fellow attendees and even SWANA staff before the start of an exciting, fast-paced week.

A ticket to the Opening Reception is included with the Best Value and Regular Packages, as well as the Federal Employee Package. Additional tickets may be purchased using the Registration form on page 31.

#### Thursday Closing Reception

**Thursday, September 21, 2006**  
**4:15 pm – 5:30 pm**  
**Open to all – at no cost**  
**Charlotte Convention Center**

This event marks the checkered flag of WASTECON 2006—the end. Join us for food and drinks as we celebrate the end to another successful WASTECON. Take a moment to relax and unwind before you begin your journey back home. This is your last chance to mingle with colleagues and friends (and to win a prize!), so make the most of it!

#### Wednesday Night Networking Event - At the Lowes Motor Speedway!

**Wednesday, September 20, 2006**  
**7:00 pm – 11:00 pm**  
**Cost: \$60/person in advance or \$75/person on-site**  
**Lowes Motor Speedway**

The Wednesday Night Networking Event is one thing you cannot afford to miss at WASTECON 2006. The event will be held at the *Lowes Motor Speedway*, one of the premier venues in the world of NASCAR racing.

Be sure to register for the **Best Value Package** so you can enjoy:

- Pace car rides around the track at 90 MPH!
- A live Bluegrass band, The Kilocycle Cowboys

And take on your competition at the following games:

- Daytona racing simulators
- The Pit Stop Challenge
- Remote control mini stock car races

Once you've worked up an appetite, enjoy an all-you-can-eat buffet at an upscale venue that makes you feel like you're right in the middle of the action.

The setting of the sun does not mean the end of this party. The Speedway lights will be turned on to provide you with many additional hours of light to enjoy the company of friends and colleagues.

Transportation to and from the Speedway will be provided from the Charlotte Convention Center beginning at 6:00 pm, with return service to the Convention Center, Westin, Marriott, Hilton and Holiday Inn hotels.

## TECHNICAL DIVISIONS - SWANA's Knowledge Center

With over 2,700 active subscribers, SWANA's 8 Technical Divisions are responsible for guiding the development of SWANA's educational products and training programs.

Interested in getting involved? Be sure to attend the WASTECON Technical Sessions (see pages 18-23), and stop by one of the Division Meetings scheduled throughout the week, which are open to everyone. We hope to see you there! More information on all of SWANA's Technical Divisions is available at [www.SWANA.org](http://www.SWANA.org)

### COMMUNICATION, EDUCATION AND MARKETING

SWANA's Communication, Education & Marketing (CEM) Division was developed to enhance the way solid waste organizations interact with their surrounding

communities. By facilitating the flow of successful community-based programs and ideas, the Division's activities will help you identify campaigns and strategies that will work best for you, your organization, and your community.

*(See p. 20 for related technical sessions.)*

### COLLECTION & TRANSFER

Long recognized as the largest single budget item in solid waste management, the collection and transfer of refuse and recyclables relies heavily on efficiency and reliability. Focusing

on issues such as route design, innovative technologies, health and safety, and contracting and franchising, SWANA's Collection & Transfer Division provides members with first-rate information in this dynamic field.

*(See p. 20 for related technical sessions.)*

### LANDFILL

With over 600 active members, SWANA's Landfill Management Division remains one of our largest technical groups. Whether it's through industry-specific MOLO training, or research and development initiatives on

bioreactor technology, the Division's wide-reaching technical focus helps provide practical solutions to the multitude of issues and challenges concerning the operation of today's landfills.

*(See p. 21 for related technical sessions.)*

### LANDFILL GAS

With a proven, groundbreaking 25+ year history in the field and over 400 members, SWANA's Landfill Gas Management Division is widely recognized as the premier

authority on issues surrounding landfill gas (LFG) recovery, control, management, utilization, and system design, operation, and maintenance. With 11 standing subcommittees, SWANA's oldest Division has taken a leading role in promoting the use of LFG as a sustainable and renewable energy source.

*(See p. 21 for related technical sessions.)*

**PLANNING & MANAGEMENT**

Specially for the solid waste industry's managers, executives, and decision makers, our Planning & Management Division brings together some of the best

minds in the field. Through a variety of unique forums, the Division provides members with many opportunities to discuss today's most pressing waste management issues.

*(See p. 22 for related technical sessions.)*

**SPECIAL WASTE**

From household hazardous waste (HHW), to E-waste and paint disposal, "special" wastes make up a significant portion of any community's waste stream. SWANA's Special

Waste Division focuses on educating its members, as well as the public, on the ever-changing array of issues concerning special waste handling.

*(See p. 23 for related technical sessions.)*

**WASTE REDUCTION, RECYCLING & COMPOSTING**

With over 500 members, SWANA's Waste Reduction, Recycling and Composting

Division is SWANA's second largest technical group. Through a mixture of training, advocacy and programming, the Division works to support and improve the integration of recycling and composting into the overall solid waste management hierarchy.

*(See p. 22 for related technical sessions.)*

**WASTE-TO-ENERGY**

With 89 waste-to-energy (WTE) facilities currently operating in 27 states, generating the equivalent of 2,500 megawatt-hours of electricity while disposing more than 29 million

tons of trash, WTE is arguably North America's most efficient form of waste disposal. The goal of SWANA's Waste-to-Energy Division is to ensure that this technology, and other emerging waste combustion options, are recognized for what they are - some of the cleanest and most responsible forms of waste management.

*(See p. 23 for related technical sessions.)*

W A S T E C O N 2 0 0 6

September 19-21 - Charlotte, North Carolina

Technical Program - By Focus Track

**Collection & Transfer**

*Tuesday, September 19th*

**The Return of the Public Sector**

2:00 - 3:00 pm

**Managed Competition - Strategies for Helping the Public Sector Successfully Compete**

Karen Luken, R.W. Beck, Inc

**Return of Service Transition**

Mike Lopker, City of Phoenix Public Works Department, AZ

**New Insights on Transfer Station Design**

4:30 - 5:30 pm

**The Changing Transfer Station**

Stefan Bukojemsky, URS Corporation

**Lessons Learned - Design/Build Approach for Solid Waste Transfer Stations**

Thomas Kraemer, CH2M HILL

*Wednesday, September 20th*

**Capturing Data and Avoiding Revenue Losses**

8:30 - 9:30 am

**RFID - Possibilities and Pitfalls In Solid Waste Collection And Management**

William Anderson, Genesta

**Dealing with Revenue Shortfalls: Increasing the Bottom Line when Under Recovering Financially from Existing Customers**

Scott Pasternak, R.W. Beck, Inc.

*Thursday, September 21st*

**Single Stream: The Best Option for Recyclables Collection?**

3:15 - 4:15 pm

**Making the Switch: Evaluating Options and Implications for Converting to Single Stream**

Betsy Dorn, R.W. Beck, Inc.

**Analyzing the Effectiveness of Single Stream**

David McCary, Solid Waste Department, City of Tampa, FL

**Communication, Education & Marketing**

*Tuesday, September 19th*

**School Education and Outreach**

2:00 - 3:00 pm

**Do Schoolchildren Show Improved Recycling and Solid Waste Management Behaviors at Home After In-class Presentations?**

Steven Hicks, Delaware Solid Waste Authority

**FEED THE BIN School Recycling and Environmental Education Program**

Emily Finney, Wake County Solid Waste Management Association, NC

**Increasing Recycling through Education**

3:15 - 4:15 pm

**How Do We Improve Outreach and Education to Increase Recycling and Reach the Unconverted: What is the Role of Self-Efficacy and Attitudes?**

Jody Myers, Skumatz Economic Research Associates, Inc.

**Public Education and Communication Strategies for Multicultural Audiences**

Ann Gill, Mecklenburg County Division of Solid Waste, NC

*Wednesday, September 20th*

**Making the Most of Your Partnerships**

8:30 - 9:30 am

**Pitch and Catch, Getting your Money's Worth as You Market at Events and Other Large Venues**

John Remy, Solid Waste Authority of Central Ohio

**Improving Public Outreach through Collaborative Partnerships**

Dori Brown, City of Newport News Public Works Department, VA

*Thursday, September 21st*

**Public Education Workshop: Communication Tools You Can Use**

2:00 - 3:00 pm

Have you ever wondered how other agencies and organizations around the country are communicating with groups in their areas?

This event will feature tabletop presenters that will share their "tools of the trade" that have been effective in communicating, educating, and marketing in the solid waste industry. You can discuss tools and ideas with any and all of the presenters you like and walk away with new direction and inspiration for your own communicating, educating, and marketing programs!

**Featured participants to include:**

**Public Education and Communication Strategies for Solid Waste Professionals**

Rexie LeStrange, City of Manteca Solid Waste Division, CA

**Marketing and Distributing Recycling Knowledge to Increase Participation**

Director of Public Outreach, RE3, NC

**Public Education and Marketing - Tools to Get Your Message Across**

Felicia Blow, Southeastern Public Service Authority, VA

**Meta Un GOOOL Reciclando**

Brandi Williams, City of Charlotte Solid Waste Services

**Trash Can Dan and the Clean Up Kids**

Wendy Pizzadili, Delaware Solid Waste Authority

**Electronics Recycling**

*Tuesday, September 19th*

**Managing E-Waste Through Legislation**

3:15 – 4:15 pm

**Creating Successful E-Waste Legislation-An Insider's View of the Process**

Bill Smith, City of Tacoma Solid Waste Management, WA

**Life After California's Electronic Waste Recycling Act - The Good, The Bad, And The Business Of E-Waste**

Michelle Nicholls, SCS Engineers

*Thursday, September 21st*

**Secondary Markets for E-Waste: Different Approaches for the Same Items**

2:00 – 3:00 pm

**Electronics Recycling: Establishing a Successful Computer Reuse/Refurbishing Program**

Al Chaney, Computer Recycling For Education

**Recycling Metal from Electronics Waste**

Marissa Frischetti, Onyx Environmental Services

**Focus on Cost and Liability Control**

3:15 – 4:15 pm

**The Process of Electronics Recycling**

Brett Rhinehardt, CompuTel  
*\*CompuTel is featured on Tour #3*

**Liability Concerns in Electronics Recycling**

Jon Littlepage, Moore Van Allen Law Firm

**Landfill Gas**

*Tuesday, September 19th*

**Unique Landfill Gas Utilization and Compliance Issues**

3:15 – 4:15 pm

**The Solid Waste Authority of Central Ohio/Firm Green Energy, Inc. Partnership**

Ralph Hirshberg, Civil and Environmental Consultants, Inc.

**Gas Collection and Control System Phasing Plan**

Ramachandran Kulasingam, GeoSyntec Consultants, Inc.

**The Future of Landfill Gas Operations and Project Development**

*Sponsored by the U.S. Environmental Protection Agency's Landfill Methane Outreach Program*

4:30 – 5:30 pm

Moderator: Chris Voell, U.S. Environmental Protection Agency's Landfill Methane Outreach Program

This session will provide an in-depth look at new and interesting trends in the landfill gas field, including municipal utility involvement in projects, re-emergence of high-BTU gas, alternative fuels, the industry's changing economic landscape and future prospects for project development at small landfills.

*Thursday, September 21st*

**Critical Components for Your Project Planning**

2:00 – 3:00 pm

**California's Climate Action Plan Impact on Landfills: Locally and Nationwide**

Frank Caponi, Los Angeles County Sanitation Districts, CA

**Practical Challenges in Producing Carbon Emission Reduction Credits from Landfills in the Developing World**

Steve Hamilton, SCS Engineers

**Status of Renewable Energy Credit Markets and Carbon Financing**

3:15 – 4:15 p.m

**Why You May Not Want a Power Purchase Agreement for Your LFGTE Project: How RPS and REC Accounting System Sales Rules Impact REC Value**

Patricia Deese Stanton, Conservation Services Group

**The World Bank's Role in the Carbon Finance Related to Solid Waste Management Projects**

Charles Peterson, The World Bank

**Landfill Management**

*Tuesday, September 19th*

**Leachate Management**

2:00 – 3:00 pm

**Leachate Management in an Unlined Landfill**

Matthew Evans, R. W. Beck, Inc.

**Monitoring of Water Content Evolution in Orchard Hills Landfill, by Electrical Imaging**

Solenne Grellier, Civil & Environmental Engineering Department, University of Illinois at Chicago

**R&R: Reclamation and Redevelopment**

4:30 – 5:30 pm

**The Sow's Ear**

Kevin Dugan, Collier County Solid Waste Management Department, FL

**Unique Case Studies of Landfill Redevelopment in California**

Patrick Sullivan, SCS Engineers

*Wednesday, September 20th*

**Tales from the Landfill: Case Studies and Applied Technologies**

8:30 – 9:30 am

**Applying Innovative Technologies at a Rural Landfill in Minnesota**

Fred Doran, R. W. Beck, Inc.

**Ten Years of Monitored Natural Attenuation at Ten Landfill Sites**

Jeff Smith, Draper Aden Associates

*Thursday, September 21st*

**The Design and Economics of Landfills**

3:15 – 4:15 pm

**Development of a New Regional Landfill**

Bryan Langpap, Los Angeles County Sanitation Districts, CA

**Diversion and Reuse of Construction/Demolition Waste at Chester County Solid Waste Authority's Lanchester Landfill**

George Barstar, Shaw Environmental & Infrastructure, Inc.

## **Foxhole Landfill and Community Park Project**

Scott Brown, Mecklenberg County Solid Waste Department, NC

## **Organics Management & Composting**

*Tuesday, September 19th*

### **Composting Technologies and Products**

*Sponsored by U.S. Composting Council*  
3:15 - 4:15 pm

### **Review of Compost Technologies - What's Out There?**

Stuart Buckner, U.S. Composting Council

### **Municipal Composting and Marketing Program**

D. Ann Gill, Mecklenberg County Solid Waste, NC

### **Compost Use for Stormwater Management**

Wayne King, EARTH Products

### **Using Organics at Your Landfill**

*Sponsored by U.S. Composting Council*  
4:30 – 5:30 pm

### **Landfills Marketing Diverted Organic Products: Case Studies And Success Stories**

Ron Alexander, RAA Associates

### **The Advantages Of Composting At The Landfill**

Matt Cotton, Integrated Waste Management Consulting

### **Air Emissions from Composting**

Craig Coker, Coker Consulting

*Thursday, September 21st*

### **Commercial Organics Recycling: Program Realities**

*Sponsored by BioCycle - Journal of Composting & Organics Recycling*  
2:00 – 3:00 pm

### **The Economics of Commercial Organics Diversion**

John Connolly, JF Connolly Associates

### **Preparing a Site to Receive Commercial Organics**

Nora Goldstein, *BioCycle*

## **Organics Conversion Technologies**

*Sponsored by BioCycle - Journal of Composting & Organics Recycling*  
3:15 – 4:15 pm

### **Anaerobic Digestion from Liquid Organic Residuals**

Bill Schubert, Waste Management, Inc.

### **Compost Heat Recovery**

Thomas Smith and Marvin Shaw, Global Earth Products

## **Planning & Management**

*Tuesday, September 19th*

### **Update on Current Credit Rating Trends and Key Court Decisions**

2:00 – 3:00 pm

### **A Decade of Credit Trends: Implications for Solid Waste Management**

Edward McGlade, Standard & Poor

### **Solid Waste in the Courts: Rulings that Continually Shape the Industry**

Barry Shanoff, SWANA General Counsel and Attorney, Knopf and Brown

### **Developing a Highly Skilled and Competitive Workforce**

3:15 – 4:15 pm

### **A Unique Program to Meet Future Solid Waste Engineering Needs**

Grace Chan, Los Angeles County Sanitation Districts, CA

### **Employee Development in the Solid Waste Industry**

Wayman Pearson, City of Charlotte Solid Waste Services, NC

### **Knowledge Capture: For What You Absolutely, Positively Can't Afford Not to Know**

Kathi Mestayer, KMA Consulting, Inc.

### **Solid Waste Board Members: Learning from the Pros**

4:30 – 5:30 pm

This interactive session designed specifically for solid waste board members will provide an open forum of discussion on the issues important to those whose

unique role as public servant and solid waste professional often create competing priorities. Whether you are a seasoned or rookie board member, you will have the opportunity to listen to and share your thoughts on the best ways to maintain public support while at the same time providing your solid waste agency the resources and support they need to improve solid waste operations in your community.

*Thursday, September 21st*

### **Innovative Contracting for Financial Success: Beyond the Basics**

2:00 – 3:00 pm

### **Contracting from A to Z: Successful Strategies for Developing Effective RFPs and Negotiating Competitive Contracts**

Mitch Kessler, Kessler Consulting, Inc.

### **Negotiating and Renegotiating Solid Waste Service Contracts**

Stephen Lynch, R.S. Lynch & Company, Inc.

### **System Planning to Manage Growth and the Implications of Urban Infilling**

3:15 – 4:15 pm

### **Proactive Planning: Anticipating and Accommodating Growth**

Raymond Schauer, Solid Waste Authority of Palm Beach County, FL

### **Compatibility Issues Related to Land Development or Redevelopment Adjacent to Solid Waste Facilities – Preliminary Findings from an Environmental Research Study**

Marc Rogoff, SCS Engineers

## **Recycling & Waste Diversion**

*Tuesday, September 19th*

### **Taking Commercial Recycling Further**

2:00 – 3:00 pm

### **Complementing Mandatory Commercial Recycling with "GREEN BUSINESS" Recognition – The Carrot and Stick Approach**

Mitch Kessler, Kessler Consulting, Inc.

**Making Mandatory Business Recycling Work**

Michael Talbert, Mecklenburg County Solid Waste Department, NC

**Green Building as the Next Step in Reduction and Reuse**

4:30 – 5:30 pm

**Beyond Commercial Recycling: Green Building in a Commercial Setting**

Miriam Zimms, Kessler Consulting, Inc.

**Visions and Revisions in Green MRF Design**

Kevin Berg, Summit County Solid Waste, CO

**Wednesday, September 20th**

**Unique Ways to Increase Recycling: Incentives & Pay as You Throw Programs**

8:30 – 9:30 am

**Incentive-Based Approaches to Waste Reduction and Pollution Prevention in Business and Industry**

Peter Erickson, Cascadia Consulting Group

**Update on PAYT – Lessons and Impacts on Crafting Rates to Optimize Behavior Change and Revenue Considerations**

Lisa Skumatz, Skumatz Economic Research Associates, Inc.

**Thursday, September 21st**

**A Closer Look at New Technologies to Reduce Waste**

2:00 – 3:00 pm

**Implementation of Advanced C&D Debris Recycling System: A Year In Review**

Eric Grotke, Camp Dresser & McKee Inc.

**Economic, Policy and Technical Issues Impacting Waste Reduction Technologies**

Robert Craggs, R.W. Beck, Inc.

**Special Waste**

**Tuesday, September 19th**

**Paint Product Stewardship Initiative**

*Sponsored by Product Stewardship Institute*  
2:00 – 3:00 pm

Under the Paint Product Stewardship Initiative (PPSI), paint manufacturers, retail-

ers, recyclers, government officials and other stakeholders have joined forces to tackle the challenges of reducing and managing leftover paint. This session reviews PPSI's progress, exploring different participant perspectives on an innovative, collaborative approach that fosters product stewardship among various stakeholders.

*Panelists: Scott Cassel, Product Stewardship Institute  
Alison Keane, National Paint and Coatings Association  
Irene Gleason, Florida Department of Environmental Protection*

**Tackling Tough Issues with Managing a Household Hazardous Waste Facility**

4:30 – 5:30 pm

**Bring me your Oil and Antifreeze, your Batteries and Homeless PCBs . . . Contracting Tips for User-Friendly and Cost-Efficient Haz Mat Services**

Constance Hornig, Constance Hornig Law Offices

**City of Phoenix Household Hazardous Waste Diversion**

Tony Miano, City of Phoenix Public Works Department, AZ

**Wednesday, September 20th**

**Planning for the Unpredictable: Man-Made and Natural Disasters**

8:30 – 9:30 am

**Planning for a Terrorist Contaminated Debris Incident**

Robert Swan, Dewberry & Davis

**Debris Management Planning Pays Off: Responding to Hurricane Damage in Berkeley County, South Carolina**

John Boyer, Camp Dresser & McKee, Inc.

**Thursday, September 21st**

**Converting C&D Waste**

3:15 – 4:15 pm

**Conversion of Demolition Wood Debris into Alternative Construction Materials**

Paulo Legaspi, National Defense Center for Environmental Excellence, Concurrent Technologies Corporation

**High Oil Fuels C&D**

Douglas Robinson, BioTrue Inc

**Waste-to-Energy & Waste Conversion**

**Tuesday, September 19th**

**Future Prospects of Waste-to-Energy**

2:00 – 3:00 pm

**Waste-To-Energy: Has Its Time Finally Come (Again)?**

Eileen Berenyi, Governmental Advisory Associates, Inc.

**New Waste-to Energy Projects: Opportunity Knocks!**

John Rose, Consulting Engineer

**Look at the Numbers: Latest Research on Air Emissions and Recycling Compatibility**

3:15 – 4:15 pm

**Generating Electricity from Municipal Solid Waste or Coal: A Comparison of Air Emissions**

Jeremy O'Brien, SWANA

**Materials Recycling and Waste-to-Energy Compatibility Revisited**

Jonathan Kiser, Environmental Consultant

**Wednesday, September 20th**

**Conversion Technology Performance Measures**

8:30 – 9:30 am

**Implementing a Conversion Technology Strategy**

Greg Shipley, Waste To Energy

**How to Select an Environmentally Friendly Thermal Process?**

Richard Lewis, Recovered Energy, Inc.

**Thursday, September 21st**

**Contracting for the Next Generation**

2:00 – 3:00 pm

**The Next Generation of Waste-to-Energy Contracts**

Rick Sapir, Hawkins, Delafield & Wood LLP

**Apply Lessons Learned From Waste-to-Energy Feasibility Study Projections to Contract Renewals and Expansions**

## S W A N A T

## SWANA 3-Day Training Course Packages

*Sunday, September 17 through  
Tuesday, September 19, 2006, from  
8:00 am to 6:00 pm*

*SWANA Certification Exams  
Wednesday, Sept. 20 at 8:00 am*

*All 3-Day Training Courses Include:*

- *Continental Breakfast and Lunch on Sunday–Tuesday.*
- *Access to the Solid Waste Trade Show*
- *One ticket to the Monday Night Reception*
- *Access to all Technical Sessions on Wednesday and Thursday*
- *Access to the Thursday Closing Reception*

### Manager of Landfill Operations (MOLO) Certification Prep Course

Learn basic information on running successful landfills. Participants will discuss issues surrounding landfill site restrictions, compliance with design requirements and what to consider when planning, operating and closing landfills.

*Need a little extra help getting ready for the MOLO Exam? Don't worry! We've got 2 training options to help you prepare:*

1. *Register for our online Landfill Operations course. This self-paced, online course goes over many of the basics of landfill operations.*
2. *Warm-up that calculator and register for our E-Course "MOLO: Just the Math" on August 3, 2006, just in time for WASTECON.*

To purchase these courses, go online to [www.SWANASTore.com](http://www.SWANASTore.com).

### Managing Construction & Demolition Materials Certification Prep Course

Expand your knowledge of managing construction and demolition debris by understanding the basics of C&D materials. This includes definition, composition, as well as environment and human safety issues at job sites and C&D landfills.

### Managing Composting Programs Certification Prep Course

This prep course for SWANA's Composting certification exam will help you gain knowledge in composting agricultural and industrial waste. Furthermore, discover how to effectively plan, design and operate a composting facility.

*Need a little extra help preparing for the SWANA/USCC Composting Exam? No problem! Register for SWANA's Composting Operations Online course. This self-paced, online course will give you the basics of composting operations.*

To purchase the course, go online to [www.SWANASTore.com](http://www.SWANASTore.com).

### Managing Transfer Station Systems Certification Prep Course

If you are, or want to be, a transfer station manager or consulting engineer, then this course will expand your understanding of effectively planning, designing and operating MSW transfer stations.

### Managing MSW Collection Systems Certification Prep Course

This course is for anyone interested in understanding the key elements and gaining hands on instruction in the planning, managing and operating of solid waste and recyclable collection services.

### Household Hazardous Waste and CESQG Facility Operations

Why 'waste' an opportunity to improve your performance? For anyone responsible for the collection and handling of household hazardous waste and wastes from conditionally-small quantity generators, this course is perfect for you. Learn to identify and avoid chemical, operational, and health hazards, and how to get the proper protection. You will go over chemical, operational and health hazards, and federal regulations governing hazardous materials and universal wastes. You will become aware of the types of potential emergencies and the appropriate response plans. Finally, learn how to receive, store, label, pack, transport, dispose, and monitor hazardous materials.

# R A I N I N G

## SWANA 2-Day Training Courses

Monday, September 18 through  
Tuesday, September 19, 2006, from  
8:00 am to 6:00 pm

All 2-Day Training Courses Include:

- Continental Breakfast and Lunch on Monday and Tuesday
- Access to the Solid Waste Trade Show
- Access to SWANA Technical Sessions
- One Ticket to the Monday Opening Reception
- Access to the Thursday Closing Reception

### Electronics Recycling Course

Today's technology is quickly becoming tomorrow's trash, making the disposal of electronic waste more important than ever. By taking advantage of this course you can help keep this growing area of solid waste out of our landfills.

### Landfill Gas System Operation and Maintenance

SWANA instructors will present landfill gas professionals with the best practices and procedures for both the operation and maintenance of landfill gas collection and control systems.

### Manager of Bioreactor Landfill Operations Certification Prep Course

This new, one-of-a-kind Certification Prep Course provides solid waste professionals with up-to-date information that can be used to address management and technical issues associated with the implementation of a bioreactor landfill.

## Are you Certified?

Log on to [www.SWANA.org](http://www.SWANA.org)  
and find out how to  
become **SWANA Certified**.

**SWANA**<sup>®</sup>

SOLID WASTE ASSOCIATION  
of North America

## Special Workshops!

### Management of Aggressive Behavior Workshop— Back by Popular Demand!

SWANA Workshop –  
1-Day

*Monday, September 18, 2006 –  
8:00 am – 5:00 pm*

*Includes:*

- *Continental Breakfast and Lunch*
- *Access to the Solid Waste Trade Show*

*Pair your workshop with WASTECON's Best Value or Regular Package.*

Do You Ever...

- Confront angry people?
- Find yourself getting defensive?
- See people get upset by other people's gestures or expressions?

**Mike O'Malley** is back at WASTECON 2006 this time with a full-day MOAB® workshop!

Mike has trained thousands of Public Works and Public Safety personnel in all aspects of personal safety.

We've all encountered people who are angry. MOAB® teaches techniques and

skills for recognizing, reducing and managing violent and aggressive behavior. This is not simply a "self-defense class." It is a comprehensive program in which you will learn proven methods on how to deal with these types of situations.

By learning these skills you will enhance your safety level, confidence, and productivity. At the same time, you will be able to efficiently and effectively manage and prevent aggressive and violent incidences and disruptions.

Learn how to:

- Calm people and situations
- Diffuse anxious or aggressive behavior
- Avoid violence and injuries
- Create confidence and exude the ability to control and improve any situation
- Minimize or eliminate lawsuits

Anyone, regardless of age, size, or gender, can successfully use these techniques.

### Creating a Winning Atmosphere at Work

SWANA Workshop –  
1/2-Day

*Tuesday, September 19, 2006 –  
8:00 am – 11:00 am*

*Includes:*

- *Continental Breakfast*
- *Access to the Solid Waste Trade Show*

*Pair your workshop with WASTECON's Best Value or Regular Package*

Facilitator: **Scott Hunter** – The Hunter Partnership Alliance, Author of "Making Work Work"

Come to this workshop and walk away inspired to think about your interactions with people in a different way.

Why is it that almost no one loves being at work? Join sought-after corporate coach **Scott Hunter** as he describes how we can begin to reclaim some of the enthusiasm, air of celebration, and fundamental respect for individual human dignity that is apparent within flourishing business organizations and championship teams.

Key learning points:

- An adversarial environment in the office is not inevitable
- The two fundamental lessons that humans have failed to learn about their own existence
- There are specific steps you can take to promote a thriving, nurturing work environment

Is that good news or what?

And those same keys will allow your organization to produce any result you want! And here's the best news of all: Scott has the keys and he wants to give them to YOU!

Who should attend:

- Managerial and supervisory level solid waste management professionals involved in planning and leadership activities
- Solid Waste Managers
- Public Works Manager and Directors
- SWANA Certified Professionals

## Become SWANA Certified and Stay SWANA Certified in 3 Easy Steps

BECOME SWANA CERTIFIED	STAY SWANA CERTIFIED
1. Register for a SWANA Certification Exam	1. Earn 30 CEUs within 3 years
2. Pass the Certification Exam with a 70% or Higher	2. Submit the one-page Recertification Application
3. Submit the Certification Application	3. Submit the Recertification Fee

*SWANA Certification Exams for all disciplines will be given Wednesday, September 20, 2006 at 8:00 am*

## Need Help Preparing for the Certification Exam? SWANA's got you covered!

Sign up today for one of the following:

*SWANA's Traditional 3-Day Preparatory Courses* – Ideal for both beginners and experienced professionals.

Learn from SWANA's experienced faculty, network with professionals from around the U.S. and Canada, and reinforce what you already know.

*SWANA's E-Courses* – Brush up on your math with “MOLO: Just the Math”. Taught live online by SWANA

faculty, this course supports the math and calculations taught in our 3-day Manager of Landfill Operations (MOLO) Course. A 2 hour course, it focuses on calculations including: elevation, area, volume and slope.

Just log into [www.SWANASTORE.COM](http://www.SWANASTORE.COM) and click on “SWANA E-Courses” to register.

## Tour #1

*Recommended for solid waste professionals interested in transfer stations, landfills, landfill gas recovery, special waste and recycling*

### Queen City Transfer Station

Owned by Republic Services, this facility has a capacity of 1,200 tons of waste per day. The current mixed waste stream of MSW and C&D waste is unloaded into two holes for efficient top loading into open-top transfer trailers. The facility utilizes a unique mist system for odor control. There is a concrete detention basin that utilizes flocculent blocks to enhance the sedimentation of solids, and the discharge from the basin is released into two stormwater control drains.

### Allied Waste Services/BFI Charlotte Motor Speedway Landfill

The Charlotte Motor Speedway Landfill is the largest landfill in the state of North Carolina, accepting about 4,500 tons of waste per day. This landfill is located adjacent to the Lowe's Motor Speedway – home of three NASCAR NEXTEL Cup Series events. The facility, which opened in 1992 and is expected to reach capacity around 2012, includes about 200 lined acres that house approximately 4,500,000 tons of waste. This system contains a state-of-the-art leachate collection and removal system, and a NSPS landfill gas collection system that includes a 4 MW landfill gas to energy project. The plant recently installed an enclosed John Zink ZTOF flare system that is designed to process 6,000 standard cubic feet of gas per minute – giving it one of the largest flow rates in the industry.

### US Tire Reclamation Facility

U.S. Tire manages more scrap tires in the Carolina/Virginia area than any other private or public entity. Operating on 87 acres, the U.S. Tire Reclamation Facility processes approximately 10 million tires a year, averaging about 30 tractor trailers a day. The site sorts tires for retread and manufactures tire chips for tire-derived fuel and drainfield aggregate – recycling approximately 85-90% of all the tires received! The facility has the only state approved, on-site monofill for tire-shred disposal in North Carolina.

## Tour #2

*Recommended for solid waste professionals interested in composting, collection, construction & demolition debris, landfills, transfer stations*

### Compost Central

As one of the largest composting facilities on the East Coast, this Mecklenburg County facility processes about 80,000 tons of yard trimmings per year at its 28 acre site, including all yard waste collected by the City of Charlotte. Compost Central, which sits at the end of the Charlotte-Douglas International Airport runway, uses a variety of equipment to process the organic materials - tub grinders, windrow turner, star screens, trommel screens, and wheel loaders. This tour will walk you through the entire composting operation - from dumping and grinding to aerating windrows and screening to end product blending and mulch colorization.

### SSI Schaefer Container Fabrication Plant

As one of the major suppliers of injection molded plastic containers to the solid waste industry, the Schaefer plant will allow you to see up close how these containers are manufactured. The plant is equipped with injection-molding machines rated from 850 tons to 3,300 tons and twenty hot-stamping machines for imprinting. All of the equipment is state-of-the-art computer controlled with all phases of production monitored by 33 information screens 24 hours a day. Production capacity for the plant is 700,000 roll-out waste containers annually and 1.2 million returnable shipping containers per year.

### Fort Mill Transfer Station

This Allied Waste facility is located just over the state line in South Carolina and serves southern Mecklenburg County and adjacent South Carolina counties. Receiving about 650 tons per day of MSW and C&D waste, the facility maintains the segregated waste streams in order to maximize cost savings by transferring the C&D waste to lower cost C&D landfills. This facility also serves as headquarters to Allied's maintenance facility in an effort to centralize operations.

### The Foxhole Landfill

The Foxhole Landfill, owned and operated by Mecklenburg County, is an integrated solid waste management facility. The landfill, which opened in 2000, is a RCRA subtitle D landfill that is currently accepting about 600 tons per day of construction and demolition waste only. This facility sits on approximately 565 acres with about 46 acres currently lined for disposal. On the front side of the landfill is a full service recycling drop center that includes recyclables collections, household hazardous waste collection, white goods and tire collection, and a yard waste processing facility. Uniquely situated, this facility is surrounded by upscale homes and an exclusive golf course.

## Tour #3

*Recommended for solid waste professionals interested in electronics management, landfill redevelopment, recycling operations*

### CompuTel Recycling

A leader in the area in electronics management, CompuTel collects, processes, and markets waste electronic materials. Processing includes lead-glass recovery as well as reconditioning and refurbishment to ensure environmental standards. In 2003, CompuTel recovered more than 600 tons of electronic equipment collected from the greater Charlotte area. CompuTel is one of only a handful of electronics recyclers that accept a complete range of consumer electronics, including LCD panels, game consoles, TVs, PDAs, and more. Material sources range from large generators such as government agencies, power companies, and school districts to local residents dropping off small quantities of personal electronic devices.

### Metrolina Recycling Facility

Mecklenburg County's regional, dual stream Materials Recovery Facility processes about 55,000 tons of recyclables per year. The facility utilizes a combination of manual and mechanical separation techniques. This tour will allow you to view all steps from tipping of material to market distribution. One unique aspect of this facility is that newspaper is processed by an onsite cellulose insulation manufacturer before it is distributed to wholesale and retail outlets. This 110,000 square feet facility was constructed in 1995.

### Charles T Myers Golf Course

Named after County Commissioner Charles T. Myers, this public golf course is constructed on a closed Mecklenburg County landfill. The unlined municipal solid waste landfill operated from 1972 to 1994 on over 300 acres. The front 9-holes were constructed in 1986, while the back 9 were developed and opened in 1997. This unique tour stop will give you the opportunity to see the impact landfill settlement has on the facility and surrounding landscape. The site is a great lessons learned project when it comes to landfill redevelopment. The site, now managed by the Mecklenburg County Department of Parks and Recreation, is home to a variety of wildlife, including ducks, turkeys, deer, hawks, turtles and geese.

### Hickory Grove Recycling Center

A critical component of Mecklenburg County's integrated solid waste program for over twenty years, the Hickory Grove Recycling Center receives 150,000 customers a year, delivering an estimated 5,000 tons of material; including household hazardous waste, yard waste, commingled recyclables, fiber, and construction & demolition debris. As one of four fully-staffed recycling centers, county personnel receive, sort, process and transport the materials to different end markets and users. In the spring of 2006 significant operational and design improvements were made to the site to keep up with increasing customer demand. The center now has a more efficient traffic pattern, a larger yard waste grinding area, and larger corrals containing mulch products – each allowing for expanded operations and material recovery. The site also serves as a Goodwill drop-off location - bringing community involvement full circle.

# WASTECON 2006 Golf Tournament

*Sponsored by N.C. Chapter*

## THE OLDE SYCAMORE GOLF PLANTATION

**Monday, September 18, 2006**

**Registration: 7:00 am – 7:45 am | Tee Time: 8:00 am**

**Cost: \$85 (includes greens fees, cart, prizes and lunch)**

**Contact: Louis Watts or Donna Turner, 704-527-3227**

*Are you ready for a challenge? Register for the WASTECON 2006 Golf Tournament and enjoy playing the best public course in Charlotte with fast greens, perfect fairways, challenging tree lined fairways and flower gardens that make the course spectacular.*

Renowned Course Architect Tom Jackson, designed the semi-private 18-hole championship course. The par-72 course opened for play in May of 1997, offering fairways lined with hardwoods and pines, bent grass greens, hybrid Bermuda fairways and Zoysia collars around the greens and bunkers. Such a combination creates the best condition and challenges of a premier course. All skill levels and ages can enjoy the beauty of Olde Sycamore Golf Plantation nestled in a secluded area only minutes away from downtown Charlotte.

Our Bermuda fairways and Crenshaw Bent Grass greens are just some of the reasons that Olde Sycamore was rated the “Best New Course” and “Best Golf Course Eastside” by Charlotte’s Best Magazine. As well as, the #1 golf course to play for Charlotte residents by GolfCarolina.Com

Lunch will be provided as part of the registration and prizes will be handed out at the conclusion of the event. Race over to the Olde Sycamore Golf Plantation for a time you’re sure to remember!

***Registration must be received  
by August 1, 2006***

# WASTECON 2006 REGISTRATION FORM

REGISTRATION FORM

## REGISTER TODAY!

ONLINE AT [WWW.WASTECON.ORG](http://WWW.WASTECON.ORG)  
OR FAX THIS FORM TO  
301-589-7068

**PAYMENT POLICY:** SWANA accepts cash, checks, money orders, American Express, Mastercard, Discover, Diners Club, and Visa for payment of all events. Purchase Orders for future invoicing will be accepted from individuals who have been members of the organization for at least 90 days and who have an account in good standing. A copy of all Purchase Orders must accompany the registration form.

**CANCELLATION/REFUND POLICY:** Cancellations for SWANA meetings must be in writing. Phone cancellations will not be accepted.

Refunds will be issued on the date of receipt of the written cancellation and will be issued as follows: 30 days or more prior to the start of the event, 100% refund of the registered conference amount less a \$50.00 administration fee (we will not issue refunds for tours and other special events offered during the conference). Any cancellations received less than 30 days from start of the event will be eligible for a SWANA future event meeting credit worth 50% of the registered conference amount (not including tours and other special events offered during the conference). This meeting credit can be used for any future SWANA national event and is good for one (1) year from the date of issue. We invoice for no shows!!!

### PAYMENT ACKNOWLEDGMENT:

By signing this registration form I acknowledge that I have read and accepted the payment and refund policies listed in this brochure. Further, I understand that if I fail to appear that I or my organization will still be responsible for the total charges due.

## Accommodations

### Westin Charlotte - Headquarters Hotel

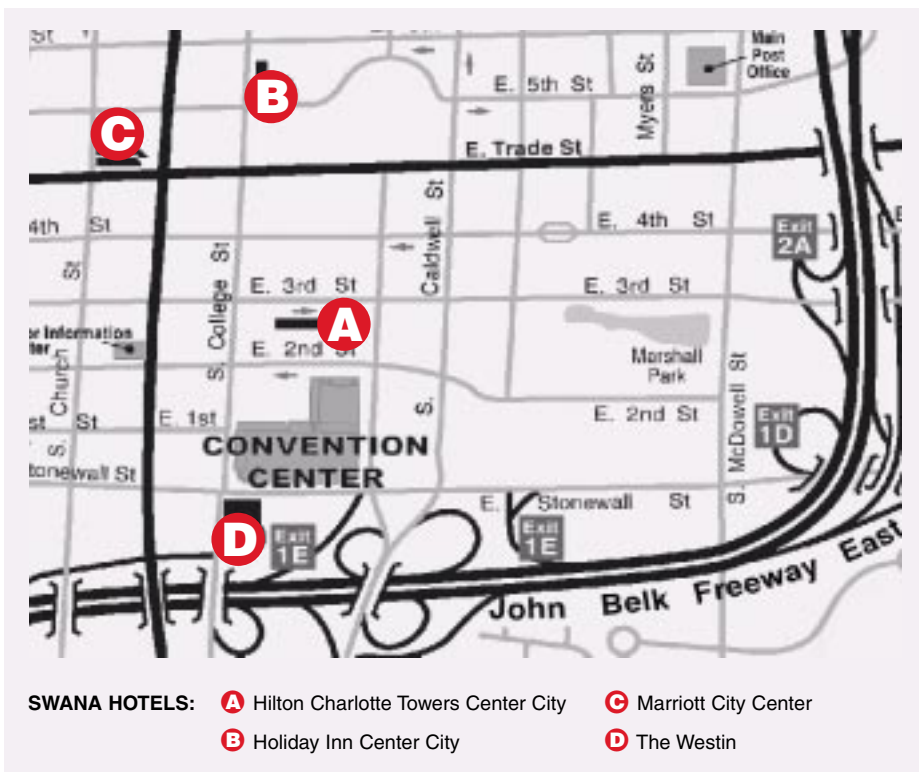

The Westin Charlotte offers a premiere Uptown location in the heart of the city's financial district, right across the street from the Charlotte Convention Center. All guest rooms and suites feature the Westin's Heavenly Bed®, dual-line telephones with voice messaging, large work desk, in-room data port, high speed internet access, complimentary gourmet coffee, in-room movies, and minibar. A full-service concierge and well-equipped business center are available to attend to all those last-minute details. The Westin also features an indoor pool and state-of-the-art fitness facility. A number of attractions are within minutes of the hotel.

**Price: \$134-Single, \$144-Double, \$164-Triple, \$184-Quad**

### Charlotte Marriott City Center

Charlotte Marriott City Center is located within walking distance of the Charlotte Convention Center. Situated in the heart of Uptown, this location provides easy access to Charlotte's finest restaurants, shops, nightlife and museums. From regional arts and entertainment to one of the nation's top hands-on science museums, you are assured of finding activities that are just right for your visit to Charlotte. Marriott guest rooms feature an alarm clock, two-line phone, coffeemaker, voicemail, WebTV, high-speed internet, ironing boards, hairdryer and in-room movies. The Marriott also has a full service business center and daily newspaper delivery.

**Price: \$129-single/double, \$139-triple/quad**

### Hilton Charlotte Center City

The Hilton Charlotte Center City hotel is connected to the Charlotte Convention Center and located just minutes from Charlotte International Airport (CLT). The Hilton Charlotte Center City Hotel is just minutes from Charlotte's most popular sites such as Lowe's Motor Speedway, Paramount's Carowinds Theme and Water Park and many other great Charlotte locations. Each room includes a large work area, ergonomic desk chair, two phones, two phone lines/voicemail, Hilton clock, coffeemaker, iron and ironing board, hairdryers, refreshment centers, movies on command with video games, and wireless, high-speed internet access.

**Price: \$159-single/double, \$179-triple, \$199-quad**  
**Government Rates: \$70-Single, \$90-Double, \$110-Triple, \$130-Quad**

### Holiday Inn Charlotte

Stay in the vibrant heart of the Queen City at the elegant Holiday Inn Charlotte Center City hotel! Conveniently located at the corner of 6th and College Streets, the Holiday Inn Charlotte Center City hotel is within walking distance to all of Uptown's business, cultural and entertainment destinations. Use the FREE Gold Rush Trolley to travel to the Convention Center. Enjoy luxurious accommodations, featuring spectacular views of the Charlotte skyline, in-room coffee makers, hair dryers, irons & full size ironing boards, 27" cable TV, two line phones, complimentary high speed wireless internet access, and voicemail in all rooms.

**Price: \$104-single/double**

# Accelerate Your Company's Sales at WASTECON!

## Advertising and Sponsorship Opportunities

Become part of WASTECON 2006 and position your organization in the spotlight by sponsoring a special event in "The Queen City" – Charlotte, North Carolina!

Events and special promotions are a vital element of the WASTECON experience, providing attendees with a value-added networking experience and giving our sponsors the name recognition that is so important in today's competitive business climate.

### WASTECON Opening Breakfast Buffet – Tuesday, September 19, 2006

What better way to kick off the first day of WASTECON than to give attendees a hearty buffet breakfast sponsored by your organization?

### Exhibit Floor Reception – Wednesday, September 20, 2006

Cap off a day on the exhibit floor (and drive traffic to your booth) by sponsoring our Exhibit Floor Reception. We'll set up a bar stocked with a variety of libations right at your booth on the exhibit floor – all you need to do is watch the traffic stop by!

### Awards Luncheon – Thursday, September 21, 2006

Be a special part of this event recognizing the achievements of the best of the best in solid waste.

### Closing Reception – Thursday, September 21, 2006

Help close out a successful WASTECON in style. You decide the budget, and we do the rest – from choosing the menu of hot and cold hors d'oeuvres, to ordering the food service, and everything in between!

### Coffee & Refreshment Breaks – Various times from Tuesday, September 19 – Thursday, September 21, 2006

Coffee & Refreshment breaks are an excellent way to gain maximum exposure without breaking the corporate budget.

### Advertise in the Conference Program

Get your company's message in the hands of every single WASTECON attendee—literally! The conference program offers advertising opportunities for every budget.

### Contact:

Kerry Curtis at 301-482-1454 or email: [kcurtis@SWANA.org](mailto:kcurtis@SWANA.org)

OR

Rich Ryan at 330-686-0353 or email: [rryan@SWANA.org](mailto:rryan@SWANA.org)
